Speaking Peace Urvashi Butalia,2002 Contributed articles and interviews with women from Kashmir India on their socio political status      *Female Combatants in Conflict and Peace* Seema Shekhawat,2015-07-21 This edited volume illuminates the role of women in violence to demonstrate that gender is a key component of discourse on conflict and peace Through an examination of theory and practice of women s participation in violent conflicts the book makes the argument that both conflict and post conflict situations are gender insensitive      **Gender, Conflict and Peace in Kashmir** Seema Shekhawat,2014-03-06 Discusses the role of women in militancy in Kashmir from a historical perspective Provided by publisher      **The Diversity of Muslim Women's Lives in India** Zoya Hasan,Ritu Menon,2005 In order to broaden the lens through which Muslim women are typically seen a group of researchers in India carried out a large and unprecedented study of one of the most disadvantaged sections of Indian society The editors of The Diversity of Muslim Women s Lives in India bring together this research in a comprehensive collection of informative and revealing case studies      **Landscapes of Fear** Patrick Hoenig,Navsharan Singh,2014-07-04 Drawing on the findings of a comparative research project this volume tackles a set of intricate questions about the workings of impunity in India How do victims of abuse and survivors of sexual violence end up being denied justice What do those on the margins those with the wrong sex wrong identity markers wrong political leanings tell us about violence by state and non state actors Bringing together senior academics civil society leaders and fresh voices from the across India the volume offers analysis contextual structural and gendered and breaks new conceptual ground on the underbelly of India Shining The volume contains testimonies that were collected during fieldwork in four Indian states Published by Zubaan      **Peace Processes** John D. Brewer,2010-03-08 Peace processes are mostly very fragile This engagingly written book takes a bold new approach to the topic by beginning from the premise that sociology can identify those factors that help to stabilize them The book draws a distinction between the political and social dimensions of peace processes arguing that each is dependent on the other Consideration of the social peace process neglected in conventional treatments of the subject is made central to this volume While complementing current approaches that emphasize institutional reform in politics law and economics it pays due attention to sociological factors such as gender civil society religion the deconstruction of violent masculinities restorative justice emotions hope forgiveness truth recovery social memory and public victimhood These important themes are fully illustrated with examples and in depth case studies from across the globe The book locates itself within the growing debate about the positive impact of global civil society on peace and identifies the new forms of peace work engendered by globalization It will be essential reading for students and scholars of peace studies in politics international relations and sociology departments      Inner Line Urvashi Butalia,2006 This anthology testifies to women s many concerns whether witht a way of life or with being caught inside the fur walls of the home or in a relationship with someone other than the husband or being caught at the intersection of many forces within a

situation of political violence and armed conflict In one way or another the woman s body becomes a site upon which many battles take place for control for power for progeny but there is seldom a resolution in which the women remains a mere victim or more acted upon than acting Whether she is in the palaces of the gods or caught in the body of snake or speaking through the spirit of the countryside which witnessed her rape the woman s voice is unique singular and in each story different While this gives substance to the cliché that India is a countr where many and varied realities exist simultaneously it gives the lie to the cliché that all women speak with a sameness and a commonality of experiences

*Conflicted Democracies and Gendered Violence* Angana P. Chatterji, Shashi Buluswar, Mallika Kaur, 2016-11-04 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems medical regimes and social institutions The period after the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence The essays in this volume attempt to trace a history of sexual violence in Nepal look at the responses of women s groups and society at large and suggest how this serious and wide ranging problem may be addressed

Introduction to Geopolitics

Colin Flint, 2012-07-26 This clear and concise introductory textbook guides students through their first engagement with geopolitics. It offers a clear framework for understanding contemporary conflicts by showing how geography provides opportunities and limits upon the actions of countries, national groups and terrorist organizations. This second edition is fundamentally restructured to emphasize geopolitical agency and non-state actors. The text is fully revised, containing a brand new chapter on environmental geopolitics which includes discussion of climate change and resource conflicts. The text contains updated case studies such as the Korean conflict, Israel/Palestine and Chechnya and Kashmir to emphasize the multi-faceted nature of conflict. These along with guided exercises help explain contemporary global power struggles: environmental geopolitics, the global military actions of the United States, the persistence of nationalist conflicts, the changing role of borders and the new geopolitics of terrorism and peace movements. Throughout, the reader is introduced to different theoretical perspectives including feminist contributions as both the practice and representation of geopolitics are discussed. *Introduction to Geopolitics* is an ideal introductory text which provides a deeper and critical understanding of current affairs, geopolitical structures and agents. The text is extensively illustrated with diagrams, maps, photographs and end of chapter further reading. Both students and general readers alike will find this book an essential stepping stone to understanding contemporary conflicts. *Feminism, Literature and Rape Narratives* SORCHA GUNNE, ZOE BRIGLEY

Thompson, 2012-08-06 The essays in this volume discuss narrative strategies employed by international writers when dealing with rape and sexual violence, whether in fiction, poetry, memoir or drama. In developing these new feminist readings of rape narratives, the contributors aim to incorporate arguments about trauma and resistance in order to establish new dimensions of healing. This book makes a vital contribution to the fields of literary studies and feminism since while other volumes have focused on retroactive portrayals of rape in literature to date, none has focused entirely on the subversive work that is being done to retheorize sexual violence. Split into four sections, the volume considers sexual violence from a number of different angles. *Subverting the Story* considers how the characters of the victim and rapist might be subverted in narratives of sexual violence. In *Metaphors for Resistance*, the essays explore how writers approach the subject of rape obliquely using metaphors to represent their suffering and pain. The controversy of not speaking about sexual violence is the focus of *The Protest of Silence*, while *The Question of the Visual* considers the problems of making sexual violence visible in the poetic image in film and on stage. These four sections cover an impressive range of world writing which includes curriculum staples like Toni Morrison, Sarah Kane, Sandra Cisneros, Yvonne Vera and Sharon Olds. **Misogyny across Global Media** Maria B.

Marron, 2021-03-01 *Misogyny across Global Media* argues that although women's experiences under misogyny are by no means universal, patriarchal social and institutional systems facilitate gender-based hostility across the globe. Contributors demonstrate how systemic misogyny and power inequities are at the root of women's suffering at the hands of misogyny, with consequences ranging from sexual harassment to rape and even murder. This book provides an interdisciplinary overview of

systemic misogyny worldwide analyzing specific cases such as the controversial Child Marriage Act in Bangladesh sexual harassment in India s Bollywood culture rape culture among military forces in Jammu and Kashmir the murder of female students in Kenya and femicide in Turkey This collection discusses how misogyny creates a clash of cultures between men and women the powerful and the oppressed and the conservative and the liberal and uncovers the evils that are perpetrated against women worldwide as a result of systemic misogyny Scholars of gender studies media studies and cultural studies will find this book particularly useful
