A Study Guide for Doris Lessing's "A Sunrise on the Veld" Gale, Cengage Learning, A Study Guide for Doris Lessing's *A Sunrise on the Veld* excerpted from Gale's acclaimed *Short Stories for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading, and much more. For any literature project, trust *Short Stories for Students* for all of your research needs. *The Columbia Guide to South African Literature in English Since 1945* Gareth Cornwell, Dirk Kloppe, Craig MacKenzie, 2010. From the outset, South Africa's history has been marked by division and conflict along racial and ethnic lines. From 1948 until 1994, this division was formalized in the National Party's policy of apartheid. Because apartheid intruded on every aspect of private and public life, South African literature was preoccupied with the politics of race and social engineering. Since the release from prison of Nelson Mandela in 1990, South Africa has been a new nation in the making, inspired by a nonracial idealism yet beset by poverty and violence. South African writers have responded in various ways to Njabulo Ndebele's call to rediscover the ordinary. The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored. An invaluable guide for general readers as well as scholars of African literary history, this comprehensive text celebrates the multiple traditions and exciting future of the South African voice. Although the South African Constitution of 1994 recognizes no fewer than eleven official languages, English has remained the country's literary lingua franca. This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present. An introduction identifies the most interesting and noteworthy writing from the period. Alphabetical entries provide accurate and objective information on genres and writers. An appendix lists essential authors published before 1945. *International Who's Who in Poetry 2005* Europa Publications, 2004-08-02. The 13th edition of the *International Who's Who in Poetry* is a unique and comprehensive guide to the leading lights and freshest talent in poetry today. Containing biographies of more than 4,000 contemporary poets worldwide, this essential reference work provides truly international coverage. In addition to the well-known poets, talented up-and-coming writers are also profiled. Contents: Each entry provides full career history and publication details. An international appendices section lists prizes and past prize winners, organizations, magazines, and publishers. A summary of poetic forms and rhyme schemes. The career profile section is supplemented by lists of Poets Laureate, Oxford University professors of poetry, poet winners of the Nobel Prize for Literature, winners of the Pulitzer Prize for American Poetry, and of the King's/Queen's Gold medal and other poetry prizes. *Postcolonial African Writers* Siga Fatima Jagne, Pushpa Naidu Parekh, 2012-11-12. This reference book surveys the richness of postcolonial African literature. The volume begins with an introductory essay on postcolonial criticism and African writing, then presents alphabetically arranged profiles of some 60 writers, including Chinua Achebe, Nadine Gordimer, Bessie Head, Doris Lessing, Tsitsi Dangaremba, Tahar Ben Jelloun, among others. Each entry includes a brief biography, a discussion of major works, and

themes that appear in the author's writings an overview of the critical response to the author's work and a bibliography of primary and secondary sources These profiles are written by expert contributors and reflect many different perspectives The volume concludes with a selected general bibliography of the most important critical works on postcolonial African literature

Social Control in Europe: 1500-1800 Herman Roodenburg, 2004 This first volume of a two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned The essays in this volume focus on the interplay of ecclesiastical institutions and the emerging states examining discipline from a bottom up perspective Book jacket
