UNA VISIÓN DESDE LAS TEORÍAS DE LA COMUNICACIÓN ASENIO

GUILLÉN Antonio José , NAVÍO MARCO Julio , 2017-02-23 El Ciberespacio puede ser analizado desde diferentes ámbitos social tecnológico antropológico y sin duda el más relevante es el de la teoría de la comunicación y el estudio de los efectos sociales de la tecnología En el presente trabajo se plantea una aproximación multidisciplinar al concepto de Ciberespacio partiendo de la experiencia en el ámbito de la comunicación y del conocimiento del mundo tecnológico y digital conceptos que combinan sus autores Desde la aparición de este concepto a comienzos de los años 80 muchas han sido las tentativas de definición y estudio del Ciberespacio desde diversos enfoques metodológicos Proporcionar una panorámica lo más completa posible de estos enfoques es el objetivo del presente libro y más aún resulta pertinente preguntarse cómo realizar este análisis cuando somos parte integrante del propio sistema **Teorías y prácticas de la historia conceptual** Faustino Oncina Coves, 2009 Este

volumen constituye un foro de encuentro entre los diversos enfoques de la Historia Conceptual imperantes en nuestro país y en el terreno internacional. Es el resultado de una colaboración interdisciplinaria y evidencia la voluntad de rendir un homenaje a uno de sus padres fundadores Reinhart Koselleck fallecido en 2006. Siguiendo su estela ofrece un estudio polifónico por un lado de las claves metodológicas de la Historia Conceptual y de sus afinidades con otras aproximaciones hermenéuticas analíticas metaforológicas y por otro de sus lazos teóricos y genéticos con la crisis de la modernidad. **Teorías contemporáneas**

ANTROPOLOGÍA Y COMPARACIÓN CULTURAL: MÉTODOS Y TEORÍAS FERNÁNDEZ

MORENO Nuria, 2015-03-18 Este volumen analiza la comparación cultural como procedimiento teórico y metodológico para explicar la diversidad cultural. La selección de textos compilados abordan desde diferentes orientaciones esta rica la complejidad de comparar los procesos culturales e intentan dar respuestas a los siguientes interrogantes. ¿Qué clase de equivalencias culturales son comparables entre sí? ¿Cómo se establecen las categorías analíticas y cuáles son los límites de lo comparable? ¿Quién determina qué es lo específico y qué es lo universal qué es lo semejante o diverso en los fenómenos culturales? ¿A qué construcciones e interpretaciones culturales dan lugar esa diferenciación de o equiparación con los otros? El interés y el objetivo final del conocimiento antropológico es hacer inteligible la diversidad cultural y en ese proceso de traducción cultural lograr la comprensión del otro de lo ajeno y de lo diferente. El conocimiento antropológico está inevitablemente condicionado

por los problemas que se derivan del hecho comparativo que en s ntesis son por un lado la complejidad para explicar el binomio unidad de la especie humana diversidad cultural y por otro lado la dificultad de expresar lo abstracto a trav s de lo concreto personas lugares y hechos En definitiva se trata de abordar esos caminos de ida y vuelta entre la especificidad y universalidad culturales

Historia de las ideas estéticas y de las teorías artísticas contemporáneas. Vol. 2 Varios, 2015-07-20 El desarrollo de la est tica y las teor as del arte en el siglo xx adquiere una fisonom a directamente condicionada por la evoluci n de los movimientos art sticos y literarios Siendo habitual que las ideas est ticas respondan a los problemas planteados por las obras su recepci n e interpretaci n es rasgo propio de nuestro siglo el creciente inter s de los creadores artistas poetas etc por la reflexi n sobre su propia actividad El panorama que ofrece la est tica del siglo xx se ha enriquecido con experiencias inesperadas y ha puesto en juego contribuciones desde muy diferentes perspectivas te ricas y metodol gicas El papel jugado por las vanguardias debe articularse con el auge de los estudios disciplinares y la evoluci n de la cr tica Todo ello sin olvidar la respuesta social su incidencia en el mundo cotidiano y en las interpretaciones individuales o colectivas de esa cotidianidad

Cuatro son los ejes que organizan el presente volumen En el primero ocupan un lugar central los problemas relativos al lenguaje a la consideración del lenguaje del arte y del arte como una forma de lenguaje El segundo atiende a la conexión entre arte y sociedad y a las explicaciones que esta cuestión ha suscitado desde la que Gerard Vilar denomina estética de la producción hasta la estética de la recepción analizada por Ricardo Sánchez Ortiz de Urbina Los estudios disciplinares sociología del arte iconología a formalismo pura visualidad etc son el tema abordado en tercer lugar Estos estudios que como se comprende bien no son ajenos a las cuestiones anteriores han alcanzado en nuestro siglo un amplio desarrollo Por último se concede especial atención al conjunto de problemas que suelen englobarse en el marco de la postmodernidad empezando por el mismo concepto de postmodernidad La evolución de la crítica literaria las teorías de la arquitectura y las que Estrella de Diego denomina figuras de la diferencia concluyen esta historia

80 TEORÍAS Y UN DRAMA SOBRE LA MUERTE VICENTE MELIÁ BOMBOÍ, 2023-07-07

Cuando decidas recorrer la dimensión tiempo de tu memoria descubrirás que te has transformado por medio de una lenta metamorfosis quizás en 80 teorías 80t y un drama sobre la muerte 1dm dtm 80t 1dm Nuestros recuerdos son como un amasijo de chatarra enmarañada de sueños miedos y fantasmas resultado de una gran colisión entre cuatro trenes que recorren las vías del tiempo A velocidad de vértigo se desplaza un tren que viene del pasado remoto cargado con recuerdos ancestrales contagiados de cerebro a cerebro y que heredamos como una ilusión propia pues llegamos a creer que estos son nuestros Por otra vía hacia el mismo punto y sin control otro que proviene de nuestra infancia con recuerdos inconexos de los primeros años de vida estos son como flases o recortes desordenados de cientos de fotogramas de películas Y en la zona cero estacionado en vía muerta se encuentra el tren de cercanías el de los recuerdos actuales repleto de emociones tan recientes que todavía desgarran Pero por si fuera poco en este bestial impacto está implicado otro tren que como paradoja por resolver se desliza sin frenos desde el futuro hacia nuestro presente Este tren que viene a toda máquina hacia el inevitable punto de colisión va sobrecargado de recuerdos virtuales Recuerdos de acontecimientos que nunca hemos vivido pero que tantas veces hemos soñado que viviremos que los hemos convertido en realidad emocional por lo que esta es una locomotora fantasma construida con el material de los deseos y cargada con espejismos de recuerdos Y parte de la energía liberada en este brutal choque entre locomotoras activa en nuestra memoria un programa de reconstrucción que tiende a falsear los recuerdos para que estos dejen de ser un arma cargada con balas de dolor emocional que podamos utilizar contra nosotros mismos
