Tense And Aspect Systems:

Tense and Aspect Systems Östen Dahl, 1985-01-01 Development of Tense and Aspect Systems Jadranka Gvozdanović, 2022-08-04 Linguistic construal of time lies at the center of language and language use it is also one of the cognitive foundations of culture The focus of the papers in this volume is on historical developments of genetically different aspect and tense systems across continents with contributions on the Sogeram languages of Papua New Guinea the Arandic languages of Australia Kisikongo Bantu and Japanese In addition two prototypical Indo European tense aspect systems those of Vedic and Latin are analyzed in a comparative perspective Across language groups and continents the general principles revealed by the studies presented here contribute towards a novel and deepening understanding of tense and aspect They contribute not only to modelling and theory but also to a better understanding of processes in individual languages Originally published as special issue of the Journal of Historical Linguistics 10 2 2020 **English and German Tense-Aspect Systems: A Comparison** Melanie Bobik, 2012 Studienarbeit aus dem Jahr 2003 im Fachbereich Anglistik Komparatistik Note 1 00 Freie Universität Berlin Institut für Englische Philologie Veranstaltung Understanding English German Contrasts 28 Quellen im Literaturverzeichnis Sprache Deutsch Abstract Within the last two decades many attempts have been made to define a generally accepted concept of universal temporal and aspectual systems There are comprehensive studies about the grammatical functions of tense and aspect their categories and their meaning In regard to their tense systems English and German show amazing parallels in the inventory of forms but there are major differences in their use and function The following paper gives an overview of English and German tense and aspect systems and presents traditional and current theories and controversies on them Moreover an attempt will be made to discuss in detail function and use of the perfect future and progressive construction in these two languages Tense and Aspect Systems Östen Dahl, 1985 *Pidgin and Creole Tense-mood-aspect Systems* John Victor Singler, 1990 For review see Mark Sebba in New West Indian Guide Nieuwe West Indische Gids vol 66 no 3 4 1992 p 288 290 The Tense-mood-aspect System of Biblical Hebrew, with Special Emphasis on 1 & 2 Samuel Susan Rattray, 1992 The Tense Aspect System of the Spanish Verb Charles Rallides, 2013-02-07 No detailed description available for The Tense Aspect System of the Spanish Verb Tense and Aspect in the Languages of Europe Östen Dahl, 2008-08-22 No detailed description available for Tense and Aspect in the Languages of Europe **Tense and Aspect Systems in Hiberno-English** Patricia Ronan, 2016-03-02 Document from the year 2000 in the subject English Language and Literature Studies Linguistics University of Marburg language English abstract This study investigates the tense and aspect systems in use in Irish English which is also called Hiberno English Against the background of previous research corpus material mainly consisting of Dublin English is discussed The corpus consists of close to a quarter of a million words collected manually mainly from written text with some additional examples from participant observation In addition to investigating the tense and aspect forms in use possibilities for the geneses of the categories are

discussed and the potential influence from Early Modern English and Late Modern English is assessed as well as the potential input from the Irish language. It is suggested that the tense system corresponds to that of Standard British English whereas the aspectual system differs to varying degrees in perfect progressive and habitual marking. It is further argued that the majority of the specially used aspectual categories in Hiberno English could have been influenced in their development by influence from both the Irish language i.e. Gaelic and by influence from earlier British English language structures which were in use during the formative stages of the variety. This is not the case for the distinctive Hiberno English after perfect however which is entirely modeled on a corresponding Irish language structure. ~**The tense-aspect system of the**

TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing. **Tense and Aspect in Italian Interlanguage** Zuzana

Toth, 2020-11-23
The expression of time is fundamental in communication and languages have developed a variety of means to encode temporal relations. When learning a new language learners are often faced with the challenging task of discovering a new system of temporal relations. The present study investigates the development of tense and aspect marking in the interlanguage of L3 Italian learners enrolled in university language courses. It examines how the tense aspect system develops in the interlanguage and how the acquisition process is shaped by factors such as the lexical aspectual value of the predicates and discourse grounding. The data indicate that both lexical aspect and discourse grounding influence the distribution of verbal morphology in the interlanguage. Semantically congruent pairings of lexical aspect verbal morphology and discourse grounding are used more frequently and appropriately than less prototypical combinations. The acquisition process is also influenced by the learner's L1 which was mostly German in the context of the present study. The study can be used as a guide for curricular decisions in language teaching and for projecting further research on the development of tense aspect marking in multilingual learners. **Tense Systems in European Languages II** Rolf Thieroff, 2011-05-03
Over the past few decades the book series *Linguistische Arbeiten* Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue

to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory

Degrees of Restructuring in Creole Languages Ingrid Neumann-Holzschuh, Edgar W. Schneider, 2001-02-12 Basic notions in the field of creole studies including the category of creole languages itself have been questioned in recent years Can creoles be defined on structural or on purely sociohistorical

grounds Can creolization be understood as a graded process possibly resulting in different degrees of radicalness and intermediate language types semi creoles If so by which linguistic structures are these characterized and by which extralinguistic conditions have they been brought about Which are the linguistic mechanisms underlying processes of restructuring and how did grammaticalization and reanalysis shape the reorganization of linguistic specifically morphosyntactic structures commonly called creolization What is the role of language contact language mixing substrates and superstrates or demographic factors in these processes This volume provides select and revised papers from a 1998 colloquium at the University of Regensburg in which these questions were addressed 19 contributions by renowned scholars discuss structural sociohistorical and theoretical aspects building upon case studies of both Romance based and English oriented creoles This book marks a major step forward in our understanding of the nature of creolization

Input, Process and Product James Thomas, Alex Boulton, 2014-01-01 Tato publikace je sborníkem 21 příspěvků přednesených na 9 roční konferenci Teaching and Learning Corpora která se uskutečnila na Masarykově univerzitě v létě 2010. Statisticky byly vybrány na základě dvou anonymních posudků poskytnutých v deskové radou konané konference. Kniha se zabývá rozmanitými způsoby využití jazykových korpusů při výuce a při studiu cizího jazyka a je rozdělena do čtyř oddílů. Oddíl 1 a 2 pohledy na korpus jako vstupní zdroj zkoumají nejdříve obecně, jak mohou korpusy obohatit výuku jazyka, poté na konkrétních případech ukazují, jak převést poznatky do praxe a nakonec hodnotí jednotlivé využití korpusu studenty. Oddíl 3 a 4 tematizují korpus jako nástroj, který představuje především srovnání s korpusy rodilých mluvčích a následnou identifikaci chyb a problémových oblastí, ale také ukazují, co studenti mohou v této skutečnosti rovněž pokročit a pokoušet se zodpovědět na otázky, co nám tyto informace říkají o samotném procesu učení.

Grammaticalization Scenarios from Africa, the Americas, and the Pacific Walter Bisang, Andrej Malchukov, 2020-09-21 This volume intends to fill the gap in the grammaticalization studies setting as its goal the systematic description of grammaticalization processes in genealogically and structurally diverse languages. To address the problem of the limitations of the secondary sources for grammaticalization studies the editors rely on sketches of grammaticalization phenomena from experts in individual languages guided by a typological questionnaire.
