Temples Of The Kalachuri Period:

Temples of the Kalachuri Period Amrendra Kumar Singh, 2002 On the architectural development and figurative scheme of temples erected during the Kalachuri period in Central India **Worldly Gurus and Spiritual Kings** Tamara I.

Sears, 2014-06-10 This pioneering book is the first full length study of the matha or Hindu monastery which developed in India at the turn of the first millennium. Rendered monumentally in stone, the matha represented more than just an architectural innovation; it signaled the institutionalization of asceticism into a formalized monastic practice, as well as the emergence of the guru as an influential public figure. With entirely new primary research, Tamara I. Sears examines the architectural and archaeological histories of six little-known monasteries in Central India and reveals the relationships between political power, religion, and the production of sacred space. This important work of scholarship features scrupulous original measured drawings providing a vast amount of new material and a much-needed contribution to the fields of Asian art, religious studies, and cultural history. In introducing new categories of architecture, this book illuminates the potential of buildings to reconfigure not only social and ritual relationships but also the fundamental ontology of the world. Incredible

Temples and Sanatan Sanskriti Vol-2 Hari Prakash Gupta, 2024-03-02 In this book, The Incredible Temple and Sanatan Sanskriti author has endeavoured to focus on the Hindu temples of Karnataka, Tamil Nadu, Kerala, Odisha. They are amongst the most ancient architectural, archaeological, and heritage temples. These are eminently known for huge statutes, Mandapas, Towering super structures, Gopurams, etc. They all glorify Hindu Culture and scriptures, viz. Puranas, Itihas, Vedas, etc. The stories given there are vividly captured on more than life-size carvings made from sandstone, soapstone, granite, etc. One is awe-struck how our ancestors created such masterpieces with now-considered primitive tools and implements. This book is a tribute to our great forefathers who, through their skills, dedication, and pains-taking labour over the centuries, created such poetry in stone. Beglar, 1878 Transformative Practices in Archaeology Alok Kumar Kanungo, Claire Smith, Nishaant Choksi, 2024-10-02 The volume introduces a diverse range of themes and practices relating to sustainable heritage management. Each paper delves into the challenges, successes, and failures of preserving precious cultural heritage. It discusses various strategies such as the early inclusion of archaeology in UNESCO frameworks to leveraging archaeological findings and indigenous knowledge for sustainable development goals. The chapters explore the evolution of autoarchaeology as a tool for empowering Indigenous communities to assert their human rights and integrating oral histories and local ecological knowledge to interpret ancient remains. Additionally, it highlights the value of archaeologists working more closely with Indigenous peoples, local communities, and other disciplines in identifying, preserving, conserving, and managing heritage sites. It appeals to archaeologists, anthropologists, cultural geographers, cultural heritage professionals, and others seeking new ways to protect cultural heritage.
