Speaking The Unspeakable Religion Misogyny And The Uncanny Mother In Freuds Cultural Texts:

Speaking the Unspeakable Diane Elizabeth Jonte-Pace, 2001 Jonte Pace offers an original reading of selected Freudian texts that lie at the interface of his theories of religion culture psyche and gender She shows that beneath Freud's Oedipal masterplot are unthematized but potent images that meet in the uncanny images of maternal corpses and dead ly mothers immortality or afterlife an absent God and the wandering Jew Freud's familiar texts become unfamiliar especially to readers of the English translations Jonte Pace unearths Freud's unsaid preoccupations and in doing so unsettles what scholars say that he said Judith Van Herik author of *Freud on Femininity and Faith*

Speaking the Unspeakable Diane Jonte-Pace, 2001-12-03 This rereading of Freud's cultural texts uncovers an undeveloped counterthesis one that repeatedly interrupts or subverts his well known Oedipal maserplot The counterthesis is evident in three clusters of themes within Freud's work

Teaching Freud Diane Jonte-Pace Professor of Religious Studies and Associate Vice Provost for Faculty Development Santa Clara University, 2003-03-04 As one of the first theorists to explore the unconscious fantasies fears and desires underlying religious ideas and practices Freud can be considered one of the grandparents of the field of Religious Studies Yet his legacy is deeply contested How can Freud be taught in a climate of critique and controversy The fourteen contributors to this volume all recognized scholars of religion and psychoanalysis describe how they address Freud's contested legacy they teach the debates They go on to describe their courses on Freud and religion their innovative pedagogical practices and the creative ways they work with resistance

A Multitude of Women Stefania Lucamante, 2008-09-15 *A Multitude of Women* looks at the ways in which both Italian literary tradition and external influences have assisted Italian women writers in rethinking the theoretical and aesthetic ties between author text and readership in the construction of the novel Stefania Lucamante discusses the valuable contributions that Italian women writers have made to the contemporary novel and illustrates the relevance of the novelistic examples set by their predecessors She addresses various discursive communities reading works by Di Lascia Ferrante Vinci and others with reference to intertextuality and the theories of Elsa Morante and Simone de Beauvoir This study identifies a positive deviation from literary and ideological orthodoxy a deviation that helps give meaning to the Italian novel and to transform the traditional notion of the canon in Italian literature Lucamante argues that this is partly due to the merits of women writers and their ability to eschew obsolete patterns in narrative while favouring forms that are more attuned to the ever changing needs of society She shows that contemporary novels by women authors mirror a shift from previous trends in which the need for female emancipation interfered with the actual literary and aesthetic significance of the novel *A Multitude of Women* offers a new epistemology of the novel and will appeal to those interested in women's writing readership Italian studies and literary studies in general

Methodology in Religious Studies Arvind Sharma, 2012-02-01 *Methodology in Religious Studies* assesses the impact of women's studies on the various methods employed in studying religion Since its

inception in the 1860s the study of religion as an academic discipline has evolved over time ranging from the classically historical to the boldly hermeneutical The women s studies movement has since the 1980s become part and parcel of the intellectual landscape of our times and the study of religion has become increasingly influenced by it What are the implications of this new development for the methodology of religious studies Leading practitioners of psychological theological sociological anthropological phenomenological historical and hermeneutic approaches examine the mutually enriching interface between religious studies and women s studies as they explore the broader issue of the interaction between method and the nature of the subject itself **Freud on the Couch** Beverley Clack,2013-09-01 A major new myth busting introduction to one of the 20th century s greatest thinkers Sigmund Freud 1856 1939 founder of psychoanalysis is one of the most famous thinkers of modern times But despite and perhaps because of his notoriety his work is frequently encumbered by mistranslations clich s and misconceptions In this landmark assessment of the great theorist Professor Beverley Clack reveals a more complex Freud than the one with whom we are commonly presented Casting new light on a man often unfairly derided as obsessed with sex and rigid theory Clack argues that he was as concerned with the death drive as the sex drive and that his fierce critique of religion masked a fascination with spiritual existential and philosophical questions Revealing how the work of philosophers such as Schopenhauer and Nietzsche influenced Freud far more than he cared to admit Clack explains his key ideas and case studies in the context of his eventful life Including a detailed exploration of hysteria and its foundational role in his theories this myth busting introduction is a vital insight into why Freud s thought is still so relevant today **Beyond the Philosopher's Fear** Ludger H. Viefhues-Bailey,2016-12-05 Based on a detailed analysis of gender in Stanley Cavell s treatment of the skeptical problem this book addresses the relationship between gender and religion in modern skepticism Engaging in dialogue with Julia Kristeva s philosophy Viefhues claims that a religious problem underlies Cavell s understanding of the feminine The feminine which the skeptic fears is construed as a placeholder for the beyond marking the transcendence of our origins which are elusive yet at the same time part of ourselves It is argued that a religious question of origins thus lies at the heart of the modern skeptical problem **Ana-María Rizzuto and the Psychoanalysis of Religion** Martha J. Reineke,David M. Goodman,2017-08-24 Ana Mar a Rizzuto s groundbreaking explorations of the formation of God representations in early childhood and their elaboration throughout the life cycle have made their mark enriching the practice of psychoanalysis and psychotherapy as well as scholarship within the psychoanalytic study of religion Accompanied by illuminating commentaries by Rizzuto the authors of this edited collection essays in this volume underscore Rizzuto s most important contribution to clinical practice rather than assert that psychoanalysis is incompatible with religious beliefs and practices or with spiritual concerns that patients may bring to a therapeutic context Rizzuto makes room for the coexistence of psychoanalysis and religion in the therapeutic setting Demonstrating how Rizzuto s work has enhanced connections within and among psychoanalytic theories of religion

established pathways for new developments in psychotherapy and facilitated interdisciplinary conversations this volume showcases the compelling power of Rizzuto's work and its ongoing influence

The Riddling between Oedipus and the Sphinx Yuan Yuan, 2016-04-12 The issue of the other has always been an urgent one especially since 1980's when the political debates over race gender class culture ethnicity and post colonialism took the central stage The Riddling between Oedipus and the Sphinx Ontology Hauntology and Heterologies of the Grotesque probes the polemic status of the other and the dubious nature of the subject from a heterodox perspective of an emblematic grotesque figure the Sphinx the mystical trickster and the guardian of sacred knowledge in Egyptian culture In Greek mythology Oedipus the epitome of Western logos solved the Sphinx's riddle with a single word Man This evocation for the phantom of a solipsistic subject discloses in effect Oedipus' latent grotesque disparity The book explores the encounter of this unlikely pair to inquire the riddling relationship between the singular subject and the grotesque other in the context of modern discourses of the subject and postmodern theories of the other

Moral Powers, Fragile Beliefs Joseph Carlisle, James Carter, Daniel Whistler, 2011-02-17

Early Psychoanalytic Religious Writings H. Newton Malony, Edward P. Shafranske, 2021-03-22 Early Psychoanalytic Religious Writings presents in one edited volume many of the foundational writings in the psychoanalytic study of religion These translated works by Abraham Fromm Pfister and others complement

Freud's seminal contributions and provide a unique window into the origins of psychoanalytic thinking. The volume includes the Freud/Pfister correspondence with a brief introduction which reveals the rich back story of friendship, mutual respect and intellectual debate. These essays are anchored in Freud's early theory building and prefigure and are linked to later developments in psychoanalytic thought. The issues raised in these essays are of relevance still today: how is religious thinking shaped by unconscious processes reflecting primary relationships and drives.

Phenomenologies of the Stranger Richard Kearney, Kascha Semonovitch, 2011. What is strange? Or better, who is strange? When do we encounter the strange? This volume takes the question of hosting the Stranger to the deeper level of embodied imagination and the senses. It asks: How does the embodied imagination relate to the Stranger in terms of hospitality or hostility, given the common root of hostis as both host and enemy? How do humans sense the dimension of the strange and alien in different religions, arts and cultures? How do the five physical senses relate to the spiritual senses, especially the famous sixth sense as portals to an encounter with the Other? Is there a carnal perception of alterity which would operate at an affective, prereflective, preconscious level? What exactly do embodied imaginaries of hospitality and hostility entail? And what finally are the topical implications of these questions for an ethics and practice of tolerance and peace.

The Feminist Uncanny in Theory and Art Practice Alexandra M. Kokoli, 2016-08-11. The Feminist Uncanny in Theory and Art Practice investigates the widely debated, deeply flawed yet influential concept of the uncanny through the lens of feminist theory and contemporary art practice. Not merely a subversive strategy but a cipher of the fraught but fertile dialogue between feminism and psychoanalysis, the uncanny makes an ideal vehicle for an arrangement marked by ambivalence and acts as a constant reminder that feminism and psychoanalysis are never quite at home with one another. The Feminist Uncanny begins by charting the uncanniness of femininity in foundational psychoanalytic texts by Ernst Jentsch, Sigmund Freud, Jacques Lacan and Mladen Dolar and contextually introduces a range of feminist responses and appropriations by Hélène Cixous, Julia Kristeva and Sarah Kofman among others. The book also offers thematically organised interpretations of famous artworks and practices informed by feminism, including Judy Chicago's *Dinner Party*, Faith Ringgold's story quilts and Susan Hiller's paraconceptualism as well as less well-known practice such as the Women's Postal Art, *Even Feminist* and the photomontages of Maud Sulter. Dead, lexicalised metaphors, unhomely domesticity, identity and disidentification and the tension between family stories and art's histories are examined in and from the perspective of different artistic and critical practices illustrating different aspects of the feminist uncanny. Through a partisan yet comprehensive critical review of the fascinating concept of the uncanny, *The Feminist Uncanny in Theory and Art Practice* proposes a new concept, the feminist uncanny, which it upholds as one of the most enduring legacies of the Women's Liberation Movement in contemporary art theory and practice.

Mourning Freud Madelon Sprengnether, 2018-02-08. Mourning Freud analyses Freud's experiences and theories of mourning as the basis for exploring changes in psychoanalytic theories and practices over the course of the 20th century. The modernist Freud of the

early 20th century has ceded to the postmodern Freud of the 21st Madelon Sprengnether examines this phenomenon from the perspective of Freud's self-analysis in relation to his generation of theory the challenges and transformations wrought by feminism cultural studies and postmodernism and the speculations of contemporary neuroscience concerning the unreliability of memory She offers a significant interpretation of major biographical episodes in Freud's life arguing that Freud's inability to mourn the losses of his early life shaped his theories of mourning which in turn opened the field of pre-oedipal studies to his successors enabling a host of new psychoanalytic theories such as object relations intersubjective and countertransference theories Lacanian analysis and trauma theory Many of these approaches converge on the formulation of mourning as critical to the process of ego development Through this argument Sprengnether traces the shift from modernism to postmodernism from an emphasis on mastery to vulnerability from vertical to horizontal systems of meaning making and from what is representable in words to the realm of the nonverbal Mourning Freud by exploring Freud's own struggles with mourning allows us in turn to mourn him releasing him from frozen idealization while demonstrating the relevance of his work to the 21st century *Psychoanalytic Explorations of the Masculine and the Maternal* Yael Pilowsky

Bankirer, 2024-11-25 In this book Yael Pilowsky Bankirer reads into Freud's writings with the unique prism of circumcision as a marker for both the formation of masculine identity and for matricide the disappearance of the mother Pilowsky Bankirer uses Freud's idea of circumcision within a text as a Leitfossil a key fossil through which an unresolved unconscious conflict can be traced She conducts a close reading of Freud's texts including Little Hans The Wolf Man Totem and Taboo and Moses and Monotheism to illuminate and uncover the textual unconscious deconstruct the explicit narrative and open alternative psychoanalytic possibilities inherent to the encounter with the maternal realm Throughout the volume Pilowsky Bankirer informs her analysis by considering the work of Freud in tandem with that of Lacan Kristeva Irigaray Derrida Benjamin Butler and more Psychoanalytic Explorations of the Masculine and the Maternal Uncovering the Image of Circumcision in Freud's Works will be of interest to scholars of psychoanalysis and practising analysts alike particularly those interested in the intersection of gender studies and psychoanalysis *Progress in Self Psychology, V. 18* Arnold I. Goldberg, 2013-06-17

Postmodern Self Psychology the last volume of the Progress in Self Psychology series under the editorship of Arnold Goldberg charts the path of self psychology into the postmodern era of psychoanalysis It begins with Goldberg's thoughtful consideration of the several tributaries of self psychological thought in the decades after Kohut and continues with Mark Gehrie's elaboration of reflective realism as a self psychological way out of epistemological quagmires about the essential reality of the analytic endeavor Clinical contributions offer contemporary perspectives on clinical themes that engaged Kohut in the 1970s a study of the effect of moments of meeting on systems of pathological accommodation a reappraisal of empathy as a bi-directional negotiation and an assessment of the diverse clinical phenomena that justify a prolonged understanding only phase of treatment The theory section of Volume 18 comparably charts the movement of self psychology toward a

postmodern sensibility Contributors reappraise intersubjectivity theory as a contextualist treatment approach consistent with dynamic systems theory return to Kohut s concept of selfobject relationships with special attention to the separate subjective and intersubjective components of selfobject experiences and develop one of Kohut s early ideas into a theory of forward edge transferences that strengthen normal self development In all Volume 18 is a richly insightful progress report on the current status of self psychology and a fitting capstone to Arnold Goldberg s distinguished tenure as editor of the Progress in Self Psychology series **Religion and Critical Psychology** Jeremy Carrette,2007-10-31 Carrette discusses the relevance of the social and economic factors surrounding the debates of psychology and religion and provides a new dimension to the debates surrounding religious experience
