Spectacles And Predicaments Essays In Social Theory:

Spectacles and Predicaments Ernest Gellner, 1979 A collection of essays concerned with some key problems in the study of philosophy politics and society Introducing Social Theory Pip Jones, Liz Bradbury, 2017-11-27 This revised edition of this extremely popular introduction to social theory has been carefully and thoroughly updated with the latest developments in this continually changing field Written in a refreshingly lucid and engaging style *Introducing Social Theory* provides readers with a wide ranging well organized and thematic introduction to all the major thinkers issues and debates in classical and contemporary social theory *Introducing Social Theory* traces the development of social theorizing from the classical ideas about modernity of Durkheim Marx and Weber right up to a uniquely accessible review of the contemporary theoretical controversies in sociology that surround post colonialism gender and feminist theories and public sociology The ideal textbook for students of sociology at all levels from A level to undergraduates *Introducing Social Theory* is remarkably easy to follow and understand This new edition lives up to its predecessors goal that students need never be intimidated by social theory again **Ernest Gellner's Legacy and Social Theory Today** Petr Skalník, 2022-10-28 This edited volume examines the critical issues of the 21st century through the prism of Ernest Gellner's work The contributors look critically at Gellner's legacy questioning whether he remains an inspiration for today's social theorists Chapters proactively probe Gellner's thoughts on a variety of pressing topics modernity postcolonialism nationalism and more without losing sight of current debates on these issues This volume further brings these debates to life by having each chapter followed by a comment by an academic peer of the chapter author thus transforming the text into a lively and dynamic conversation *Theories of Industrial Society (RLE Social Theory)* Richard Badham, 2014-08-21 The concept of industrial society plays a dominant role in the social sciences The Great Divide between pre industrial and industrial societies is commonly assumed to be the main bridge separating modern societies from the past and distinguishing developed from undeveloped states in the present era In history economics politics and sociology the concept of industrial society underlies a wide variety of discussions particularly those relating to economic development and social progress Outside academic writing too the concept exerts a great deal of influence In the developing world there is a widespread concern to industrialise whilst in the developed world there is growing uneasiness as to whether industrialisation is beneficial or not but still the concept is central This book examines critically the concept of industrial society its pervasiveness and influence It reviews all the major theories of industrial society and the research into the changing character of post industrial societies It argues that the decision to use the concept severely restricts the social imagination and that the concept becomes increasingly less useful as criticism of the equating of industrialisation with social progress grows *The Age of Ideology* John Schwarzmantel, 1998-03 Assesses the major ideologies of modern times including liberalism socialism and conservatism and traces their relationships with one another with the ambiguous ideology of nationalism and to the emergence of modern societies democratic politics and Enlightenment

ideas Overviews key themes **The Rush to Policy** Peter William House, Roger Don Shull, Rush to Policy explores the appropriate role of technical analysis in policy formulation The authors ask when and how the use of sophisticated analytic techniques in decision making benefits the nation They argue that these techniques are too often used in situations where they may not be needed or understood by the decision maker where they may not be to answer the questions raised but are nonetheless required by law House and Shull provide an excellent empirical base for describing the impact of politics on policies policy analysis and policy analysts They examine cost benefit analysis risk analysis and decision analysis and assess their ability to substitute for the current decision making process in the public sector They examine the political basis of public sector decision making how individuals and organizations make decisions and the ways decisions are made in the federal sector Also they discuss the mandate to use these methods in the policy formulation process The book is written by two practicing federal policy analysts who in a decade of service as policy researchers developed sophisticated quantitative analytic and decision making techniques They then spent several years trying to use them in the real world Success and failures are described in illuminating detail providing insight not commonly found in such critiques The authors delineate the interaction of politics and technical issues Their book describes policy analysis as it is not how it ought to be Peter W House is the director of policy research and analysis at the National Science Foundation He is the author of ten books on multidisciplinary science and technology policy research and analyses in government private and university sectors including *The Art of Public Policy Analysis* and with Roger D Shull *Regulatory Reform Politics and the Environment and Regulations and Science Management of Research on Demand* Roger D Shull is a senior analyst at the Division of Policy Research and Analysis National Science Foundation **Policymaking Under Adversity** Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror's *Public Policymaking Reexamined* by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners *Faces of Nationalism* Tom Nairn, 1997 In *The Modern Janus* Nairn argued for the democratic necessity of nationalism in the modern world In this work

he addresses the subsequent upheavals caused by nationalism

Imagining the University Ronald Barnett, 2013-01-17
 Around the world what it is to be a university is a matter of much debate The range of ideas of the university in public circulation is however exceedingly narrow and is dominated by the idea of the entrepreneurial university As a consequence the debate is hopelessly impoverished Lurking in the literature there is a broad and even imaginative array of ideas of the university but those ideas are seldom heard We need consequently not just more ideas of the university but better ideas Imagining the University forensically examines this situation critically interrogating many of the current ideas of the university Imagining the University argues for imaginative ideas that are critical sensitive to the deep structures underlying universities and are yet optimistic in short feasible utopias of the university The case is pressed for one such idea that of the ecological university The book concludes by offering a vision of the imagining university a university that has the capacity continually to re imagine itself

Irony in Action James Fernandez, Mary Taylor Huber, 2001-06-20
 Irony today extends beyond its classification as a figure of speech and is increasingly recognized as one of the major modes of human experience This idea of irony as an integral force in social life is at the center of this provocative book The result of a meeting where anthropologists were invited to explore the politics of irony and the moral responsibilities that accompany its recognition this book is one of the first to lend an anthropological perspective to this contemporary phenomenon The first group of essays explores the limits to irony s liberating qualities from the constrained use of irony in congressional hearings to its reactive presence amid widening disparities of wealth despite decades of world development The second section presents irony s more positive dimensions through an array of examples such as the use of irony by Chinese writers and Irish humorists Framed by the editors theoretical introduction to the issues posed by irony and responses to the essays by two literary scholars Irony in Action is a timely contribution in the contemporary reinvention of anthropology

The New Left, National Identity, and the Break-up of Britain Wade Matthews, 2013-08-08
 In *The New Left National Identity and the Break Up of Britain* Wade Matthews charts the nexus between socialism and national identity in the work of key New Left intellectuals E P Thompson Raymond Williams Stuart Hall Perry Anderson and Tom Nairn Matthews considers these New Left thinkers response to Britain s various national questions including decolonization and the End of Empire the rise of European integration and separatist

nationalisms in Scotland and Wales and to the national and nationalist implications of Thatcherism Cold War and the fall of communism Matthews establishes a contestatory dialogue around these issues throughout the book based around different New Left perspectives on what has been called the break up of Britain He demonstrates that national questions were crucial to New Left debates

The Riddle of the Modern World A. Macfarlane, 2000-07-11 What conditions the chances of liberty wealth and equality at the start of the third Christian millennium Why did human civilizations develop so slowly for thousands of years and then transform themselves during the last three hundred This study of four great thinkers who lived between 1689 and 1995 Montesquieu Adam Smith De Tocqueville and Ernest Gellner weaves their lives and works together and through their own words shows how they approached the question of the nature of man his past and his future *Imagined Civilizations* Roger Preston Hart, 2013-08-15 While the Jesuits claimed Xu as a convert he presented the Jesuits as men from afar who had traveled from the West to China to serve the emperor

Extreme Politics Charles King, 2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule *Extreme Politics* engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism *Extreme Politics* charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world

The Oxford Handbook of Metaphysics Michael J. Loux, Dean W. Zimmerman, 2005-09-08 Some of the world's specialists provide in this handbook essays about what kinds of things there are in what ways they exist and how they relate to each other They give the word on such topics as identity modality time causation persons and minds freedom and vagueness

Civilization and the Making of the State in Lebanon and Syria Andrew Delatolla, 2021-02-01 This book argues that the modern state from the nineteenth century to the contemporary period has consistently been used as a means to measure civilizational engagement and attainment This volume historicizes this dynamic examining how it impacted state making in Lebanon and Syria By putting social political and economic pressure on the Ottoman Empire to replicate the modern state in Europe the book examines processes of racialization nationalist development continued imperial expansion and resistance that became embedded in the state as it was assembled By historicizing post imperial and post colonial state formation in Lebanon and Syria it is possible to engage in a conceptual separation from the modern state abandoning the ongoing reproduction of the state as a standard

or benchmark of civilization and progress *The Debated Mind* Harvey Whitehouse, 2020-08-12 In a further development of the nature nurture debate this collection of articles questions how the human mind influences the content and organization of culture In the study of mental activity can the effects of evolution and history be teased apart Evolutionary psychologists argue that cultural transmission is constrained by our genetic inheritance Few social and cultural anthropologists have found this argument to be relevant to their work and many would doubt its validity This book uniquely pitches the arguments for innatism against ethnographic perspectives that call into question the theoretical foundations of orthodox evolutionary biology and cognitive science Ultimately the aim of the debate is to create an original set of mutually compatible theories that will open up new areas for interdisciplinary research **Ideology and Practice in Modern Japan** Roger Goodman, Kirsten Refsing, 2002-09-11 The issue of how Japanese society operates and in particular why it has succeeded has generated a wide variety of explanatory models including the Confucian ethic classlessness group consciousness and uniqueness in areas as diverse as body images and language patterns In *Ideology and Practice in Modern Japan* the contributors examine these models and the ways in which they have sometimes been used to create a sense of Japaneseness that obscures the fact that Japan is actually an extremely complex and heterogeneous society In particular practice at the micro level of society is explored to illuminate or express a broader ideology The contributors investigate a wide variety of subjects from attitudes to death to the role of education from film making to gender segregation to see what can be said about the phenomenon in particular what it tells us about Japan in general and what conclusions can be drawn for our understanding of society in the broadest sense
