Spazio E Societa Space Society International Journal Of Architecture And Environmental Design 24

Ralf Brand, Sara Fregonese

Spazio E Societa Space Society International Journal Of Architecture And Environmental Design 24:

The Radicals' City: Urban Environment, Polarisation, Cohesion Ralf Brand, Sara Fregonese, 2016-02-24 Bringing together comparative case studies from Belfast Beirut Amsterdam and Berlin this book examines the role of the urban environment in social polarisation processes In doing so it provides a timely and refreshingly innovative voice in the confusing babble on counter terrorism urban conflict and community cohesion Despite their socio political differences these cities are telling cases of how the location and shape of very mundane objects such as rubbish bins bridges clothes stores shopping malls and caf s in addition to the obvious fences walls and barbed wire are often subject to heated controversies and influence the way urban conflict is lived and practised Within a Science and Technology Studies STS theoretical framework the authors provide a systematic analysis of these four cities and provide many concrete and richly illustrated examples of material agency without losing sight of their specific historical political geographical and social conditions The STS angle permits some surprising yet extremely convincing conclusions which are of use not only for a range of practitioners but also to scholars interested in the social shaping processes and the consequences of urban artefacts The authors argue that although architecture and urban design is clearly not the sole cause of conflict and polarisation neither is it completely innocent Conversely it cannot be the silver bullet to solve related problems and to create community cohesion However the materiality of our cities must not be ignored in fact it can and should be enrolled in our efforts The book contains detailed descriptions of such positive cases as inspiration for practitioners as diverse as policy makers architects urban designers planners community workers consultants or police officers

Achieving Sustainable Urban Form Elizabeth Burton, Mike Jenks, Katie Williams, 2013-07-04 Achieving Sustainable Urban Form represents a major advance in the sustainable development debate It presents research which defines elements of sustainable urban form density size configuration detailed design and quality from macro to micro scale Case studies from Europe the USA and Australia are used to illustrate good practice within the fields of planning urban design and architecture
