Special Olympics:

A New Kind of Joy James Haskins, 1976 **Special Olympics** Adam Hellebuyck, Laura Deimel, 2019-08-01 Using the new C3 Framework for Social Studies Standards Special Olympics in the Global Citizens Sports series explores the topic through the lenses of History Geography Civics and Economics As they read students will develop questions about the text and use evidence from a variety of sources in order to form conclusions Data focused backmatter is included as well as a table of contents author biography sidebars bibliography glossary and index The Special Olympics Nancy Gilbert, Michael E. Goodman, 1990 A history of the Special Olympics from its founding by Eunice Kennedy Shriver to the present with profiles of Special Olympians Hearts and Souls of Special Olympics Ruth Spinelli, Alean Skinner, 2021-07-19 This book includes surveys from individuals who are involved with Special Olympics such as coaches employees athletes and volunteers and parents It also gives you a better understanding of Special Olympics in Montana *Special Olympics* Florian Kiuppis, Daniela Schwarz, 2023-11-07 This book brings together academic work on Special Olympics and specifically on the social inclusion of people with intellectual disabilities in various sport contexts and other areas of life by ways of both empirical research and theoretically informed papers Inclusion in sport is a topic that is mostly explored in connection with the participation of people with disabilities in general In public debates on inclusion and sport in the global society participation is predominantly discussed in a normative way e g in connection with the campaign The Revolution is Inclusion by Special Olympics describing it as an all out effort to end discrimination against people with intellectual disabilities With this international collection the authors seek to contribute to an interdisciplinary understanding of Special Olympics in Context of Inclusion Debates and establish a foundation for future scholarship The chapters in this book can contribute to a new research agenda on Special Olympics particularly participatory approaches The chapters in this book were originally published in Sport in Society **Hearts of Gold** Sheila Dinn, 1996 Covers the history of the Special Olympics the various events in which mentally and physically handicapped athletes compete and some of the people involved in this international competition **The Kennedy Family and the Story of Mental Retardation** Edward Shorter, 2000 According to Edward Shorter just forty years ago the institutions housing people with mental retardation MR had become a national scandal The mentally retarded who lived at home were largely isolated and a source of family shame Although some social stigma still attaches to the people with developmental disabilities a range of conditions including what until recently was called mental retardation they now actively participate in our society and are entitled by law to educational social and medical services The immense improvement in their daily lives and life chances came about in no small part because affected families mobilized for change but also because the Kennedy family made mental retardation its single great cause Long a generous benefactor of MR related organizations Joseph P Kennedy made MR the special charitable interest of the family foundation he set up in the 1950s Although he gave all of his children official roles he involved his daughter Eunice in performing its actual work

identifying appropriate recipients of awards and organizing the foundation's activities. With unique access to family and foundation papers, Shorter brings to light the Kennedy family's strong commitment to public service, showing that Rose and Joe taught their children by precept and example that their wealth and status obligated them to perform good works. Their parents expected each of them to apply their considerable energies to making a difference. Eunice Kennedy Shriver took up that charge and focused her organizational and rhetorical talents on putting MR on the federal policy agenda. As a sister of the President of the United States, she had access to the most powerful people in the country and drew their attention to the desperate situation of families affected by mental retardation. Her efforts made an enormous difference, resulting in unprecedented public attention to MR and new approaches to coordinating medical and social services. Along with her husband, R. Sargent Shriver, she made the Special Olympics an international annual event in order to encourage people with mental retardation to develop their skills and discover the joy of achievement. She emerges from these pages as a remarkable and dedicated advocate for people with developmental disabilities. Shorter's account of mental retardation presents an unfamiliar view of the Kennedy family and adds a significant chapter to the history of disability in this country.

Author note: Edward Shorter is a Professor at the University of Toronto where he holds the Hannah Chair in the History of Medicine. He is the author of *A History of Psychiatry from the Era of the Asylum to the Age of Prozac* as well as many other books in the fields of history and medicine.
