Empowering Teams in Higher Education: Strategies for Success Burris-Melville, Tashieka Simone, Burris, Shalieka Tiffia, Bledsoe, Kristin, 2024-04-22. Many businesses and organizations struggle with implementing effective teamwork leading to confusion, stress, and subpar results. In higher education, students often graduate without the necessary teamwork skills, leaving them unprepared for the demands of the modern workplace. *Empowering Teams in Higher Education: Strategies for Success* addresses these challenges head-on, offering a practical guide for improving teamwork and creating a collaborative learning environment. By providing insights, strategies, and real-world examples, this book equips students and educators alike with the tools they need to succeed. Employers increasingly value teamwork and collaboration and do not have the resources to train recent graduates who need these essential skills. This book fills the gap between higher education and the workforce by providing a roadmap for transforming students' educational experiences. With a focus on practical strategies and real-world applications, this book effectively prepares students to excel in team-based environments. Educators will also benefit from this book, gaining valuable insights into effective team dynamics and how to nurture innovation in their classrooms.

Effective Machine Learning Teams David Tan, Ada Leung, David Colls, 2024-02-29. Gain the valuable skills and techniques you need to accelerate the delivery of machine learning solutions. With this practical guide, data scientists and ML engineers will learn how to bridge the gap between data science and Lean software delivery in a practical and simple way. David Tan and Ada Leung from Thoughtworks show you how to apply time-tested software engineering skills and Lean delivery practices that will improve your effectiveness in ML projects. Based on the authors' experience across multiple real-world data and ML projects, the proven techniques in this book will help teams avoid common traps in the ML world so you can iterate more quickly and reliably. With these techniques, data scientists and ML engineers can overcome friction and experience flow when delivering machine learning solutions. This book shows you how to apply engineering practices such as writing automated tests, containerizing development environments, and refactoring problematic code bases. Apply MLOps and CI/CD practices to accelerate experimentation cycles and improve the reliability of ML solutions. Design maintainable and evolvable ML solutions that allow you to respond to changes in an agile fashion. Apply delivery and product practices to iteratively improve your odds of building the right product for your users. Use intelligent code editor features to code more effectively.
