the Abbasids Various aspects of the caliphs evolving relationship with the religious scholars are studied and the nature of caliphal patronage and its impact on the scholars and ultimately on the evolution of early Sunnism is explored What emerges is a picture of close collaboration between the caliphs and the ulama with the caliphs playing an active and multifaceted role in religious life This book challenges the prevailing interpretations of the separation of religion and politics in early Islam and offers new insights into the social and religious history of Islam's formative centuries

### **On the Path of the Prophet**

Mustafa Erdil, 2023-09-05 Fethullah Gülen a contemporary scholar of Islam and activist with a large worldwide following has spent his entire life studying and teaching the Sunnah the tradition of the Prophet Muhammad (pbuh) This book explores his holistic approach to the vast knowledge of hadith and how he puts his focus on practical interpretations of the Sunnah Dr Erdil shows through the example of Gülen that it is possible to provide solutions to the problems at the individual familial and social levels today if the way of the Prophet is studied in detail and interpreted within the context of the current era

**Beyond Sectarianism** Tehseen Thaver, 2024-05-14 In this groundbreaking book Tehseen Thaver offers a fundamental reevaluation of how one should think about the relationship between the Qur'an, Shi'ism and religious identity Beyond Sectarianism focuses on the literary Arabic Qur'an exegesis of the highly influential yet less studied poet-historian and exegete al-Sharīf al-Rāḍī d. 1015 Al-Rāḍī's fascinating interpretations sought to resolve Qur'anic ambiguities or *mutashabihāt* Through a philologically layered and historically attuned analysis Thaver argues that al-Rāḍī's efforts at resolving Qur'anic ambiguities were interlocked with the project of the canonization of the Arabic language Although he was marked as a Shi'i scholar the interpretive and political horizons that informed al-Rāḍī's scholarly endeavors could not be reduced to predetermined templates of sectarian identity Rather Thaver argues al-Rāḍī was an active participant and beneficiary of critical intellectual currents and debates that animated the wider Muslim humanities during his life especially on questions of language poetry and theology Thaver thus leads her readers to reconsider their assumptions about the interaction of sectarian identity and scriptural interpretation in the study of Islam and religion Though centered on the context of late tenth and eleventh century Baghdad under the Buyid dynasty Beyond Sectarianism raises and addresses crucial questions of religious thought and identity with major ramifications for how we imagine the narrative of Islam and the place of sectarianism in it today
