Speak To Me In Medicine:

Healing and Medicine Paul Dieppe, 2023-12-29 Healing is on many people's minds today. In the wake of the COVID 19 pandemic and a host of other disruptions and disasters many of us feel that we need healing in our personal lives for the environment and for our planet. But healing is rarely defined and is not an accepted part of medicine in the West. This book examines the relationship between healing and medicine through the eyes of an academic physician who changed his interests from biomedical research to healing late in his career in medicine. It is based on his experiences and stories of his encounters with patients, practitioners and others for whom healing has had a particular significance as well as his rigorous research into the subject. A central theme of the book is that modern medicine needs to be more pluralistic in its approach to health and accept that spirituality and healing techniques have roles to play alongside scientific medicine which currently has its base in materialism alone.

Intertwinements of Law and Medicine Jan M. Broekman, 1996 The general aim of this book is to discuss a number of important and interrelated issues in the life of modern man in medicine and the law. That discussion is not only on material aspects of those issues but also on the forms of knowledge which enable us to develop the relevant arguments and to cope with related experiences in everyday life. These issues are on the whole understood in terms of the law-medicine relationship or the law and medicine interface. However, a reflexion on the philosophical and cultural basis of those expressions shows the shortcomings of that approach and the need for an understanding of that relationship in terms of intertwining discourses.

Songs for Dead Parents Erik Mueggler, 2017-12-02 In a society that has seen epochal change over a few generations, what remains to hold people together and offer them a sense of continuity and meaning? In *Songs for Dead Parents* Erik Mueggler shows how in contemporary China death and the practices surrounding it have become central to maintaining a connection with the world of ancestors: ghosts and spirits that socialism explicitly disavowed. Drawing on more than twenty years of fieldwork in a mountain community in Yunnan Province, *Songs for Dead Parents* shows how people view the dead as both material and immaterial: as effigies, replace corpses; tombstones replace effigies; and texts eventually replace tombstones in a long process of disentangling the dead from the shared world of matter and memory. It is through these processes that people envision the cosmological underpinnings of the world and assess the social relations that make up their community. Thus state interventions aimed at reforming death practices have been deeply consequential, and Mueggler traces the transformations they have wrought and their lasting effects.

Martial Artists Daniel Miles Amos,2021-03-24 This imaginative and innovative study by Daniel Miles Amos begun in 1976 and completed in 2020 examines sociocultural changes in the practices of Chinese martial artists in two closely related and interconnected southern Chinese cities Hong Kong and Guangzhou The initial chapters of the book compare how sociocultural changes from World War II to the mid 1980s affected the practices of Chinese martial artists in the British Crown Colony of Hong Kong and neighboring Guangzhou in mainland China An analysis is made of how the practices of Chinese martial artists have been influenced by revolutionary sociocultural changes in both cities In Guangzhou the victory of

the Chinese Communist Party lead to the disappearance in the early 1950s of secret societies and kungfu brotherhoods Kungfu brotherhoods reappeared during the Cultural Revolution and subsequently were transformed again after the death of Mao Zedong and China's opening to capitalism In Hong Kong dramatic sociocultural changes were set off by the introduction of manufacturing production lines by international corporations in the mid 1950s and the proliferation of foreign franchises and products Economic globalization in Hong Kong has led to dramatic increases both in the territory's Gross Domestic Product and in cultural homogenization with corresponding declines in many local traditions and folk cultures including Chinese martial arts The final chapters of the book focus on changes in the practices of Chinese martial arts in Hong Kong from the years 1987 to 2020 a period which includes the last decade of British colonial administration as well as the first quarter of a century of rule by the Chinese government

Boston Medical and Surgical Journal, 1892 **The New England Journal of Medicine**, 1895 *Effigy* Allison M. Cotton, 2008-01-01 Effigy examines the images of a capital defendant portrayed by the

defense attorneys and the prosecutor during the guilt and penalty phases of capital trial the trial tactics used to impart these images and the consequences that result from the jury's attempt to reconcile contradictory images to place one in permanent record as a verdict These images are starkly contrasted against the backdrop of a brutal murder in which the stereotypes of American fear are realized Donta Page the defendant is an African American male from a low income segment of society while Peyton Tuthill the victim was a Caucasian female from a middle income suburb The prosecuting attorneys depict the defendant as a savage beast juxtaposing their image against that of a troubled youth as Page is portrayed by the defense attorneys Slowly and methodically developed as figures with diametrically opposed features none of which overlap or congeal both the images are portrayed as real buttressed by the testimony of witnesses rather than constructed The jury is expected to render a verdict that accepts one and rejects the other there is no middle ground *British Medical Journal* ,1922
