this sport but also to people like me who have never speared a fish but are passionately interested in diving and in fish This book emphasizes safety and I would urge any prospective spear fisher to read and carefully follow Mike s advice on safety Mike covers fitness in great detail including useful exercises to improve your fitness He also gives his ideas about equipment As Mike says spear fishing has been done for thousands of years At first this would have been a way of getting food but as with many human activities it has developed into a sport The book caused me to consider who the first spear fishers were Although I referred to spear fishing as a human activity the first spear fishers were almost certainly not human Bonobos a type of ape will catch fish with their hands and have been observed to make and use very primitive spears The first spear fishers were almost certainly an earlier near human creature Steve Challis Australia **The Complete Book of Skin and Scuba Diving** George Sullivan,1969 **Mask and Flippers** Lloyd Bridges,Bill Barada,1960 *The New Science of Skin and Scuba Diving.
