Bankers' Magazine, and Journal of the Money Market ,1848 *Ready to Trample on All Human Law* Paul A.

Jarvie,2014-02-04 This book explores the relationship between Dickens s novels and the financial system Elements of Dickens s work form a critique of financial capitalism This critique is rooted in the difference between use value and exchange value and in the difference between productive circulations and mere accumulation In a money based society exchange value and accumulation dominate to the point where they infect even the most important and sacred relationships between parts of society and individuals This study explores Dickens s critique from two very different points of view The first is philosophical from Aristotle s distinction between chrematistic accumulation and economic use on money through Marx s focus on the teleology of capitalism as death The second view is that of nineteenth century financial journalism of City writers like David Morier Evans and M L Meason who while functioning as cheerleaders for financial capitalism also reflected some of the very real dis ease associated with capital formation and accumulation The core concepts of this critique are constant in the novels but the critique broadens and becomes more pessimistic over time The ill effects of living in a money based society are presented more as the consequences of individual evil in earlier novels while in the later books they are depicted as systemic and pervasive Texts discussed include Nicholas Nickleby A Christmas Carol Little Dorrit and Our Mutual Friend
