Special Moments In Life:

The Moments That Define One's Life Lloyd N. Moffatt, 2012-02-21 Each moment in your life comes with a purpose Although the purpose at times is taken for granted these moments when they arise bring forth a significant meaning for ones destiny and destination in life For example imagine how every person in this world has passed through a moment full of promises and opportunities but when that moment passes he or she has no way of knowing if it will ever rise again Apparently whatever the moment may be our lives are defined by the energy faith belief and action into bringing each moment to life so that it can transcend toward greater moments dreams and endeavors Each moment by all means is vital and the mark that one has left in this world will be measured by what he or she has achieved in the time allowed Thus what you do with your life today will define your dreams and destiny as each significant moment rises and the time that is given to it is taken away This book will help you Develop a greater sense of why each moment in life matters Believe in yourself to accomplish any impossible dream or goal Generate positive attitudes faith and unstoppable principles of action **Spiritual**

Stern,2010-05-17 While most psychotherapies agree that therapeutic work in the here and now has the greatest power to bring about change few if any books have ever addressed the problem of what here and now actually means Beginning with the claim that we are psychologically alive only in the now internationally acclaimed child psychiatrist Daniel N Stern tackles vexing yet fascinating questions such as what is the nature of nowness How is now experienced between two people What do present moments have to do with therapeutic growth and change Certain moments of shared immediate experience such as a knowing glance across a dinner table are paradigmatic of what Stern shows to be the core of human experience the 3 to 5 seconds he identifies as the present moment By placing the present moment at the center of psychotherapy Stern alters our ideas about how therapeutic change occurs and about what is significant in therapy As much a meditation on the problems of memory and experience as it is a call to appreciate every moment of experience *The Present Moment* is a must read for all who are interested in the latest thinking about human experience *Memoir in Two Voices* Rancois Mitterrand,2011-09-29 Near the end of his second term as president of France Fran ois Mitterrand decided to talk openly about his life both personal and political President for fourteen years longer than anyone else in the history of the French Republic Mitterrand was interested not in constructing an elaborate memorial to himself in words but in leaving behind a living testament He therefore turned to someone whom he knew and trusted Nobel laureate Elie Wiesel a close friend of many years to join him in a vibrant vigorous exchange The topics they discuss in these pages are childhood faith war power writing and those moments however and whenever they arrive that shape and sometimes define us as people Mitterrand and Wiesel s dialogue is spontaneous thoughtful lyrical blunt far reaching and candid whether it involves controversial moments in Mitterrand s political career Wiesel s memories of Auschwitz the importance of family and religion in their lives or simply their favorite books and walks Here is an unobstructed view into the lives and times of two of the greatest figures of conscience of our century an inspiring memoir in two voices *The Little Handbook of Mindfulness* Dr. Tan Seng Beng,2023-06-29 The Little Handbook of Mindfulness is a comprehensive guidebook featuring 239 guided mindfulness exercises on the four foundations of mindfulness body feelings mind and thoughts Written to help readers alleviate stress and suffering by unleashing the power of presence in their lives the book guides readers to find peace and purpose in every moment discover their inner sanctuary and build a compassionate world one moment at a time It provides readers with a wide range of mindfulness exercises from basic tasks such as smiling to a cashier being mindful of rain or while sweeping the floor to more advanced exercises like sitting with difficult emotions delving into the
