The Last Hunger Sherridean Abddeen, 2025-09-01 In the fractured twilight of the galaxy war isn't just between empires it's between the forgotten and the forsaken Long ago an ancient race known as the Omegans nearly consumed Earth itself Flesh eating by nature and unmatched in physical prowess their appetite for human meat brought civilization to the brink of extinction It took a coalition of Ancient Ones and Martian warriors to banish them into a black hole at the far edge of the universe Their home world was deliberately destroyed by Mars Command and under the Treaty of Anarica all records of the Omegans were sealed and erased from galactic history But history never stays buried In the year 2087 a war erupts between pirates from Sector 5 and Sector 9 each scrambling for the last remaining scraps of fuel food and weaponry Amidst this chaos ancient warnings are accidentally triggered and from the black hole emerges Omega One the last surviving male of the Omegans with a starving wife and two young offspring Unseen for eons he begins hunting pirate ships not out of malice but to feed his dying family When Commander Elena Voss intercepts the data feed showing hollowed bodies shredded organs and only human skin left aboard ruined vessels she knows the galaxy is facing something far worse than a pirate rebellion With Mars attempting to cover up its role in the destruction of the Omegan world Voss uncovers classified files revealing that Mars was responsible for both the genocide and the starvation of the final Omegan

family As ships disappear and the predator grows bolder a deeper horror unfolds the Omegan children have inherited the hunger and they like it Voss must unite sworn enemies confront ancient Martian war crimes and decide whether mercy is worth the risk or if the last of the Omegans must be erased once and for all The story is not just about survival it s about the moral lines we cross the horrors we bury and what happens when the past finally claws its way back into the light
