**Information Sur Les Sciences Sociales** ,1967      **The Contemporary Family in Singapore** Eddie C. Y. Kuo,Aline K. Wong,1979 Twelve essays on the sociology of the family in Singapore in the modern period      *Monthly Catalog of United States Government Publications* ,1966      *From Power to Prejudice* Leah N. Gordon,2015-05-20 Americans believe strongly in the socially transformative power of education and the idea that we can challenge racial injustice by reducing white prejudice has long been a core component of this faith How did we get here In this first rate intellectual history Leah N Gordon jumps into this and other big questions about race power and social justice To answer these questions *From Power to Prejudice* examines American academia both black and white in the 1940s and 50s Gordon presents four competing visions of the race problem and documents how an individualistic paradigm which presented white attitudes as the source of racial injustice gained traction A number of factors Gordon shows explain racial individualism s postwar influence individuals were easier to measure than social forces psychology was well funded studying political economy was difficult amid McCarthyism and individualism was useful in legal attacks on segregation Highlighting vigorous midcentury debate over the meanings of racial justice and equality *From Power to Prejudice* reveals how one particular vision of social justice won out among many contenders      **Poor Relation** Stuart Macintyre,2010-07-01 What are the social sciences What do they do How are they practised in Australia *The Poor Relation* examines the place of the social sciences from economics and psychology to history law and philosophy in the teaching and research conducted by Australian universities Across sixty years *The Poor Relation* charts the changing circumstances of the social sciences and measures their contribution to public policy In doing so it also relates the arrangements made to support them and explains why they are so persistently treated as the poor relation of science and technology      **Cumulated Index Medicus** ,1965      **Perversion for Profit** Whitney Strub,2011 While America is not alone in its ambivalence toward sex and its depictions the preferences of the nation swing sharply between toleration and censure This pattern has grown even more pronounced since the 1960s with the emergence of the New Right and its attack on the floodtide of filth that was supposedly sweeping the nation Antipornography campaigns became the New Right s political capital in the 1960s laying the groundwork for the family values agenda that shifted the country to the right *Perversion for Profit* traces the anatomy of this trend and the crucial function of pornography in constructing the New Right agenda which has emphasized social issues over racial and economic inequality Conducting his own extensive research Whitney Strub vividly recreates the debates over obscenity that consumed members of the ACLU in the 1950s and revisits the deployment of obscenity charges against purveyors of gay erotica during the cold war revealing the differing standards applied to heterosexual and homosexual pornography He follows the rise of the influential Citizens for Decent Literature during the 1960s and the pivotal events that followed the sexual revolution feminist activism the rise of the gay rights movement the porno chic moment of the early 1970s and resurgent Christian conservatism which now shapes public policy

far beyond the issue of sexual decency Strub also examines the ways in which the left failed to mount a serious or sustained counterattack to the New Right's use of pornography as a political tool As he demonstrates this failure put the Democratic Party at the mercy of Republican rhetoric In placing debates about pornography at the forefront of American postwar history Strub revolutionizes our understanding of sex and American politics *Government-wide Index to Federal Research & Development Reports*, 1965 **Policy Learning and British Governance in the 1960s** Hugh Pemberton, 2004-07-12 Why did Britain's economic policy revolution in the 1960s achieve so little Drawing on the latest political science theories of policy networks and policy learning Hugh Pemberton outlines a new model of economic policy making and then uses it to interrogate recently released government documents In explaining both the radical shift in policy and its failure to achieve its full potential this book has much to say about the problems of British governance throughout the whole of the postwar period Geological Survey Research 1965, 1965 *Research Reports: Demographic and social aspects of population growth* United States.
