Data Rules Jim Knight, Michael Faggella-Luby, 2024-10-02

Data Rules provides much needed clarity on how instructional leaders can effectively leverage data. It's no secret that using data can be a key driver of teacher growth and student achievement. The only real question is how. Coaching expert Jim Knight and professor Michael Faggella-Luby distill decades of research into an accessible, proven approach that explains why data is important for transforming teaching. A framework of 10 easy to apply rules for effective data use. Best practices to communicate and discuss data. How to analyze data for student engagement and achievement. How to analyze data for instructional practice. To help schools achieve sustained improvement, this book also connects its data rules to the Impact Cycle. Knight's field tested model for coaching teachers based on research from the Instructional Coaching Group (ICG). Equipped with the right tools, any instructional leader or coach will be able to realize the full potential of data, move the needle on classroom instruction, and improve student outcomes. This book is a copublication of ASCD and One Fine Bird Press.

Using Data to Improve Teacher Education Charles Peck, Kristen Cuthrell, Désirée H. Pointer Mace, Tine Sloan, Diana Lys, 2021

This book offers concrete examples of how data can be used by faculty staff and program leaders to improve their collective work as teacher educators. Strong external accountability mandates often lead to tensions that undermine local morale and motivation. This volume focuses on the practical work of navigating these tensions so that valuable programmatic change can happen. It describes policies and practices drawn from a study of high data use teacher education programs from around the country that have strategically engaged the challenges of learning to use data for program improvement. Readers will see how the data use work carried out in these programs strengthened local program identity and coherence. Representing a collaborative effort between researchers and practitioners, this volume presents lessons learned to assist teacher educators who are engaged daily with the challenges of making data useful and used in their programs.

Book Features

- Examples of how tensions between external mandates for accountability and program improvement can be navigated in ways that are grounded in local program values.
- Detailed case study portraits of individual programs that offer a full and action oriented sense of data use work.
- Strategies for ensuring that data systems are responsive to multiple stakeholders such as faculty, administrators, students, and policymakers.
- A diversity of perspectives and experiences from small liberal arts colleges, large teacher preparation institutions, and research intensive universities.
