Some of these have been successful first steps in increasing enrollment in algebra and in broadening the scope of the algebra curriculum Others have compounded existing problems Algebra is not yet conceived of as a K 14 subject Issues of opportunity and equity persist Because there is no one answer to the dilemma of how to deal with algebra making progress requires sustained dialogue experimentation reflection and communication of ideas and practices at both the local and national levels As an initial step in moving from national level dialogue and speculations to concerted local and state level work on the role of algebra in the curriculum the MSEB and the NCTM co sponsored a national symposium The Nature and Role of Algebra in the K 14 Curriculum on May 27 and 28 1997 at the National Academy of Sciences in Washington D C
