**Signs of the Americas** Edgar Garcia,2020-01-23 Indigenous sign systems such as pictographs petroglyphs hieroglyphs and khipu are usually understood as relics from an inaccessible past That is far from the truth however as Edgar Garcia makes clear in Signs of the Americas Rather than being dead languages

these sign systems have always been living evolving signifiers responsive to their circumstances and able to continuously redefine themselves and the nature of the world Garcia tells the story of the present life of these sign systems examining the contemporary impact they have had on poetry prose visual art legal philosophy political activism and environmental thinking In doing so he brings together a wide range of indigenous and non indigenous authors and artists of the Americas from Aztec priests and Amazonian shamans to Simon Ortiz Gerald Vizenor Jaime de Angulo Charles Olson Cy Twombly Gloria Anzald a William Burroughs Louise Erdrich Cecilia Vicu a and many others From these sources Garcia depicts the culture of a modern interconnected hemisphere revealing that while these signs of the Americas have suffered expropriation misuse and mistranslation they have also created their own systems of knowing and being These indigenous systems help us to rethink categories of race gender nationalism and history Producing a new way of thinking about our interconnected hemisphere this ambitious energizing book redefines what constitutes a world in world literature *Culture and History in the Pacific* Jukka Siikala,2021-09-29

*Culture and History in the Pacific* is a collection of essays originally published in 1990 The texts explore from different perspectives the question of culture as a repository of historical information They also address broader questions of anthropological writing at the time such as the relationship between anthropologists representations and local conceptions This republication aims to make the book accessible to a wider audience and in the region it discusses Oceania A new introductory essay has been included to contextualize the volume in relation to its historical setting the end of the Cold War era and to the present study of the Pacific and indigenous scholarship The authors of *Culture and History in the Pacific* include prominent anthropologists of the Pacific some of whom Roger Keesing and Marilyn Strathern to name but two have also been influential in the anthropology of the late 20th and early 21st century in general **An Introduction to the**

Scranton,2007-10-12 Dogon cosmology provides a new Rosetta stone for reinterpreting Egyptian hieroglyphs Provides a new understanding of Egyptian hieroglyphs as scientific symbols based on Dogon cosmological drawings Use parallels between Dogon and Egyptian word meanings to identify relationships between Dogon myths and modern science In *The Science of the Dogon* Laird Scranton demonstrated that the cosmological structure described in the myths and drawings of the Dogon runs parallel to modern science atomic theory quantum theory and string theory their drawings often taking the same form as accurate scientific diagrams that relate to the formation of matter Scranton also pointed to the close resemblance between the keywords and component elements of Dogon cosmology and those of ancient Egypt and the implication that ancient cosmology may also be about actual science *Sacred Symbols of the Dogon* uses these parallels as the starting point for a new interpretation of the Egyptian hieroglyphic language By substituting Dogon cosmological drawings for equivalent glyph shapes in Egyptian words a new way of reading and interpreting the Egyptian hieroglyphs emerges Scranton shows how each hieroglyph constitutes an entire concept and that their meanings are scientific in nature Using the Dogon symbols as a

Rosetta stone he reveals references within the ancient Egyptian language that define the full range of scientific components of matter from massless waves to the completed atom even suggesting direct correlations to a fully realized unified field theory **An Introduction to the Study of the Maya Hieroglyphs** Sylvanus Griswold Morley, 2025-06-14 Reprint of the original first published in 1915 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
