Sledge The British Trans Greenland Exped:

Arctic Bibliography Arctic Institute of North America, 1953 *Sledge* Martin Lindsay, 1939 Ice Steel and Fire Linda Parker, 2013-07-19 The generation that reached maturity in the inter war years had grown up in the shadow of the heroic age of Polar exploration and the sacrifices of a generation in the Great War Their own adventures were to prove as astonishing and heroic as those of a previous generation The members of the British Arctic air route expedition to Greenland including Martin Lindsay Quintin Riley and Freddie Spencer Chapman were to pioneer the weather research methods necessary for Trans Atlantic Flight The university expeditions to Spitsbergen led by George Binney in the 1920s and Sandy Glen in the 1930s traversed and surveyed unexplored ground and contributed to developments in polar flight and radar Glen s expeditions added to the knowledge of Arctic conditions by over wintering Other pre war exploits of these adventurers included a voyage around the world the wrong way and participation in the British Graham Land Antarctic expedition Peter Fleming brother to the creator of James Bond Ian Fleming spent the 1930s exploring Brazil China and Tartary Fleming s exploits are recounted in detail in this book The character skills and endurance obtained in these years set these adventurers and explorers apart as men who were to play a distinguished and heroic role in the Second World War Their expertise in Arctic conditions small boat handling and exploring in all climatic conditions resulted in their participation in all aspects of warfare and arenas of battle particularly as exponents of special operations and as key members of Britain s first special forces Their war service took them from the fjords of Norway and Spitsbergen to the jungles of Burma and Malaya and the beaches of Normandy and Italy They were involved in blockade running covert operations in Yugoslavia Corsica and France and took part in major initiatives such as Ian Fleming s Intelligence gathering force No 30 Assault unit and the raid on St Nazaire Most of these men had known each other before war came in 1939 In some cases they ended up serving alongside one another in wartime The intertwined stories of these characters in peace and war are examples of how the spirit of adventure shown by men in the inter war years contributed to Britain s outstanding role in the Second World War Linda Parker has written an important study that is equally relevant to both the history of British exploration and the genesis and early days of Britain s special forces 1939 45 a quite unique and hitherto unexamined relationship Linda Parker combines teaching History on a part time basis with her writing and is currently completing a PhD at Birmingham University Her main areas of interest are 20th Century Military History Church History and the History of Polar exploration She is a member of the Western Front Association She was born and educated in Wales but now lives in Oxfordshire with her husband and their dog She enjoys walking and travelling ideally together and her ambition is to visit Antarctica Her first book published by Helion was *The Whole Armour of God* Anglican Army Chaplains in the Great War 2009 **Lands that Hold One Spellbound** Spencer Apollonio, 2008 Offers an history of East Greenland This book summarises indigenous settlements over four millennia and describes European explorations since the Norse It recounts each of the European and American

expeditions relying on the explorers original accounts as well as on the author s narration *Sledge. The British Trans-Greenland Expedition, 1934. With ... Maps ... Plates [including Portraits], Etc* Martin Lindsay, 1935 *Into the Great Emptiness* David Roberts, 2022-12-13 A Library Journal Best Book of 2022 in Science and Technology A gripping saga and one of Roberts s finest books Jon Krakauer The riveting story of one of the greatest but least known sagas in the history of exploration By 1930 no place in the world was less well explored than Greenland The native Inuit had occupied the relatively accessible west coast for centuries The east coast however was another story In August 1930 Henry George Watkins nicknamed Gino a twenty three year old British explorer led thirteen scientists and explorers on an ambitious expedition to the east coast of Greenland and into its vast and forbidding interior to set up a permanent meteorological base on the icecap 8 200 feet above sea level The Ice Cap Station was to be the anchor of a transpolar route of air travel from Europe to North America The weather on the ice cap was appalling Fierce storms Temperatures plunging lower than 50 Fahrenheit in the winter Watkins s scheme called for rotating teams of two men each to monitor the station for two months at a time No one had ever tried to winter over in that hostile landscape let alone manage a weather station through twelve continuous months Watkins was younger than anyone under his command But he had several daring trips to the Arctic under his belt and no one doubted his judgement The first crisis came in the fall when a snowstorm stranded a resupply mission halfway to the top for many weeks When they arrived at the ice cap there were not enough provisions and fuel for another two man shift so the station would have to be abandoned Then team member August Courtauld made an astonishing offer To enable the mission to go forward he would monitor the station solo through the winter When a team went up in March to relieve Courtauld after weeks of brutal effort to make the 130 mile journey they could find no trace of him or the station By the end of March Courtauld s situation was desperate He was buried under an immovable load of frozen snow and was disastrously short on supplies On April 21 four months after Courtauld began his solitary vigil Gino Watkins set out inland with two companions to find and rescue him David Roberts veteran mountain climber and chronicler of adventures Washington Post draws on firsthand accounts and archival materials to tell the story of this daring expedition and of the epic survival ordeal that ensued

Exploring Polar Frontiers William James Mills, 2003-12-11 Covers the entire history of Arctic and Antarctic exploration from the voyage of Pytheas ca 325 B C to the present in one convenient comprehensive reference resource Exploring Polar Frontiers A Historical Encyclopedia is the only reference work that provides a comprehensive history of polar exploration from the ancient period through the present day The author is a noted polar scholar and offers dramatic accounts of all major explorers and their expeditions together with separate exploration histories for specific islands regions and uncharted waters He presents a wealth of fascinating information under a variety of subject entries including methods of transport myths achievements and record breaking activities By approaching polar exploration biographically geographically and topically Mills reveals a number of intriguing connections between the various explorers their patrons and times and the process of

discovery in all areas of the polar regions Furthermore he provides the reader with a clear understanding of the intellectual climate as well as the dominant social economic and political forces surrounding each expedition Readers will learn why the journeys were undertaken not just where when and how

Sledge : the British Trans-Greenland Expedition, 1934

Lindsay, Martin,1935 Mountaineering and Its Literature Jill Neate,1980 Few areas of human endeavor and adventure

have such an extensive literature as does mountaineering perhaps because the activity itself is so diverse ranging from gymnastic feats of modern rock climbers through alpinism to Himalayan conquests and exploration Even before Edward Whymper climbed the Matterhorn in 1865 and wrote the celebrated Scrambles in the Alps mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world In recent years the literature has expanded considerably to account for the phenomenal growth of mountain activities Expeditions are now commonplace and the great mountain ranges are no longer beyond the reach of the average climber This extensive bibliography describes works on mountaineering published in the English language since 1744 But it s far more than a dry catalog of books as author Neate gives notes which help the reader assess as book s reliability and significance An indispensable reference for the active climber would be explorer and bibliophile alike

Grønland John Andersen,2006 John Andersen er den eneste i verden som

har padlet hele veien rundt Gr nland Noen strekninger alene andre sammen med gr nlandske og danske reisefeller I boken forteller han om eventyr dramatiske situasjoner og enest ende naturopplevelser p Gr nlands stkyst Boken er illustrert med 140 fotografier i farger

To the Ends of the Earth Ranulph Fiennes,2014-09-11 Ranulph Fiennes has entered the public

imagination as the intrepid explorer par excellence Taunted by his wife over the challenge of the never before attempted circumpolar navigation of the globe he set off in 1979 on a gruelling 52 000 mile adventure Together with fellow members of 21 SAS regiment Fiennes left from Greenwich travelling over land passing through both ends of the polar axis Completed over two years later it was the first circumpolar navigation of the globe and justifiably entered Fiennes into the record books TO THE ENDS OF THE EARTH is the record of that journey It captures the natural beauty of the landscapes they passed through and the camaraderie that necessarily grows between men who had served in the British forces elite regiment and were now throwing themselves into danger of a different sort Time and again the expedition found themselves in life threatening situations weaving through the pack ice of the Arctic Ocean or sharing a single sleeping bag to ward off the 40 degrees celsius Arctic night The calm and measured approach which made Fiennes such a great expedition leader shines through TO THE ENDS OF THE EARTH deftly recreating the last unexplored regions on earth It is also a book which lays the foundations for what was to come for Fiennes confirming a need to exist outside the comfortable norms the rest of us inhabit As the expedition progresses there is also a mounting sense of tension as attainment of the final goal also spells the end of the adventure TO THE ENDS OF THE EARTH is a compelling account of one journey and Fiennes drive to push himself to ever further extremes

Research Report ,1958

Dictionary Catalog of the Research Libraries of the New York Public

Library, 1911-1971 New York Public Library. Research Libraries,1979 **Master of Deception** Alan Ogden,2022-02-24

Master of Deception is a biography of Peter Fleming elder brother of Ian Fleming creator of James Bond Peter Fleming worked as a travel writer and journalist serving with distinction throughout World War II and played a crucial role in British intelligence operations in the Far East This biography ranges from the personal life of Fleming such as his marriage to Celia Johnson a famous actor of the time to his extensive military intelligence career which took him from Norway and Greece to the Far East Framed through the life of Peter Fleming this book offers an in depth study of British intelligence operations in the Far East during World War II War Background Studies Smithsonian Institution,1942 Oxford Dictionary of National Biography 2005-2008 Lawrence Goldman,2013-03-07 Who made modern Britain This book drawn from the award winning Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life Following on from the Oxford DNB s first supplement volume noteworthy people who died between 2001 and 2004 this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty first century Britain and who died in the years 2005 to 2008 Here are the people responsible for major developments in national life from politics the arts business technology and law to military service sport education science and medicine Many are closely connected to specific periods in Britain s recent history From the 1950s the young Harold Pinter or the Yorkshire cricketer Fred Trueman for example From the Sixties the footballer George Best photographer Patrick Lichfield and the Pink Floyd musician Syd Barrett It s hard to look back to the 1970s without thinking of Edward Heath and James Callaghan who led the country for seven years in that turbulent decade or similarly Freddie Laker pioneer of budget air travel and the comedians Ronnie Barker and Dave Allen who entertained with their sketch shows and sit coms A decade later you probably browsed in Anita Roddick s Body Shop or danced to the music of Factory Records established by the Manchester entrepreneur Tony Wilson In the 1990s you may have hoped that Things can only get better with a New Labour government which included Robin Cook and Mo Mowlam Many in this volume are remembered for lives dedicated to a profession or cause Bill Deedes or Conor Cruise O'Brien in journalism Ned Sherrin in broadcasting or indeed Ted Heath whose political career spanned more than 50 years Others were responsible for discoveries or innovations of lasting legacy and benefit among them the epidemiologist Richard Doll who made the link between smoking and lung cancer Cicely Saunders creator of the hospice movement and Chad Varah founder of the Samaritans With John Profumo who gave his name to a scandal policeman Malcolm Fewtrell who investigated the Great Train Robbery or the Russian dissident Aleksandr Litvinenko who was killed in London in 2006 we have individuals best known for specific moments in our recent past Others are synonymous with popular objects and experiences evocative of recent decades Mastermind with Magnus Magnusson the PG Tips chimpanzees trained by Molly Badham John DeLorean s gull wing car or the new British Library designed by Colin St John Wilson though as rounded and balanced accounts Oxford DNB biographies also set these events in the wider context of a

person's life story Authoritative and accessible the biographies in this volume are written by specialist authors many of them leading figures in their field Here you will find Michael Billington on Harold Pinter Michael Crick on George Best Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in another factory Awarded the George Cross and the George Medal Bywater remains the only non-combatant to have received Britain's two highest awards for civilian bravery

Bibliography on the Climate of Greenland Thomas A. Bender, United States. Weather Bureau, 1957 Arranged alphabetically within ten year groups

The European Antarctic P. Roberts, 2011-12-19 This is the first transnational study of British Norwegian and Swedish engagement with the Antarctic Rather than charting how Europeans unveiled the Antarctic it uses the history of Antarctic activity as a window into the political and cultural worlds of twentieth century Britain and Scandinavia

Egypt and the Suez Canal Frank Harold Hanna Roberts, 1943

The Publishers' Circular and the Publisher & Bookseller, 1936
