The Old Religion:

The Old Religion Demonstrated in Its Principles, and Described in the Life and Practice Thereof John Goodman, 1848 **The Grounds of the Old Religion: or, Some general arguments in favour of the Catholick, Apostolick, Roman Communion. Collected from both ancient and modern controvertists ... By a convert i.e. Richard Challoner, Bishop of Debra** Richard Challoner, 1798 **The Grounds of the Old Religion** Richard Challoner, 1814 **The Old Religion in a New World** Mark A. Noll, 2002 A foremost historian of religion chronicles the arrival of Christianity in the New World tracing the turning points in the development of the immigrant church which have led to today's distinctly American faith Old Religion, New Spirituality: Implications of Secularisation and Individualisation in Estonia, 2021-09-06 Estonia is often described as one of the most secularised countries in the world in terms of de institutionalisation and de Christianisation Old Religion New Spirituality Implications of Secularisation and Individualisation in Estonia edited by Riho Altnurme starts with the question what are the historical reasons for Estonia to be so secularised The decisive factor in the diminishment in the importance of Christianity was the overlap between social classes and ethnicities The national identity of Estonians became disconnected to any religion Second what are the consequences How are the secularity of Estonia and the picture of individualised religiosity in this country linked This book provides fresh results from surveys archival work and analysis by a group of Estonian researchers Contributors include Riho Altnurme Lea Altnurme Priit Rohtmetts Indrek Pekko Toomas Schvak Ringo Ringvee Alar Kilp and Marko Uibu Shinto: The ancient religion of Japan William George Aston, 1907 Origins The Japanese are in the main a continental race Their language and physical characteristics show conclusively that they come from Northern Asia and geographical considerations indicate that Korea must have been their point of embarkation Indeed a desultory emigration from Korea to Japan continued into historical times When we say Northern Asia we exclude China The racial affinity of the Japanese to the Chinese of which we hear so often really amounts to very little It is not closer than that which unites the most distantly related members of the Indo European family of nations The Japanese themselves have no traditions of their origin and it is now impossible to say what form of religion was professed by the earliest immigrants No inference can be drawn from the circumstance that Sun worship is common to them with many North Asiatic races The Sun is or has been worshipped almost everywhere There is distinct evidence of a Korean element in Shinto but with the little that we know of the old native religion of that country anything like a complete comparison is impossible Some have recognised a resemblance between Shinto and the old state religion of China and it is true that both consist largely of Nature worship But the two cults differ widely The Japanese do not recognise Tien Heaven the chief Nature deity of the Chinese nor have they anything to correspond to their Shangti a more personal ruler of the universe The Sun is masculine in China feminine in Japan The Sun goddess takes precedence of the Earth god in Japan while in China Heaven and Earth rank above the Sun and Moon Some Chinese traits are to be found in the old Shinto

documents but they are of later origin and are readily distinguishable from the native element A few similarities exist between Shinto and the religion of the Ainu of Yezo a savage race which once occupied the main island of Japan But it is reasonable to suppose that in this case the less civilised nation has borrowed from its more civilised neighbour and conqueror rather than vice versa It is significant that the Ainu words for God prayer and offering are taken from the Japanese If the Malay or Polynesian element which some have recognised in the Japanese race has any existence it has left no trace in religion Such coincidences as may be noted between Shinto and oceanic religions myths and practices are attributable to the like action of common causes rather than to inter communication The old Shinto owes little to any outside source It is on the whole an independent development of Japanese thought Sources of Information The Japanese had no writing until the introduction of Chinese learning from Korea early in the fifth century of our era and the first books which have come down to us date from the beginning of the eighth One of these called the Kojiki 712 is said to have been taken down from the lips of a man whose memory was well stored with the old myths and traditions of his country He was perhaps one of the guild of reciters whose business it was to recite ancient words at the ceremony which corresponds to our coronation The Kojiki is a repertory of the old myths and legends and in the latter part of the ancient history of Japan The Nihongi a work of similar scope though based more on an existing written literature was produced a few years later 720 It quotes numerous variants of the religious myths current at this time There are voluminous and most learned commentaries on these two works written by Moto ri and Hirata in the eighteenth and nineteenth centuries For the ritual of Shinto our chief source of information is the Yengishiki a compilation made early in the tenth century To be continue in this ebook *Can the Old Faith Live with the New?* George Matheson,1885 **A Documentary History of Unitarian Universalism, Volume Two** Dan McKanan,2017 A panel of top scholars presents the first comprehensive collection of primary sources from Unitarian Universalist history This critical resource covers the long histories of Unitarianism Universalism and Unitarian Universalism in the United States and around the world and offers a wealth of sources from the first fifty five years of the Unitarian Universalist Association From Arius and Origen to Peter Morales and Rebecca Parker this two volume anthology features leaders thinkers and ordinary participants in the ever changing tradition of liberal religion Each volume contains more than a hundred distinct selections with scholarly introductions by leading experts in Unitarian Universalist history The selections include sermons theologies denominational statements hymns autobiographies and manifestos with special attention to class cultural gender and sexual diversity Primary sources are the building blocks of history and A Documentary History of Unitarian Universalism presents the sources we need for understanding this denomination s past and for shaping its future The Old Religion Demonstrated in Its Principles, and Described in the Life and Practice Thereof John GOODMAN (D.D.),1684
