The Impact of Learning to Read on Visual Processing Tânia Fernandes,Regine Kolinsky,2016-01-26 Reading is at the interface between the vision and spoken language domains An emergent bulk of research indicates that learning to read strongly impacts on non linguistic visual object processing both at the behavioral level e g on mirror image processing enantiomorphy and at the brain level e g inducing top down effects as well as neural competition effects Yet many questions regarding the exact nature locus and consequences of these effects remain hitherto unanswered The current Special Topic aims at contributing to the understanding of how such a cultural activity as reading might modulate visual processing by providing a landmark forum in which researchers define the state of the art and future directions on this issue We thus welcome reviews of current work original research and opinion articles that focus on the impact of literacy on the cognitive and or brain visual processes In addition to studies directly focusing on this topic we will consider as highly relevant evidence on reading and visual processes in typical and atypical development including in adult people differing in schooling and literacy as well as in neuropsychological cases e g developmental dyslexia We also encourage researchers on nonhuman primate visual processing to consider the potential contribution of their studies to this Special Topic Viewpoints ,1924

Word Morphology and Written Language Acquisition: Insights from Typical and Atypical Development in Different Orthographies Lynne G. Duncan,Daniela Traficante,Maximiliano A. Wilson,2019-06-05 This Research Topic explores the processing of morphemes the smallest units of language that bear meaning and that combine to form more complex words The articles gathered under this Research Topic investigate typical and atypical morphological processing by children and adolescents in ten different languages These articles provide cross linguistic and cross script evidence of the early sensitivity of children to the morphemic structure of words irrespective of whether they are struggling readers or typically developing All in all the collection allows for a better understanding of how morphological processing skills develop providing valuable clues as to how this competence can be used as a tool to improve literacy acquisition in struggling readers
