The Book of Enlightened Masters Andrew Rawlinson, 1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single

identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson callsspiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others

meant to teach you about the nature of reality the nature of the mind and the nature of the path to enlightenment These teachings are a precious gift and we are fortunate to have them May they inspire and guide you on your own journey to truth and liberation If you like this book write a review The Guide to Enlightenment Allison Choying Zangmo,Carolyn Kanjuro,2021-10-19 Navigate the transformative potential of the student teacher relationship with advice and personal stories from two female Buddhist teachers with decades of experience working with spiritual guides Taking a spiritual path that genuinely transforms our lives is no easy task It engages the deepest parts of ourselves and there are many pitfalls and ravines that can carry us away on this sometimes treacherous path A spiritual guide who is genuine and experienced is vital for navigating such obstacles someone to give perspective someone to trust someone to light the way The teacher student relationship has been a core part of Buddhism from the time of the Buddha and his first disciples over 2 500 years ago and it continues to be central to navigating a spiritual path of meditation and reflection In this intimate collection of personal stories and advice Allison Choying Zangmo and Carolyn Kanjuro team up to reflect on their experiences as longtime practitioners of Buddhism their own unique relationships with their partners who are also their spiritual guides and to celebrate and uphold the transformative power of the student teacher relationship As both students and leaders in their Buddhist communities Allison and Carolyn share insights into how we can successfully interpret traditional Buddhist understandings of spiritual mentorship for today s world From guidance on how to find a teacher to how to face issues of miscommunication and confrontation Kanjuro and Zangmo help readers consider their own goals and emotional boundaries as a starting point for building a positive new spiritual connection **Teachers and the Epistemology of History** Henrik Åström Elmersjö,Paul Zanazanian,2024-06-25 This edited book explores conceptual as well as empirical approaches to epistemic beliefs that teachers of history might hold In many parts of the world history teachers are tasked with both upholding historical national myths and at the same time giving students the tools needed to deconstruct history and think critically This ambiguity embedded in the combination of reconstruction and deconstruction is a difficult landscape for teachers to navigate The chapters of this book therefore explore how teachers reason regarding the epistemic nature of history and how this impacts their teaching interpretation of curricula and relationship to their students Contributions consider the implications for prospective history teachers and in service training challenges to the field and point to ways forward The book will be of interest to academics and students of history education as well as practising teachers and museum curators This is an open access book Jane Austen and the Buddha Kathryn Duncan,2021-11-15 Jane Austen wrote six books that were published at the beginning of the 19th century all with happy endings Yet below the courtship novels sparkling wit and dance scenes flows an undercurrent of suffering Austen had a deep understanding of the sources and cure for suffering that shares much in common with Buddhism Though not intentionally writing through the lens of Buddhism Austen intuitively understood the Buddha s most fundamental teaching of the Four Noble Truths that life contains

suffering that we can discover the causes of suffering and that we can stop suffering by following the Eightfold Path described by the Buddha In this book Austen fans or those who wish for a deeper understanding of how stories can alleviate suffering will discover a combination of psychology and Buddhism alongside accessible close readings of Austen This unique approach offers insight into Austen s enduring popularity and lessons we might apply to our own lives to find happiness just like Austen s heroines Drama Teachers' Association of California. Emptiness and Joyful Freedom Greg Goode,Tomas Sander,2013-08-01 The pinnacle of Buddhism s understanding of reality is the emptiness of all things Exploring reality towards the realization of emptiness is shockingly radical It uncovers an exhilarating freedom with nowhere to stand while engendering a loving joy that engages the world This path breaking book employs the emptiness teachings in a fresh innovative way Goode and Sander don t rely solely on historical models and meditations Instead they have created over eighty original meditations on the emptiness of the self issues in everyday life and spiritual paths These meditations are guided both by Buddhist insights and cutting edge Western tools of inquiry such as positive psychology neuroscience linguistic philosophy deconstruction and scepticism The result is a set of liberating and usable tools for Buddhists and non Buddhists alike **The Teacher, Literature and the Mediterranean** Simone Galea,Adrian Grima,2014-11-26 At a time when the Mediterranean has rediscovered its own vitality seven academics from the fields of education and literature look at how fictions set in the region narrate the role of the teacher from the point of view of the students and from that of the teachers themselves While an increasingly technocratic approach to the performance of teachers focuses on competences these often highly subjective narratives tell stories of practitioners who refuse to fit into the mould imposed on them by patriarchy or the educational institutions The writers dealt with in this volume are aware that teachers cannot be solely defined in terms of what they are expected to do within schools and classrooms This reductively conceives them as simply needing the skills to teach without having the ability to contextualise their teaching within wider historical social and cultural realities With its migration flows and intricate web of social and cultural politics the Mediterranean of the 21st century is an ideal space for reflections on the role of the teacher in an ever changing society Chinese Teacher Compensation System of Compulsory Education Jiang Jinqiu,2021-11-29 This book examines the compensation system for teachers in compulsory education in China and how it can be brought to bear in attracting retaining and motivating teachers while improving the quality of basic education The study first draws on theories of modern pay systems and revisits major teacher pay reforms at the national level and their implementation at the school level thereby evaluating the characteristics and problems of pay systems A comparative analysis of different pay scales and its competitiveness in contrast to other professions then further demonstrates the limitations of existing salary structures in compulsory education schools along with a failure to offer enough incentives for high quality teachers and teaching Approaching the topic from both theoretical and empirical perspectives the author proposes a restructured pay system and

advances constructive suggestions on policymaking as well as research directions in teacher pay reform The book will appeal to scholars students school officials and policymakers interested in education economics education management and administration and especially teacher pay scales and pay reforms

Russian Teachers and Peasant Revolution Scott Joseph Seregny, 1989 As the first study in any language of the crucial social link in rural Russia between broader society obshchestvo and the people narod Seregny's book will be read with great interest by all students or the late imperial period Soviet and Western William G Rosenberg This book is a timely and worthy addition to the body of work on the democratic intelligentsia of third element in prerevolutionary Russia The Russian Review compelling and moving History Today this substantial volume provides detailed evidence of the complexities and ambiguities inherent in the day to day zamstvo teacher peasant relationship in the period preceding the 1905 Revolution The Slavonic Review carefully researched and well documented The Journal of Peasant Studies
