Empowering Decision-Making in Midwifery Elaine Jefford, Julie Jomeen, 2019-08-29 Decision making pervades all aspects of midwifery practice across the world Midwifery is informed by a number of decision making theories but it is sometimes difficult to marry these theories with practice This book provides a comprehensive exploration of decision making for midwives irrespective of where in the world they practice or in which model of care The first part critically reviews decision making theories including the Enhancing Decision making Assessment in Midwifery

EDAM tool and their relevance to midwifery It explores the links between midwifery governance including professional regulation and the law risk and safety and decision making as well as how critical thinking and reflection are essential elements of decision making It then goes on to present a number of diverse case studies demonstrating how they interrelate to and impact upon optimal midwifery decision making Each chapter presents examples that show how the theory translates into practice and includes activities to reinforce learning points Bringing together a diverse range of contributors this volume will be essential reading for midwifery students practising midwives and midwifery academics

Aspects of Midwifery

Practice Jo Alexander, Valerie Levy, Sarah Roch, 1995-11-11 This fifth volume in the immensely popular series introduces new topics of Midwifery Practice and revisits some topics already discussed in previous volumes The accessible chapter structure remains the same and a broad range of research themes are presented across the three stages of midwifery practice The guiding philosophy behind this series is to present research topics within the context of clinical practice and in this volume the editors have put together a subject range which will be of interest to all practicing midwives and students

Decision-Making in Midwifery Practice Maureen D. Raynor, Jayne E. Marshall, Amanda Sullivan, 2005-06-01 The book looks at a broad perspective of decision making and each chapter focuses on a specific aspect related to making crucial decisions Following an initial introduction the book explores the concept of autonomy and the many factors that influence autonomous practise The role of knowledge in decision making using evidence to inform decisions as well as different approaches to decision making are also examined including the traditional or rational approach decision analysis and the development of professional judgement Dilemmas arise when decisions are made and therefore ethical decision making is an important component of this book Management decisions may be different from those related to giving specific care to women hence one chapter focuses on making management decisions Emphasis is also placed on the role of the midwife in helping women make their own decisions the role of reflection in enhancing the decisions midwives make and the support midwives can receive from their Supervisor of Midwives Flowcharts explain and facilitate the decision making process A very practical approach to decision making in midwifery with contributions from midwives who have considerable experience in this area Provides guidelines on how to achieve successful autonomous midwifery practice enabling theory to be effectively applied to practice Includes coverage of management roles and decision making as well as clinical scenarios offering frameworks and flowcharts to guide the inexperienced Suggests different approaches to making difficult decisions
