Cannabis Ernest Small,2016-10-14 Cannabis sativa is best known as the source of marijuana the world s most widely consumed illicit recreational drug However the plant is also extremely useful as a source of stem fiber edible seed oil and medicinal compounds all of which are undergoing extremely promising research technological applications and business investment Indeed despite its capacity for harm as a recreational drug cannabis has phenomenal potential for providing new products to benefit society and for generating extensive employment and huge profits Misguided policies until recently have prevented legitimate research on the beneficial properties of cannabis but there is now an explosion of societal scientific and political support to reappraise and remove some of the barriers to usage Unfortunately there is also a corresponding dearth of objective analysis Towards redressing the limitation of information Cannabis A Complete Guide is a comprehensive reference summarizing botanical business chemical ecological genetic historical horticultural legal and medical considerations that are critical for the wise advancement and management of cannabis in its various forms This book documents both the risks and benefits of what is indisputably one of the world s most important species The conflicting claims for medicinal virtues and toxicological vices are examined based mainly on the most recent authoritative scientific reviews The attempt is made consistently to reflect majority scientific opinion although many aspects of cannabis are controversial Aside from the relevance to specialists the general public should find the presentation attractive because of the huge interest today in marijuana Unfortunately society has become so specialized and compartmentalized that most people have limited appreciation of the importance of science to their lives except when a topic like marijuana becomes sensationalized This review of cannabis can serve as a vehicle for public education in the realm of science and technology Indeed towards the goal of disseminating the important information in this book to a wide audience the presentation is user friendly concise and well illustrated in the hope that non specialists will find the topics both informative and entertaining

Handbook of Cannabis Production in Controlled Environments Youbin Zheng,2022-06-29 For thousands of years Cannabis sativa commonly called cannabis or marijuana has been used for many different purposes Due to its enormous medicinal values increasing numbers of countries and regions have started to legalise the cultivation of this plant When grown commercially cannabis is most often produced in controlled environments including greenhouse and indoor growing rooms to ensure consistent growth and high quality Even for field production propagation is frequently conducted in

controlled environments Commercial operations and individual growers who cultivate cannabis for personal consumption require scientific information on how to cultivate cannabis most effectively and efficiently To meet these needs scientists have been conducting research on how to optimize cannabis cultivation both in small and large scales Handbook of Cannabis Production in Controlled Environments is the result of collaborations between some leading cannabis scientists and highly experienced practitioners Featuring full color illustrations and photographs throughout this book covers a broad range of topics include cannabis biology science and techniques for breeding and propagation management and optimization of both aerial and rootzone environments plant nutrition and nutrient disorder diagnosis crop training and pest management harvesting and post harvest processing Along with the basic aspects of controlled environment cannabis production this book summarises developments in these areas that may challenge old beliefs and improve production Led by Editor Youbin Zheng President of the Canadian Society for Horticultural Science La Soci t Canadienne de Science Horticole this book is a practical guide for cultivators consultants and researchers a reference for students and an information source for individuals who grow cannabis for personal consumption The Analytical Chemistry of Cannabis Brian F. Thomas,Mahmoud A.

ElSohly,2015-12-01 A volume in the Emerging Issues in Analytical Chemistry series The Analytical Chemistry of Cannabis Quality Assessment Assurance and Regulation of Medicinal Marijuana and Cannabinoid Preparations provides analytical chemistry methods that address the latest issues surrounding cannabis based products The plethora of marketed strains of cannabis and cannabinoid containing products combined with the lack of industry standards and labelling requirements adds to the general perception of poor quality control and limited product oversight The methods described in this leading edge volume help to support the manufacturing labelling and distribution of safe and consistent products with known chemical content and demonstrated performance characteristics It treats analytical chemistry within the context of the diverse issues surrounding medicinal and recreational cannabis in a manner designed to foster understanding and rational perspective in non scientist stakeholders as well as scientists who are concerned with bringing a necessary degree of order to a field now characterized by confusion and contradiction Addresses current and emerging analytical chemistry methods an approach that is unique among the literature on this topic Presents information from a broad perspective of the issues in a single compact volume Employs language comprehensible to non technical stakeholders as well as to specialists in analytical chemistry **Cannabis sativa L. - Botany and Biotechnology** Suman Chandra,Hemant Lata,Mahmoud A.

ElSohly,2017-05-23 This book highlights current Cannabis research its botany authentication biotechnology in vitro propagation chemistry cannabinoids biosynthesis metabolomics genomics biomass production quality control and pharmacology Cannabis sativa L Family Cannabaceae is one of the oldest sources of fiber food and medicine This plant has been of interest to researchers general public and media not only due to its medicinal properties but also the controversy surrounding its illicit use Cannabis has a long history of medicinal use in the Middle East and Asia being first introduced as a

medicine in Western Europe in the early 19th century Due to its numerous natural constituents Cannabis is considered a chemically complex species It contains a unique class of terpeno phenolic compounds cannabinoids or phytocannabinoids which have been extensively studied since the discovery of the chemical structure of tetrahydrocannabinol (THC) commonly known as THC the main constituent responsible for the plant's psychoactive effects An additionally important cannabinoid of current interest is Cannabidiol (CBD) There has been a significant interest in CBD and CBD oil extract of CBD rich Cannabis over the last few years because of its reported activity as an antiepileptic agent particularly its potential use in the treatment of intractable epilepsy in children *The Handbook of Cannabis Therapeutics* Ethan B. Russo, Franjo Grotenhermen, 2014-05-22

Learn the facts behind the pharmacology and pharmacokinetics of controversial cannabis therapeutics *The Handbook of Cannabis Therapeutics* From Bench to Bedside sets aside the condemnation and hysteria of society's view of cannabis to concentrate on the medically sound aspects of cannabis therapeutics The world's foremost experts provide a reasoned thoroughly researched overview of the controversial subject of cannabis from its history as a medicine through its latest therapeutic uses The latest studies on the botany history biochemistry pharmacology toxicology clinical use for various illnesses such as AIDS epilepsy and multiple sclerosis and side effects of marijuana are all examined and discussed in depth This comprehensive resource is a compendium of articles from the *Journal of Cannabis Therapeutics* with additional contemporary commentary It presents startling research that explores and supports the medicinal value of cannabis use and its derivatives as a valid therapeutic resource for pain and inflammation for several illnesses less responsive to other therapies and even for certain veterinary uses Cannabinoids such as nabilone THC levonantradol ajulemic acid dexamnabinol and others are extensively described with a review of new indications for cannabinoid pharmaceuticals The book is carefully referenced to encourage your examination of previous studies and provides tables and figures to enhance understanding of information *The Handbook of Cannabis Therapeutics* discusses the uses of cannabis in Arabic Greek Roman and early English medicines absorption rates pharmacokinetics pharmacodynamics separate extracts versus the use of cannabis in its entirety the therapeutic value of the endocannabinoid system cannabinoids and newborn feeding a comparison of smoking versus oral preparations clinical research data on eating cannabis therapeutic uses as appetite stimulant treatments in obstetrics and gynecology medicinal treatments used in Jamaica the use of cannabis in the treatment of multiple sclerosis the benefits versus the adverse side effects of cannabis use *The Handbook of Cannabis Therapeutics* is a reference work certain to become crucial to physicians psychologists researchers biochemists graduate students and interested members of the public *Cannabis Chemistry and Biology* Mahmoud A. ElSohly, 2023-05-22 This book serves as an introduction to graduate students and early career researchers on chemistry and botany of the cannabis plant Cannabis botany propagation biotechnology chemistry cannabinoids and their biosynthesis chemovars of cannabis and their identification as well as the other chemical classes of compounds known to exist in the plant Analytical methods are

discussed to establish identity and Potency changes over the years in the United States This book will build a base of knowledge on the complexity of cannabis chemistry Features Introduction to the fundamental chemistry and botany of Cannabis State of the art research on Cannabis sativa The history botany major chemical classes of cannabis as well as methods of analysis and potency trends over several decades in the United States Written by prominent scientists in the field of cannabis The Cannabis Chemistry Subdivision of the American Chemical Society recently founded in 2022 the ElSohly Award sponsored by Heidolph North America in honour of Prof Mahmoud A ElSohly This award provides researchers students and industry professionals with resources to present their work at the Spring National Meeting of the American Chemical Society at the ElSohly Award Symposium More information <https://cann.acs.org/wp-content/uploads/2020/12/CANN-Postcard-Award.pdf> Cannabis Laboratory Fundamentals Shaun R. Opie, 2021-03-09 The legislative requirement for cannabis to undergo laboratory testing has followed legalization of medical and recreational use in every U S state to date Cannabis safety testing is a new investment opportunity within the emerging cannabis market that is separate from cultivation processing and distribution allowing individuals and organizations who may have been reluctant to enter previously a new entry route to the cannabis space However many of the costs timelines operational requirements and compliance issues are overlooked by people who have not been exposed to regulated laboratory testing Cannabis Laboratory Fundamentals provides an in depth review of the key issues that impact cannabis testing laboratories and provides recommendations and solutions to avoid common but expensive mistakes The text goes beyond methodology to include sections on economics regulation and operational challenges making it useful for both new and experienced cannabis laboratory operators as well as all those who want to understand the opportunities and risks of this industry **Weeds** Zachary J. S. Falck, 2011-03-15 As long as humans have existed they've worked and competed with plants to shape their surroundings As cities developed and expanded their diverse spaces were covered with and colored by weeds In Weeds Zachary J S Falck presents a comprehensive history of happenstance plants in American urban environments Beginning in the late nineteenth century and continuing to the present he examines the proliferation perception and treatment of weeds in metropolitan centers from Boston to Los Angeles In dynamic city ecosystems population movements and economic cycles establish and transform habitats where vegetation continuously changes Americans came to associate weeds with infectious diseases and allergies illegal dumping vagrants drug dealers and decreased property values Local governments and citizens groups attempted to eliminate unwanted plants to better their urban environments and improve the health and safety of inhabitants Over time a growing understanding of the natural environment made happenstance plants more tolerable and even desirable In the twenty first century scientists have warned that the effects of global warming and the heat trapping properties of cities are producing more robust strains of weeds Falck shows that nature continues to flourish where humans have struggled in the aftermath of Hurricane Katrina in the abandoned homes of the California housing bust and alongside

crumbling infrastructure Weeds are here to stay *Cannabis, Sacred and Profane* Christopher Partridge, 2024-08-22 Focussing on the ways in which cannabis has been demonized sacralized and normalized Christopher Partridge analyses the complex and often difficult relationship Western societies have had with the plant since the nineteenth century After an introduction to cannabis and its uses the book discusses how and why it was constructed as a profane influence and a marker of deviance It then examines the emergence of medicinal cannabis showing how this has contributed to its normalization and even its sacralization Finally there is a discussion of sacred cannabis which looks at its use within modern occultism Rastafari and several cannabis churches Overall the book provides a cultural history of cannabis in the modern world which exposes the underlying reasons for the various and changing attitudes to this popular psychoactive substance **Cannabis**
