studies of postcommunist societies It has important theoretical implications for everyone interested in the Political Economy of Policy Reform perspective within the field of comparative political economy John L Campbell Slavic Review **An EU Company without an EU Tax?** Karel Lannoo,2002 *Company Tax Reform in the European Union* Joann Martens-Weiner,2006-03-14 Having spent almost fifty years of my life defending the separate accounting arm's length pricing method I have to admit that I was somewhat surprised to be asked to contribute to a book suggesting that the European Union might do well to consider adopting a formulary approach to deal with the taxation of inter and intra company transactions I was even more surprised to see the invitation coming from Ms Joann Weiner an ardent co defender of arm's length pricing and my strong right arm in that regard while we both served in the U S Treasury Department in the mid 90s The book gives Ms Weiner the opportunity to comment frankly from an insider's perspective of the many admitted problems of the arm's length system which could be avoided by a formulary approach Ms Weiner brings to this project a thorough expert knowledge of the benefits and shortfalls of each of the systems she discusses separate accounting v formulary apportionment Who better to decide to give qualified support to formulary than someone who organized a U S Treasury conference to defend arm's length pricing against a Congressional challenge in favor of formulary apportionment

costs in the field of transfer pricing in particular The book is completed by three special reports on certain issues The findings of the reports included is greatly influenced by the discussions on the occasion of the Jean Monnet Conference on this topic which was held in spring 2006 in Rust Austria under the academic guidance of the Institute for Austrian and International Tax Law at the Vienna University of Economics and Business Administration Back cover
