The Organization Of Medieval Christianity:

The Organization of Medieval Christianity Summerfield Baldwin, 1929 Bibliographical note pages 99 102 *The Organization of Medieval Christianity* Summerfield Baldwin, 1962 **Organization of Medieval Christianity** Summerfield Baldwin, 1986-01-01 The Oxford Handbook of Medieval Christianity John Arnold, 2014 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field Medieval Christianity Kevin Madigan, 2015-01-13 An engaging narrative history of the medieval church with new attention to women ordinary parishioners attitudes toward Jews and Muslims and more Publishers Weekly starred review For many the medieval world seems dark and foreign an often brutal and seemingly irrational time of superstition miracles and strange relics The aggressive pursuit of heretics and attempts to control the Holy Land might come to mind Yet the medieval world produced much that is part of our world today including universities the passion for Roman architecture and the development of the gothic style pilgrimage the emergence of capitalism and female saints This new narrative history of medieval Christianity spanning the period 500 to 1500 CE attempts to integrate the familiar with new themes and narratives Elements of novelty in the book include a steady focus on the role of women in Christianity the relationships among Christians Jews and Muslims the experience of ordinary parishioners the adventure of asceticism devotion and worship and instruction through drama architecture and art Kevin Madigan expertly integrates these areas of focus with more traditional themes such as the evolution and decline of papal power the nature and repression of heresy sanctity and pilgrimage the conciliar movement and the break between the old Western church and its reformers Illustrated with more than forty photographs of physical remains this book promises to become an essential guide to a historical era of profound influence Compelling a picture of medieval Christianity that is no less lively for being well informed and carefully balanced Commonweal *The Germanization of Early Medieval Christianity* James C. Russell, 1996-06-20 While historians of Christianity have generally acknowledged some degree of Germanic influence in the development of early

medieval Christianity Russell goes further arguing for a fundamental Germanic reinterpretation of Christianity This first full scale treatment of the subject follows a truly interdisciplinary approach applying to the early medieval period a sociohistorical method similar to that which has already proven fruitful in explicating the history of Early Christianity and Late Antiquity The encounter of the Germanic peoples with Christianity is studied from within the larger context of the encounter of a predominantly world accepting Indo European folk religiosity with predominantly world rejecting religious movements While the first part of the book develops a general model of religious transformation for such encounters the second part applies this model to the Germano Christian scenario Russell shows how a Christian missionary policy of temporary accommodation inadvertently contributed to a reciprocal Germanization of Christianity

A History of the Christian Church Lars P. Qualben, 2008-09-01 *The Medieval Christian Philosophers* Richard Cross, 2013-11-19 The High Middle Ages were remarkable for their coherent sense of Christendom of people who belonged to a homogeneous Christian society marked by uniform rituals of birth and death and worship That uniformity which came under increasing strain as national European characteristics became more pronounced achieved perhaps its most perfect intellectual expression in the thought of the western Christian thinkers who are sometimes called scholastic theologians These philosophers produced during roughly the period 1050 1350 CE a cohesive body of work from their practice of theology as an academic discipline in the university faculties of their day Richard Cross elegant and stylish textbook designed specifically for modern day undergraduate use on medieval theology and philosophy courses offers the first focused introduction to these thinkers based on the individuals themselves and their central preoccupations The book discusses influential figures like Abelard Peter Lombard and Hugh of St Victor the use made by Aquinas of Aristotle the mystical theology of Bonaventure Robert Grosseteste s and Roger Bacon s interest in optics the complex metaphysics of Duns Scotus and the political thought of Marsilius of Padua and William of Ockham Key themes of medieval theology including famous axioms like Ockham s Razor are here made fully intelligible and transparent

Medieval Christianity Daniel E. Bornstein, 2006 **The Spiritual Language of Art: Medieval Christian Themes in Writings on Art of the Italian Renaissance** Steven F.H. Stowell, 2014-11-13 Analyzing the literature on art from the fifteenth and sixteenth centuries The Spiritual Language of Art explores the complex relationship between visual art and spiritual experiences during the Italian Renaissance Though scholarly research on these writings has predominantly focused on the influence of classical literature this study reveals that Renaissance authors consistently discussed art using terms concepts and metaphors derived from spiritual literature By examining these texts in the light of medieval sources greater insight is gained on the spiritual nature of the artist s process and the reception of art Offering a close re readings of many important writers Alberti Leonardo Vasari etc this study deepens our understanding of attitudes toward art and spirituality in the

Italian Renaissance Christendom and Christianity in the Middle Ages Adriaan Bredero, 1994 This is a print on demand book and is therefore non returnable Though buffeted on all sides by rapid and at times cataclysmic social political and economic change the medieval church was able to make adjustments that kept it from becoming simply a fossil from the past rather than an enduring institution of salvation The dynamic interaction between the medieval church and society gives form to this compelling and well informed study by Adriaan Bredero By considering medieval Christianity in full relation to its historical context Bredero elucidates complex medieval realities many of which run counter to common modern notions about the Middle Ages Bredero moves beyond the usual treatment of history by framing his overall discussion in terms of a fascinating and relevant question To what extent is Christianity today still molded by medieval society The book begins with an overview of religion and the church in medieval society from the early Christianization of Western Europe through the fifteenth century Bredero counters earlier romanticized assessments of the Middle Ages as a thoroughly Christian period by arriving at a definition of Christendom not in its original sense as the empire of Charlemagne but rather as the countries people and matters which stood under the influence of Christ **Medieval Christian Literary Imagery** Robert Earl Kaske, Arthur Groos, Michael W. Twomey, University of Toronto. Centre for Medieval Studies, 1988-01-01 If a reader of Chaucer suspects that an echo of a biblical verse may somehow depend for its meaning on traditional commentary on that verse how does he or she go about finding the relevant commentaries If one finds the word fire in a context that suggests resonances beyond the literal how does that reader go about learning what the traditional figurative meanings of fire were It was to the solution of such difficulties that R E Kaske addressed himself in this volume setting out and analyzing the major repositories of traditional material biblical exegesis the liturgy hymns and sequences sermons and homilies the pictorial arts mythology commentaries on individual authors and a number of miscellaneous themes An appendix deals with medieval encyclopedias Kaske created a tool that will revolutionize research in its designated field the discovery and interpretation of the traditional meanings reflected in medieval Christian imagery *The American Historical Review* John Franklin Jameson, Henry Eldridge Bourne, Robert Livingston Schuyler, 1927 American Historical Review is the oldest scholarly journal of history in the United States and the largest in the world Published by the American Historical Association it covers all areas of historical research **A Short History of Christianity** John Mackinnon Robertson, 1913 *Christianity Without God* Lloyd Geering, 2015-12-23 Does the failure of the conventional idea of God spell the end of the Christian tradition Or does it simply mean the end of conventional Christian doctrine Christianity without God affirms the latter treating Christian culture as a living and evolving stream In this cogently argued book Lloyd Geering brings the resources of his deep scholarship to look at what the world really needs from contemporary religion His inspiration is the cultivation of the wisdom of Christianity not a dependence on beliefs about a supernatural saviour **International Organization and Global Governance** Thomas G. Weiss, Rorden Wilkinson, 2013-10-15 Featuring a strikingly diverse and impressive team of authors

Christian Heresy, James Joyce, and the Modernist Literary Imagination Gregory Erickson, 2022-02-10 Organized by heretical movements and texts from the Gnostic Gospels to The Book of Mormon this book uses the work of James Joyce particularly Ulysses and Finnegan s Wake as a prism to explore how the history of Christian heresy remains part of how we read write and think about books today Erickson argues that the study of classical medieval and modern debates over heresy and orthodoxy provide new ways of understanding modernist literature and literary theory Using Joyce s works as a springboard to explore different perspectives and intersections of 20th century literature and the modern literary and religious imagination this book gives us new insights into how our modern and secular reading practices unintentionally reflect how we understand our religious histories
