Michael Plekon,Maria Gwyn McDowell,Elizabeth Schroeder,2016-09-30 The origin of the phrase the church has left the building lies with Elvis In order to clear halls of his riotous fans after concerts it was announced that Elvis has left the building Here the expression highlights intense change within the church Not only does the church change for its own existence it also does so for the life of the world The church cannot avoid the many past and future changes of our constantly transforming society demographic changes long in process What you have before you is a gathering of first hand reflections stories really from a diverse group of Christians lay as well as ordained While each has a distinctive experience of the church in our time all of them have something to say about the many changes in our society and how these are affecting our faith the parish and pastoral work Contributors Mary Breton Nicholas Denysenko Adam A J DeVille John C Frazier David Frost Carol Fryer Kenneth J Guest Brett Hoover Abbie Huff Wongee Joh Justin Mathews Maria Gwyn McDowell William C Mills Robert

Corin Morris Sarah Hinlicky Wilson Michael Plekon **Political Construction Sites** Pal Kolsto,2018-02-19 The dissolution of the Soviet Union has provided scholars with tremendously rich material for the study of comparative nation building Not since the decolonization of Africa in the 1960s have so many new states been established in one stroke in one region The post Soviet states moreover have all the necessary prerequisites for fruitful comparison a number of similarities but also significant differences in terms of size culture and recent history In order to survive in the long run modern states normally must have a population that possesses some sense of unity Its citizens must adhere to some common values and common allegiance towards the same state institutions and symbols This does not mean that all inhabitants must necessarily share the same culture but they should at least regard themselves as members of the same nation Strategies to foster this kind of common nationhood in a population are usually referred to as nation building After a decade of post Soviet nation building certain patterns are emerging and not always the most obvious ones Some states seem to manage well against high odds while others appear to be disintegrating or sinking slowly into oblivion To a remarkable degree the former Soviet republics have chosen different models for their nation building This book examines the preconditions for these endeavors the goals

the state leaders are aiming at and the means they employ to reach them

The Ecclesiology of St. Basil the Great Olga Druzhinina,2016-06-22

In this book Olga Druzhinina analyzes St Basil s understanding of the church paying special attention to his Trinitarian approach to its life Although the role of God the Trinity in the life of the church occupies a considerable place in St Basil s thought as Druzhinina demonstrates it is a subject that has not previously been addressed by scholars The analysis offered here of the life of the church as grounded in Trinitarian philanthropy provides fresh insights into St Basil s understanding of the worldwide fellowship of believers Druzhinina also brings into focus another neglected aspect of St Basil s ecclesiology his perception of the church as a two dimensional heaven and earth mystical reality with a strong bond between both parts the heavenly and the earthly
