Jewish Slavery in Antiquity Catherine Hezser, 2005-12-22 This book is the first comprehensive analysis of Jewish attitudes towards slavery in Hellenistic and Roman times Against the traditional opinion that after the Babylonian Exile Jews refrained from employing slaves Catherine Hezser shows that slavery remained a significant phenomenon of ancient Jewish everyday life and generated a discourse which resembled Graeco Roman and early Christian views while at the same time preserving specifically Jewish nuances Hezser examines the impact of domestic slavery on the ancient Jewish household and on family relationships She discusses the perceived advantages of slaves over other types of labor and evaluates their role within the ancient Jewish economy The ancient Jewish experience of slavery seems to have been so pervasive that slave images also entered theological discourse Like their Graeco Roman and Christian counterparts ancient Jewish intellectuals did not advocate the abolition of slavery but they used the biblical tradition and their own judgements to ameliorate the status quo

Children in the Ancient Near Eastern Household Kristine Garroway, 2014-10-21 Children were an important part of the ancient Near Eastern household This idea seems straightforward but it can be understood in many ways On a basic level children are necessary for the perpetuation of a household On a deeper level the definitions of child and member of the household are far from categorical This book begins to explore the multiple definitions of child and the way the child fits within a household It examines what membership in the household looks like for children and what factors contribute to it A study addressing what a child is and how a child's gender and social status affect her place in the household is vital to a proper understanding of the ancient Near Eastern household Despite their importance children have long been marginalized in discussions of ancient societies Only recently has this trend begun to change within biblical and ancient Near Eastern scholarship A recent wave of studies especially in relation to the Hebrew Bible has started to address children in their own right In light of the current state of scholarship on children the purpose of this book is threefold First Garroway continues to fill out the picture of the child in the ancient Near East by compiling child centric texts and

archaeological realia In analyzing these materials she surveys the relationship between children and ancient Near Eastern society by examining the extent to which structuring forces in a community such as social status and gender contribute to the process of a child's becoming a member of his household and society Finally this information provides a base for future research for example a cross cultural study of children in the ancient Near East in *Classical Antiquity* *Popular*
