Paulo Coelho and the Dalai Lama. In these days of increasing commercialism and religious polarization, this absorbing book speaks to an impulse for a stronger spiritual dimension in our lives, and its range of answers spontaneous, surprising, and insightful. Caring Hearts and Critical Minds Steven Wolk, 2023-10-10 Imagine if going to school meant more than preparing kids for a test, teaching a canned curriculum, and training students for their future as workers. What if school were also about cultivating students to be caring, community-involved citizens and critical, creative thinkers who love to read? In *Caring Hearts Critical Minds*, teacher-author Steven Wolk shows teachers how to help students become better readers as well as better people. I want my students to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues, says Leslie Rector, a sixth-grade teacher who collaborated with Wolk on some of the units featured in this book. Wolk demonstrates how to integrate inquiry learning, exciting and contemporary literature, and teaching for social responsibility across the curriculum. He takes teachers step by step through the process of designing an inquiry-based literature unit and then provides five full units used in real middle-grade classrooms. Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres, *Caring Hearts Critical Minds* gives teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about: from media and the environment to personal happiness and global poverty. Wolk shows teachers how to find stimulating real-world complex texts called for in the Common Core State Standards and integrate them into literature units. I know from experience that a great book changes the reader, says Karen Tellez, an eighth-grade teacher featured in the book. For me, books have helped me escape, fall in love, recover from heartbreak, and have broken open my mind from the age of twelve. I hope my

students gain better reading comprehension confidence as readers connections to the characters and events a curiosity for the world and tolerance for others Caring Hearts Critical Minds shows teachers how to turn these hopes and goals into reality
