Early modernity has long been seen as a crucial period in the history of biblical scholarship witnessing rapid advances in studies of Hebrew Greek and the ancient Jewish and Christian past Historians have devoted much attention to how these developments were received by the academic and clerical elite and yet there is little research on their reception beyond such exclusive circles Some have even argued that ordinary believers had no interest in the demanding world of elite scholarship According to current narratives the Protestant laity were preoccupied by practical piety scripture reading and devotional exercises all of which were far removed from the dazzling polyglot erudition of the scholar Lay Learning and the Bible in the Seventeenth Century Atlantic World offers an alternative account of popular religion in early modernity by reconstructing a striking and unstudied community of seventeenth century puritan immigrants to North America Composed of tradespeople without a university education this community offers unparalleled evidence for lay engagement with even the most abstruse and challenging concerns of contemporaneous biblical scholarship Drawing on whatever resources they could find this group taught themselves the languages of biblical criticism immersed themselves in the most specialized questions of controversial theology and then promulgated through their hard earned learning an unprecedentedly inclusive vision of education society and the church By recovering their lives and interests this book presents a new vision of lay puritanism in the Atlantic world one marked by far greater ambition critical thought and intellectual boldness than ever before suspected Church 3.0 Neil Cole, 2010-02-15 An expert practitioner answers to questions about the burgeoning organic church movement Neil Cole's best selling book Organic Church described the fastest growing segment of contemporary Christianity the so called organic church Now in this next step book he answers questions about how to deal with theological and organizational issues that come up He talks about issues such as what to do with finances children heresy leader training and rituals and ordinances Without the top down structure of a denomination even people who are proponents of this small house church model worry that they are not doing it right Offers an important resource for anyone involved with or thinking of starting an organic or house church Addresses practical issues of theology rituals doctrinal heresy how to handle children finances and other important questions Written by an acknowledged expert who is now and has been for over twenty years an organic church planter and practitioner A new Leadership Network title and follow up to Organic Church Church 3.0 offers solid information about organic churches based on Cole's extensive experience in starting nurturing and mentoring in the organic church movement The Century Dictionary: The Century dictionary , 1895 The Century Dictionary and Cyclopedia: The Century dictionary ... prepared under the superintendence of William Dwight Whitney William Dwight Whitney, Benjamin Eli Smith, 1902 **The Century Dictionary and Cyclopedia: Dictionary** , 1906 *Portraits of Jewish Learning* Diane Tickton Schuster, 2019-01-11 Portraits of Jewish Learning brings together colorful accounts of the ways that Jewish students today

are having meaningful learning experiences in day school classrooms Hebrew programs synagogue based schools and high school and college courses that push students out of their comfort zone Whether the students are second graders engaged in text analysis sixth graders solving complex mystery puzzles about Jewish values or teens encountering counter narratives about Israel s history these stories informed by careful and disciplined inquiry prompt readers to reflect on questions of what Jewish learning is what we can discover by studying experiences of learning at close range and over time and how Jewish education can respond to the needs and interests of Jewish learners who seek a Judaism that is relevant in today s world The work of researchers and practitioners who are changing the landscape of contemporary Jewish education these portraits are designed to encourage critical discussion among educational leaders clergy policymakers philanthropists and parents as well as teachers and those aspiring to work in Jewish education They invite us to think about the many ways that today s Jewish education can be enriched by experimentation and innovation
