Humphrey Jennings and British Documentary Film: A Re-assessment

Philip C. Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain

Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings s film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible He shows for the first time exactly how Jennings s artistic expression was influenced by the fundamental intellectual social and cultural changes that shook British society during the first decades of the twentieth century Combining biography social history and international artistic thought the book offers a fascinating insight into Jennings his work the wider British documentary film movement and the interaction between art and propaganda Bringing together assessments of his tragically short life and his films this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s **Mass-Observation** Jennifer J.

Regenerating England ,2016-08-29 In the inter war years there was much debate in Britain as to whether the best path to post World War I regeneration would be found in the promises of science and technology in continued and increased efficiency in specialization and professionalization or whether the future of the nation depended on a rediscovery of older and more authentic ways of doing things on a defiant anti modernism This debate on Britain s future was often conducted in terms of Englishness and the rebirth of a lost more spiritual village England However Englishness also entered inter war social thinking through eclectic assimilations of diverse traditions Prominent themes in the discourses on Britain s post war regeneration include national character citizenship fitness education utopia community and so on The chapters in the present volume address these themes and break new ground by examining debates well known in political and literary history through their relations to science medicine architecture and ideas of social and political health **Sunday** Craig Harline,2011-09-13 The mere mention of Sunday will immediately conjure up a rich mix of memories associations and ideas for most anyone of any age Whatever we think of be it attending church reading a bulky newspaper eating brunch or watching football Sunday occupies a unique place in Western civilization But how did we come to have a day with such a singular set of traditions Here historian Craig Harline examines Sunday from its ancient beginnings to contemporary America in a fascinating blend of stories and analysis For the earliest Christians the first day of the week was a time to celebrate the liturgy observe the Resurrection and work But over time Sunday in the Western world took on still other meanings and rituals especially in the addition of both rest and recreation to the day s activities Harline illuminates these

changes in enlightening profiles of Sunday in medieval Catholic England Sunday in the Reformation and Sunday in nineteenth century France home of the most envied and sometimes despised Sunday of the modern world He continues with moving portraits of soldiers and civilians trying to observe Sunday during World War I examines the quiet Sunday of England in the 1930s and concludes with the convergence of various European traditions in the American Sunday which also adds some distinctly original habits of its own such as in the realms of commerce and professional sports With engaging prose and scholarly integrity Sunday is an entertaining and long overdue look at a significant hallmark of Western culture *The Most Offending Soul Alive* Judith M. Heimann,1999-11-01 An English eccentric and adventurer Tom Harrisson 1911 1976 sought knowledge and renown in a dizzying number of fields while breaking most of the rules of civilized society He was a precursor in the field of modern market research he won the DSO for his World War II service in Borneo he led efforts to save the orangutan the green sea turtle and other endangered species he discovered the oldest modern human skull known at the time This hugely enjoyable story of Harrisson s extravagant controversial life offers a sympathetic and insightful look at a charismatic figure who offended as many people as he impressed at the twilight of colonialism on the fringes of the British empire

Negotiating the Mediated City Zlatan Krajina,2013-11-26 This book is an interdisciplinary empirical investigation of how people interact with public screens in their daily lives In more and more surprising locations screens of various kinds appear within the sightlines of passers by in contemporary cities Outdoor advertisers target audiences which are increasingly mobile public art uses screens to interrogate urban change while postmodern architecture finds electronic imagery a suitable tool of expression Traditionally urban sociology research has assumed that people seek to filter urban stimuli but recent accounts of public screens suggest producers design and position display interfaces site specifically so as to engage with those moving past This study offers insight both into the dynamics of actual encounters and into the long term process of how people learn to live with repeated invitations to consume media in public spaces The book includes four cases street advertising underground transport advertising and installation art in London UK and media facade architecture in Zadar Croatia Krajina shows that maintaining familiarity with everyday surroundings in media cities that change beyond citizens control is a temporary achievement and a recursive struggle Finalist for the Jane Jacobs Urban Communication Foundation book award 2014

The Politics of Crisis G. Fry, 2001-05-21 The Politics of Crisis is an interpretation of the most dramatic periods of modern British political history the decade and a half between 1931 and 1945 Formed to sustain the British economy in the midst of the Great Depression the National Governments of the 1930s achieved this and more and electoral popularity unmatched since Yet the conventional wisdom about those Governments is full of the unemployment that they inherited as it is of the image of Neville Chamberlain trying and failing to buy peace from Hitler at Munich For then comes the Second World War and Winston Churchill and victory of a kind for Britain and a curious form of domestic politics that with peace restored witnesses the victor turned out of office The Politics of Crisis clinically assesses the evidence and these events and provides a challenging and new interpretation of them

Re-Reading Leavis G. Day, 1996-10-11 This book offers a much needed reassessment of F R Leavis Gary Day argues that post structuralist theory has defined itself in opposition to Leavis when in fact there are certain parallels between the two types of criticism Day also draws attention to the connections between Leavis s early work and the emergent discourses of consumerism and scientific management In particular he notes how at the centre of each is an image of the body and he analyses what this means for Leavis s conception of reading By situating Leavis in relation to the concerns of post structuralism and by locating him firmly in his historical context Day is able to chart how far criticism can justly claim to be oppositional At the same time Day is able to recuperate from Leavis s work a notion of value a topic which is becoming increasingly important in literary and cultural studies today

Lifestyle revolution Ben Highmore, 2023-02-21 In postwar Britain journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines and where more and more people owned their own homes They were to be proved hopelessly wrong Lifestyle revolution charts how class culture rather than being destroyed by mass consumption was remade from flat pack furniture Mediterranean cuisine and lifestyle magazines Novelists cartoonists and playwrights satirised the tastes of the emerging middle classes while sociologists claimed that an entire population was suffering from status anxiety but underneath it all a new order was being constructed out of duvets quiches and mayonnaise easy chairs from Habitat white emulsion paint and ubiquitous pine kitchen tables More than just a world of symbolic goods this was an intimate environment alive with new feelings and attitudes

Modernism and World War II Marina MacKay, 2007-01-18 World War II marked the beginning of the end of literary modernism in Britain However this late period of modernism and its response to the war have not yet received the scholarly attention they deserve In this full length study of modernism and World War II Marina MacKay offers historical readings of Virginia Woolf Rebecca West T S Eliot Henry Green and Evelyn Waugh set against the dramatic background of national struggle and transformation In recovering how these major authors engaged with other texts of their time political discourses mass and middlebrow

culture this study reveals how World War II brought to the surface the underlying politics of modernism's aesthetic practices Through close analyses of the revisions made to modernist thinking after 1939 MacKay establishes the significance of this persistently neglected phase of modern literature as a watershed moment in twentieth century literary history Life Before the War Michael Alpert, 2026-01-30 In northern Britain and parts of Wales and Scotland your life might well be dominated throughout the 1930s by unemployment low wages poor nutrition ill health and slum housing But if you lived in the Midlands London or the South East by the latter 1930s you would probably be enjoying a far better life as you benefited from the spread of electric power new factories and products a greater variety of food a huge private and public house building programme and expansion of all sorts much of it created by the sums spent on rearmament For people living in prosperous areas real wages rose substantially between 1936 and 1939 as was shown by their increased consumption of food and clothes The latter 1930s were years of ever more widespread leisure pursuits among them near universal cinema going newspaper reading and for many millions holiday making A well paid working man or office worker might even be able to buy a car Even so most working class wages especially for women remained below those of the middle classes and class differences were still clearly marked in housing food clothing education medical treatment and purchasing power in general Your views on religion marriage sex and behaviour in general remained sharply defined and changed slowly and only at the end of the decade could the beginnings of change be seen At the same time the Second World War which began on 3 September 1939 was the climax of a long period of increasing anxiety during which the press the wireless and the cinema newsreel brought foreign affairs more and more into your daily life Using varied sources including personal memories and daily life as pictured in newspapers and novels Michael Alpert presents a broad picture of life for ordinary people in Britain nearly a century ago Culture in Camouflage Patrick Deer, 2009-03-26 Examines how literary writers including Ford Madox Ford Siegfried Sassoon Wilfred Owen James Hanley Evelyn Waugh Graham Greene and others countered the war culture promoted by mass media war planners and military historians *City Gorged with Dreams* Ian Walker, 2002 The author analyses how the Surrealists utilised the tactics of documentary and how Surrealist ideas in turn influenced the development of documentary photography This is a study of what Louis Aragon called surrealist realism the exploration of the real life surreality of the city
