

The Space Probe

The **space probe** does not carry humans. It gathers data about objects in space and sends that information back to Earth to be processed.

The Space Shuttle

One of the most useful space crafts is the space shuttle. A **space shuttle** is a vehicle composed of a giant fuel tank, large rocket or engine and an orbiter. The orbiter can be launched into space and returned to Earth. It carries passengers and equipment.

The Space Station

A **space station** is a spacecraft in space at all times. This is where scientists live while working in space.

The two countries that have done the most work in space are the *U.S.A.* and *Russia*. Other countries involved in space exploration are China and a group of European countries.
