The Old Country:

The Old Country George Seddon, 2005-10-04 We are a nation of gardeners and we take pleasure in tending our backyards But this pleasure sits uneasily with our knowledge that the places where most of us live are running out of water We suspect that our lawns and many of our plants from the damp climates of northern European gardens are too demanding of scarce supplies but can't imagine our streets and gardens without them The Old Country opens our eyes and minds to other possibilities It does so by telling us stories about our natural landscape George Seddon believes that the better we understand the delicacy and beauty of our natural environment the more at home we will feel as Australians This passionate wise and witty book enriched with breathtakingly beautiful illustrations suggests that the answers to our water problems lie here at home *From the Old Country* Lihe Zhong, 2014-02-11 Though he lived mostly in rural South Taiwan Zhong Lihe 1915-1960 spent several years in Manchuria and Peking moving among an eclectic mix of ethnicities classes and cultures His fictional portraits unfold on Japanese battlefields and in Peking slums as well as in the remote impoverished hill country villages and farms of Zhong Lihe's native Hakka districts His scenic descriptions are deft and atmospheric and his psychological explorations are acute The first anthology to present his work in English this volume features two novellas ten short stories and four short prose works *From the Old Country* Bruce M. Stave, John Fulton Sutherland, Aldo Salerno, 1999 For nearly a century the symbol of the American melting pot enjoyed considerable popularity Bruce M Stave and John F Sutherland explore this and other concepts in an oral history comprising the voices of European immigrants to Connecticut Both practicing oral historians their interviews join others conducted by the Works Progress Administration in the 1930s providing readers with a perspective of at least three generations of immigrant experience including the role that the family unit played both economically and socially Of special interest is the place held by immigrant women in the new world as traditional relationships between men and women and within families began to change **Heart of the Old Country** Tim McLoughlin, 2009-06-01 A young man stumbles into danger in his Brooklyn neighborhood in this inspired crime novel that is part coming of age story part thriller Entertainment Weekly In working class Bay Ridge Michael drives for a car service and gives lifts to his father a former sanitation worker and current small time bookie He has a friend with a heroin habit and a longtime girlfriend who expects they'll get married one of these days Michael spends most of his time on the familiar streets where he grew up but now he's crossing the bridge into Manhattan for some college classes where he meets a seductive female classmate who seems to come from a whole different world He is pulled in two directions but it seems like he has time to figure it all out until he finds himself in the periphery of a murder that will change his destiny forever Sweet sardonic and by turns hilarious and tragic Powerfully describes the bonds between Michael and his father The novel's greatest achievement is its tender depiction of Michael as a would be tough guy trying to follow his father's dictum of Give them nothing while undergoing a painful education in the real world Publishers Weekly Reads like an inspired cross between

political Napoleon overran Germany and the nobles and gentry had not recovered their losses during that terrible period before the State took advantage of their condition to transfer the land to the peasantry This was not done everywhere but it was so to a large extent in the south Money was advanced to the farmers to buy out their landlords and the impoverished nobility were in most cases glad to sell They disposed of the bulk of their land retaining in some cases the ancestral nest and that only No doubt that the results were good in one way but where is a good unmixed The qualifying evil is considerable in this case The gentry or nobility the terms are the same on the Continent went to live in the towns They could no longer afford to inhabit their country mansions They acquired a taste for town life its conveniences its distractions its amusements they ceased to feel interest in country pursuits they only visited their mansions for about eight weeks in the year for the Sommer frische Those who could not afford to furnish two houses carted that amount of furniture which was absolutely necessary to their country houses for the holiday and that concluded carted it back to town again This state of things continues Whilst the family is in residence at the Schloss it lives economically it is there for a little holiday it does not concern itself with the peasants the sick the suffering the necessitous It is there pour s amuser The consequence is that the Schloss is without a civilizing influence without moral force in the place The country folk have little interest in the family and the family concerns itself less with the people Not only so but it brings little money into the place It employs no labour It is there not to keep open house but to shut up the purse In former days the landlord exacted his rents but then he lived in the midst of his tenants and the money that came in as rent went out as wage and in payment for butter eggs meat oats and hay The money collected out of a place returned to it again It is so in many country places in England now where squire and parson live on the land In Germany the peasant has stepped out of obligation to the landlord into bondage to the Jew who receives but spends nothing In France the condition is much the same the great house is a ruin and so very generally is the family that occupies and owns it if it still lingers on in it
