essential reading for students of Chinese foreign policy and Asian international relations IR and is highly recommended for students of diplomacy international security and IR in general Asia's Reckoning Richard McGregor, 2018-12-04 A Financial Times Best Book of 2017 A shrewd and knowing book Robert D Kaplan The Wall Street Journal A compelling and impressive read The Economist Skillfully crafted and well argued Jeffrey Wasserstrom Financial Times An excellent modern history provides the context needed to make sense of the region's present and future Joyce Lau South China Morning Post A history of the combative military diplomatic and economic relations among China Japan and the United States since the 1970s and the potential crisis that awaits them Richard McGregor's Asia's Reckoning is a compelling account of the widening geopolitical cracks in a region that has flourished under an American security umbrella for more than half a century The toxic rivalry between China and Japan two Asian giants consumed with endless history wars and ruled by entrenched political dynasties is threatening to upend the peace underwritten by Pax Americana since World War II Combined with Donald Trump's disdain for America's old alliances and China's own regional ambitions east Asia is entering a new era of instability and conflict If the United States laid the postwar foundations for modern Asia now the anchor of the global economy Asia's Reckoning reveals how that structure is falling apart With unrivaled access to archives in the United States and Asia as well as to many of the major players in all three countries Richard McGregor has written a tale that blends the tectonic shifts in diplomacy with bitter domestic politics and the personalities driving them It is a story not only of an overstretched America but also of the rise and fall and rise of the great powers of Asia The about turn of Japan from a colossus seemingly poised for world domination to a nation in inexorable decline in the space of two decades has few parallels in modern history as does the rapid rise of China a country whose military is now larger than those of Japan South Korea Taiwan and southeast Asia's combined The confrontational course on which China and Japan are set is no simple spat between neighbors the United States would be involved on the side of Japan in any military conflict between the two countries The fallout would be an economic tsunami affecting manufacturing centers trade routes and political capitals on every continent Richard McGregor's book takes us behind the headlines of his years reporting as the Financial Times's Beijing and Washington bureau chief to show how American power will stand or fall on its ability to hold its ground in Asia **China and International Security** Donovan C. Chau, Thomas M. Kane, 2014-04-17 The first work of its kind this strategic assessment of China's national security reveals the nation's intentions capabilities and threats and their implications for the United States and the world As China continues to develop the strategic means to advance its national interests in Asia and around the world assessing its role in international security is the greatest strategic challenge now faced by the United States and its allies China and International Security facilitates this critically important understanding analyzing topics that range from strategic geography and orientation to gender ratios Using detailed case studies and sharing expert insights the work provides historical internal and contemporary analyses that reveal the nature and character of China's national security This three volume set is written for

scholars students and policymakers The volumes offer in depth articles penned by intelligence professionals and journalists as well as entries by scholars in fields as diverse as international politics history and strategic studies While other works may attempt to predict the future of China s rise or the nature of China s future bilateral relationships none so thoroughly examines the totality of China s domestic regional and international security and their implications *A Study of Diplomatic Protocol and Etiquette* Jiali Zhou,Guobin Zhang,2022-04-25 This book with its focus on the study of diplomatic protocol and etiquette collects high quality papers written by scholars in diplomatic protocol from nine countries including US UK Russia Japan Canada Netherlands India and China As a result of in depth international academic cooperation it explores diplomatic protocol from three dimensions of theory practice and country specific and has the characteristics of internationality and nationality From a global perspective it is the first time that experts from so many countries work together in diplomatic protocol which makes this book present a more comprehensive and diverse overview This book as an effort made to enhance understanding among different cultures and facilitate the harmonious coexistence of people across the world is remarkably helpful for promoting the research of diplomatic protocol and etiquette exploring the true connotation of protocol and etiquette and improving its practicality in realities *Haunted by Chaos* Sulmaan Wasif Khan,2022-07-19 Before the Communists came to power China lay broken Today it is a global force but its leaders are haunted by the past Sulmaan Wasif Khan chronicles the grand strategies that have sought to protect China from aggression and ensure it would never again experience the powerlessness of the late Qing and Republican eras **China Change And Confucian "Benevolence": Human Values, Truth And Policy** Ronald Colin Keith,2023-02-27 Henry Kissinger observed Everybody wants to be a China hawk China is a bully China is Nazi Germany China commits genocide China disrupts the international rules based order Responding to such uninformed generalization on the nature of China s regime and its lack of human values the Western Liberal Democracies have created their own China Problem by clinging to Cold War anachronism The clash of values is not nearly as deep and extensive as is often claimed Furthermore the contemporary public discourse on China needs a complete assessment of the values that have emerged in Xi Jinping s China Xi is regarded as red like Mao Xi however has abandoned Mao s view of class struggle and his notion of a rejuvenated China embraces traditional core principles that Mao bitterly condemned Ren or benevolence for example now informs entwined domestic and foreign policy as moderate prosperity in all respects Ren or benevolence is aligned with common security and common development The question is whether this is a positive restoration of traditional values that will contribute to domestic development and international peace or restorationist Middle Kingdom ism designed to assert Chinese values worldwide This book s analysis of Chinese values argues that the current interpretation of the China Threat is predicated in a serious misunderstanding of Chinese values It is often commented that China is the defining geopolitical issues of our time This book is an especially timely contribution to the currently limited public policy debate on China as a threat to Western values and the international rules based system

Correction is long overdue with reference to speculative assumptions that Xi Jinping's regime represents a return to Mao's regime. Socialism with Chinese characteristics has significantly moved on under Xi's leadership. Hyperbole about China has presumed the continuation of Chinese Cold War ideology and has either lightly commented on or ignored altogether the resurgence of core traditional ideas in Chinese policy formation. This book provides detailed research of Xi Jinping Thought and Xi Jinping Diplomatic Thought. It adopts a widely construed but serious interdisciplinary approach towards the China Problem drawing on both the social sciences and humanities. This wide angled approach includes new sinology in its recent review of translated China synthesizing tradition and culture with the development of modern Chinese ideology politics and policy formation. The book's significant topicality is presented within an unconventional approach and formatted contents designed to reach out to the biggest circle of general and advanced China interested readers in the time of great debate.

China and America: Destined for Conflict? Wenzhao Tao, 2022-09-25. This book explores the possibility and feasibility of building a new model of major country relations between China and the United States which is of great significance to the sound interaction between the two countries and the preservation of peace and stability of the world. In early June 2013 Chinese President Xi Jinping and US President Barack Obama reached a consensus on building a new model of major country relations at the historical Sunnylands meeting in California. In the years that followed the two leaders were committed to that goal despite the different interpretations in its substance. How is the new model of major country relations conceptualized and developed? What renders it possible? Is the major country conflict inevitable? These are the basic issues addressed in this book. Now China-US relations are at a critical juncture. The international community is watching the world's two largest economies and is quite concerned about the future of one of the world's most complicated bilateral relationships. This timely publication of Professor Tao Wenzhao provides us with a realistic approach to managing this vital relationship in a candid and balanced way.

Southeast Asia and the Rise of China Ian Storey, 2013-08-21. Since the early 1990s and the end of the Cold War the implications of China's rising power have come to dominate the security agenda of the Asia Pacific region. This book is the first to comprehensively chart the development of Southeast Asia's relations with the People's Republic of China (PRC) from 1949 to 2010 detailing each of the eleven countries' ties to the PRC and showing how strategic concerns associated with China's regional posture have been a significant factor in shaping their foreign and defence policies. In addition to assessing bilateral ties the book also examines the institutionalization of relations between the Association of Southeast Asian Nations (ASEAN) and China. The first part of the book covers the period 1949-2010; it examines Southeast Asian responses to the PRC in the context of the ideological and geopolitical rivalry of the Cold War; Southeast Asian countries' policies towards the PRC in the first decade of the post-Cold War era; and deepening ties between the ASEAN states and the PRC in the first decade of the twenty-first century. Part Two analyses the evolving relationships between the countries of mainland Southeast Asia (Vietnam, Thailand, Myanmar, Laos and Cambodia) and China. Part Three reviews ties

between the states of maritime Southeast Asia Indonesia Malaysia Singapore the Philippines Brunei and East Timor and the PRC Whilst the primary focus of the book is the security dimension of Southeast Asia China relations it also takes full account of political relations and the burgeoning economic ties between the two sides This book is a timely contribution to the literature on the fast changing geopolitics of the Asia Pacific region China's Crisis Behavior Kai He,2016-04-07 Since the end of the Cold War China has experienced several notable interstate crises the 1999 embassy bombing incident the 2001 EP 3 mid air collision with a United States aircraft and the Diaoyu Senkaku dispute with Japan China s response to each incident however has varied considerably Drawing from a wealth of primary sources and interviews this book offers a systematic analysis of China s crisis behavior in order to identify the factors which determine when Chinese leaders decide to escalate or scale down their response to crises Inspired by prospect theory a Nobel Prize winning behavioral psychology theory Kai He proposes a political survival prospect model as a means to understand the disparities in China s behavior He argues that China s response depends on a combination of three factors that shape leaders views on the prospects for their political survival status including the severity of the crisis leaders domestic authority and international pressure *Critical Decade, A: China's Foreign Policy (2008-2018)* Zhiqun Zhu,2019-07-09 China emerged as a major economic diplomatic and military power during the critical decade from 2008 to 2018 As a result China s foreign policy has become more active and dynamic This book provides a unique perspective to understand Chinese foreign policy during this decade by examining continuities and changes in both internal and external factors that have shaped China s development The book focuses on key challenges in China s diplomacy such as US China relations the Korean Peninsula Taiwan Japan India Chinese investment overseas the Belt and Road Initiative global and regional cooperation soft power etc It also includes an extensive annotated bibliography of major recent publications on various aspects of Chinese foreign policy This is the first scholarly book that studies the evolution and key challenges of China s foreign relations during the critical decade 2008 2018 when China grew into a crucial sometimes assertive power in international affairs **Prospect Theory and Foreign Policy Analysis in the Asia Pacific** Kai He,Huiyun Feng,2013-01-17 Why does North Korea behave erratically in pursuing its nuclear weapons program Why did the United States prefer bilateral alliances to multilateral ones in Asia after World War II Why did China become nice no more military coercion in dealing with the pro independence Taiwan President Chen Shuibian after 2000 Why did China compromise in the negotiation of the Chunxiao gas exploration in 2008 while Japan became provocative later in the Sino Japanese disputes in the East China Sea North Korea s nuclear behavior U S alliance strategy China s Taiwan policy and Sino Japanese territorial disputes are all important examples of seemingly irrational foreign policy decisions that have determined regional stability and Asian security By examining major events in Asian security this book investigates why and how leaders make risky and seemingly irrational decisions in international politics The authors take the innovative step of integrating the neoclassical realist framework in political science and prospect theory in psychology Their analysis suggests

that political leaders are more likely to take risky actions when their vital interests and political legitimacy are seriously threatened For each case the authors first discuss the weaknesses of some of the prevailing arguments mainly from rationalist and constructivist theorizing and then offer an alternative explanation based on their political legitimacy prospect theory model This pioneering book tests and expands prospect theory to the study of Asian security and challenges

traditional expected utility based rationalist theories of foreign policy behavior **China and the International System**

Xiaoming Huang,2013 This book considers the evolving relationship between China and the international system and the interaction between a China of profound change in its identity capability and influence and an international system that is itself experiencing a process of far reaching transformation It develops an analytical framework that allows us to capture understand and explain a more dynamic pattern of agent structure interaction in China s relationship with the international system By demonstrating a more dynamic and mutually constitutive relationship between China and the international system the book explores the extent to which both transform themselves in the process and provides a fuller and more effective assessment of the evolving nature of the relationship In doing so it addresses key issues in the current literature on the relationship of China and the international system and helps close the gap in our knowledge of the conditions and consequences of change and stability in the international system as a result of the change in distributions of power capability and influence among nation states **China's Relations with the Gulf Monarchies** Jonathan Fulton,2018-08-06 As China

s international political role grows its relations with states outside of its traditional sphere of interests is evolving This is certainly the case of the Gulf monarchies of Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates which together comprise the Gulf Cooperation Council GCC China s levels of interdependence with these states has increased dramatically in recent years spanning a wide range of interests What motivating factors explain the Chinese leadership s decision to forge closer ties to the GCC Why have GCC leaders developed closer ties to China and what kind of role can China be expected to play in the region as levels of interdependence intensify This book uses neoclassical realism to analyse the evolution of Sino GCC relations Examining the pressures that shaped China s policy toward the Gulf monarchies it demonstrates that systemic considerations have been predominant since 1949 yet domestic political considerations were also always an important consideration Relations are examined across diplomatic and political interactions trade and investment infrastructure and construction projects people to people exchanges and military and security cooperation This book will appeal to scholars in the fields of International Relations and International Political Economy as well as area specialists on China the Gulf the Gulf Monarchies and those working on foreign policy issues **China's Quest for Sporting**
