The Ants' First Day In School AQEEL AHMED, 2023-06-14 In the cute story The Ants First Day in School a group of hardworking and curious ants go on an amazing trip of learning growing up and making friends The ants want to find out more about the world outside of their anthill They are known for being able to work together and being very determined The ants are looking forward to their first day of school Their kind and experienced teacher Miss Daisy will be in charge The bright posters and tiny books that are all over the classroom make them even more interested and excited Miss Daisy who has a warm smile and acts like a mother shows them that the world is full of new choices The ants learn about many different things at school which helps them become well rounded people They learn how important it is to work together and how big things can be accomplished when people work together As they learn about the worlds of numbers and letters they are eager to solve problems and use their tiny ears to trace the letters of the alphabet But their education isn't just about school topics The ants do study many different topics like art science and music They make music with leaves and acorns paint with crushed flower petals and do science projects with water and baking soda Each action helps them be more creative gives them a chance to let their imaginations run wild and brings them closer together as a group The ants go on field trips to the grass to learn about the different plants and animals that live there These trips make experiences that will last a lifetime They write down

what they notice about butterflies bees and other animals in a small notebook Because of these things their understanding of how all living things is linked will grow a lot which will make them love nature even more The end of their trip is putting on a play that shows how they ve changed what they ve learned and the new friends they ve made Under Miss Daisy s watch they write the play s plot make the costumes and practice for many hours The performance shows how hard they work how good they are at telling stories and how much storytelling can move people to make big changes in their lives As the story comes to an end the ants desire to learn grows and gets stronger They leave the meadow to study environments like forests mountains and even the depths of the ocean They go on to jobs in science art music and storytelling where they use their knowledge and skills to make the world a better place The Ants First Day in School is a fun story about how exciting learning is how strong friendships are and how getting a good education can change your whole life It s a gentle but powerful way to remind readers of their own limitless potential and how important it is to respect curiosity creativity and working as a team The story encourages young people to go on their own learning adventures enjoy the wonders of the world and do good things in their communities Story begins Once upon a time there was a group of hardworking ants who lived in a small anthill on the edge of a large always busy field The hardworking ants got a great name throughout the whole field for how hard they worked and how well they worked together People thought of them as the perfect example of hard work and community because of how hard they worked to gather food build hard tunnels and keep their community going This was the name they were known by Even though they looked very serious there was a spark of interest in their little hearts The ants daily routines were getting boring and they silently wanted something new and exciting to happen They were driven by a strong desire to learn as much as they could and to explore the world beyond their immediate surroundings They wanted to go to unknown places and see the amazing things that were outside of their anthill but they were stuck there Their minds were excited to see new things and they couldn t wait to dive into the mysteries and thrills that lay ahead These small beings were well aware that there was still a lot to learn and know so they decided to go on an epic journey to learn new things and broaden their views Their tiny antennae twitched with excitement as they got ready to take in every interesting detail and soak up the beauty that was just out of reach The ants hearts were beating in a steady rhythm telling them to get out of their comfort zone and fall headfirst into the huge ocean of information that was waiting for them They knew there were a lot of questions riddles and important lessons to learn Their desire to learn led them to leave the confines of their anthill and take advantage of the many opportunities that awaited them in the bigger world The ants went off with a strong desire to learn explore and add to the huge amount of information that was already around them They were excited and ready to learn new things as a group This gave them a strong drive that helped them move forward as they began an exciting journey of intellectual growth and knowledge They would work together to figure out the complexities of the natural world be amazed by the wonders of the universe and find the wisdom jewels hidden in the vast amount of knowledge As they moved forward

into the vast unknown they stayed committed to each other and to working as a team Each ant brought their own unique skills and points of view to the task They helped each other and shared what they knew to get around problems and find new points of view On their educational trip they kept going because they were determined to go to new places and learn about interesting things So the ants left their anthills to see what was outside of it They did so with both excitement and trepidation in their hearts They had built a strong base through hard work and teamwork but what really moved them forward was their insatiable curiosity and desire to learn new things As they moved step by step into the beauty of undiscovered land they enjoyed the thrill of finding new things and the thrill of satisfying their natural interest The ants trip was about more than just getting information and knowledge It was also about how their fragile brains and hearts changed Because of their journey they would learn more and have more understanding and compassion They would become messengers of knowledge sharing what they had learned with the rest of their kind and encouraging future generations to go on their own journeys to learn more and become wiser The ants thought that the world outside of their anthill was a beautiful place full of treasures and secrets that were just waiting to be found And because they worked hard worked together and were very curious they would not leave any questions open or any stones unturned in their search On that beautiful morning the warm sun rays hit the anthill s surface and the anthill woke up with its own pulsing energy The ants were busy getting ready for their first day of school which was a big deal As they ran around you could hear the sound of their little feet The air was full of anticipation so the anthill buzzed with an electric buzz of eagerness This was the day they had been waiting for with bated breath the day when their thirst for knowledge would be quenched and their world would grow Miss Daisy their favorite teacher had been working hard to get ready for this important event When the ants walked into the classroom they were shocked and amazed by what they saw Miss Daisy had worked hard to set up the room so that it was now a nice and friendly place to learn The room was full of tiny desks and chairs that had been shrunk to fit their small bodies One of the walls had a great whiteboard that was ready to be filled with wise words and new ideas And much to their joy one corner of the anthill proudly showed off a small library Its shelves were full of books that offered to show people how amazing the world outside their door was Miss Daisy met each ant with a smile and a twinkle in her eye This made the ants feel like they were loved and cared for She had spent a lot of time planning this day because she knew it would have a big effect on these younger students futures Her hard work and enthusiasm for teaching were inspiring and they helped create an atmosphere of love warmth and hope As the ants sat down at their tiny seats they looked around in amazement at all the possibilities that lay ahead Miss Daisy started the day by saying who she was and how much she likes to learn and discover new things She told them that school would be full of interesting new things to try discoveries to make and chances to grow as people The ants listened carefully and became interested They couldn t wait to start this learning trip

*The House of the Sleeping Winds and Other Stories Some Based on Cornish Folklore - Illustrated by Nannie Preston Enys Tregarthen*, 2013-04-16 *The House of the Sleeping Winds and Other Stories Some Based on Cornish Folklore* is a bright, wholesome volume of stories founded on the lore of the old world Cornish folk. From fairies, wishes, small people and quaint songs, this collection of delicate stories will enthrall children of all ages and adults alike. Stories include: The House of the Sleeping Winds, Hunting the Fairies, The Wishing Song, An Enchanted Field, The Piskey Spoon, The Little Weather Man, The Piskey Shoemaker, A Piskey Who Rose in a Pocket and The Golden Egg. Nellie Sloggett was an author and folklorist born in 1851 from Padstow, Cornwall. She wrote under the names Enys Tregarthen and Nellie Cornwall. At 17, she suffered a devastating spinal illness and was paralysed for the rest of her life. She began to keep diaries about flowers, the changing seasons and birds and other creatures all observed from her bedside window. This practice eventually led to the writing and publication of her first book *Daddy Longlegs and His White Heath Flower* in 1885 under the pen name Nellie Cornwall. Later, she came to devote much of her attention to Cornish folklore and legend. She collected and recorded many stories about the Piskey folk, fairies of Cornish myth and legend. She published most of her works in this category under her better known pen name of Enys Tregarthen. Pook Press celebrates the great Golden Age of Illustration in children's literature, a period of unparalleled excellence in book illustration from the 1880s to the 1930s. Our collection showcases classic fairy tales, children's stories and the work of some of the most celebrated artists, illustrators and authors.
