The Spectacular Past Maurice Samuels, 2004 Introduction Showing the past Spectacular histories Napoleon takes the stage Scott comes to France Balzac's spectacular revolution Stendhal's historical role Conclusion **The Spectacular Past**

Maurice Samuels, 2004 Introduction Showing the past Spectacular histories Napoleon takes the stage Scott comes to France Balzac's spectacular revolution Stendhal's historical role Conclusion **Fictions of the Press in Nineteenth-Century**

France Edmund Birch, 2018-05-04 This book explores how writers responded to the rise of the newspaper over the course of the nineteenth century Taking as its subject the ceaseless intertwining of fiction and journalism at this time it tracks the representation of newspapers and journalists in works by Honoré de Balzac Edmond and Jules de Goncourt and Guy de Maupassant This was an era in which novels were published in newspapers and novelists worked as journalists In France fiction was to prove an utterly crucial presence at the newspaper's heart with a gilded array of predominant literary figures active in journalism Today few in search of a novel would turn to the pages of a daily newspaper But what are usually cast as discrete realms fiction and journalism came in the nineteenth century to occupy the same space a point which complicates our sense of the cultural history of French literature **Panoramas and Compilations in Nineteenth-Century Britain**

Helen Kingstone, 2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de siècle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon but which also does not chastise us for trying to see the big picture This book is essential reading for students and scholars of nineteenth century literature history visual culture and information studies *The Nineteenth-Century Novel and the*

Pre-Cinematic Imagination Alberto Gabriele, 2024-11-14 This book fills a gap in existing scholarship on the history of the novel in relation to visual culture by discussing the visual fascination that novelists such as Nathaniel Hawthorne Herman Melville Honoré de Balzac and George Eliot show for several types of pre cinematic spectacle It also identifies a so far neglected aspect of novel theory that nineteenth century authors elaborated by incorporating suggestions from pre cinematic visual spectacles By shedding light on forms of visuality that were not entertained by the dominant aesthetic modes of painting and photography *The Nineteenth Century Novel and the Pre Cinematic Imagination* argues that the presence of

nineteenth century pre cinematic optical illusions in works of fiction redefines the notion of mimesis as animated movement and points to a continuity between pre cinema the literary imagination and the structures of knowledge production of the modern episteme *Crusading in the Long Nineteenth Century, 1798-1928* Adam Knobler, 2025-01-14 Engaging the Crusades is a series of concise volumes up to 50 000 words that offer initial windows into the ways in which the crusades have been used in the last two centuries demonstrating that the memory of the crusades is an important and emerging subject Together these studies suggest that the memory of the crusades in the modern period is a productive exciting and much needed area of investigation *Crusading in the Long Nineteenth Century* offers a trans cultural examination of crusade medievalism that is the use of the symbolism and rhetoric of the crusades in the popular and political discourse of the long nineteenth century Using a variety of sources from missionary accounts to children s literature this book includes an examination of crusade medievalism through the politics of a European wide audience from states which could claim some relationship to medieval crusading to those regions where crusading was not part of a national historical heritage It also examines how the Islamic world looked upon the crusades in the nineteenth and early twentieth centuries By looking at the phenomenon of crusade medievalism from a multi national perspective this volume is of interest to medievalists modernists and those interested in the crusades in general *Paris and the Cliché of History* Catherine E. Clark, 2018-07-19 This book turns a compelling new lens on thinking about the history of Paris and photography The invention of photography changed how history could be written But the now commonplace assumptions that photographs capture fragments of lost time or present emotional gateways to the past that structure today s understandings did not emerge whole cloth in 1839 Focusing on one of photography s birthplaces Paris and the Cliché of History tells the story of how photographs came to be imagined as documents of the past Author Catherine E Clark analyzes photography s effects on historical interpretation by examining the formation of Paris s first photo archives at the Musée Carnavalet and the city s municipal library their use in illustrated history books and historical exhibitions and reconstructions such as the 1951 celebration of Paris s 2000th birthday and the public s contribution to the historical record in amateur photo contests Despite the photograph s growing importance in these forums it did not simply replace older forms of illustration visual documentation or written text Photos worked in complex and shifting relation to other types of pictures as photographers popular historians and publishers built on the traditions and iconography of painting and engraving in order to both document the past scientifically and objectively and to reconstruct it romantically In doing so they not only influenced how Parisians thought about the city s past and how they pictured it they also ensured that these images shaped how Parisians lived their own lives especially in deeply charged moments such as the Liberation after World War II This history of picturing Paris does not simply reflect the city s history it is Parisian history **Napoleon** Philip Dwyer, 2018-04-19 Vibrant and illuminating Dwyer tells a fascinating tale The Times Refreshing scholarship Energetic readable and filled with colourful detail *Napoleon Passion Death and Resurrection* is a

thoroughly enjoyable book which divides well the reality of exile from the legend that sprang from it Literary Review This meticulously researched study opens with Napoleon no longer in power but instead a prisoner on the island of St Helena This may have been a great fall from power but Napoleon still held immense attraction Every day huge crowds would gather on the far shore in the hope of catching a glimpse of him Philip Dwyer closes his ambitious trilogy exploring Napoleon's life legacy and myth by moving from those first months of imprisonment through the years of exile up to death and then beyond examining how the foundations of legend that had been laid by Napoleon during his lifetime continued to be built upon by his followers This is a fitting and authoritative end to a definitive work Historicizing the French Revolution Antonino De Francesco, 2022-03-24 This book provides a critical examination of over 300 historical works about the French Revolution published in Europe in particular in France Great Britain Germany Italy and Russia as well as in the United States between 1789 and 1989 It also goes on to examine recent trends in French Revolution historiography and consider where histories of this landmark event may go in the future By emphasizing the elements which have been valued or hidden exalted or silenced *Historicizing the French Revolution* shows how reflections on 1789 are always fundamentally tied to the times in which they are formulated Antonino De Francesco looks at the ways in which these historical accounts can be seen to support and at times contrast with the formation of political modernity both in national and international contexts as it has taken shape in the hundreds of years that have followed this key moment in world history *The Visual Culture of Violence After the French Revolution* Lela Graybill, 2017-07-05 *The Visual Culture of Violence after the French Revolution* traces four sites of spectatorship that exemplified the visual culture of violence in the late eighteenth and early nineteenth centuries offering a new account of the significance of violent spectacle to the birth of modernity Considerations of the execution scaffold salon painting print culture and the *fait divers* and waxworks displays establish the centrality of spectatorial violence to experiences of selfhood in the wake of the French Revolution Shedding critical light on previously neglected aspects of art and visual culture of the post Revolutionary period *The Visual Culture of Violence after the French Revolution* demonstrates how violent spectacle at this moment was profoundly shaped by shifting social attitudes contemporary political practices and rapidly accelerated technological developments By attending to the formal and historical specificity of violent spectacle after the Revolution Graybill affirms the historical contingency through which the visual culture of violence in the modern era has emerged *The Visual Culture of Violence after the French Revolution* will be broadly relevant to scholars of art media and visual studies and particularly to historians of the French Revolution and eighteenth and early nineteenth century Europe The book's concern with the representation of violence makes it of interest to scholars working in a variety of fields beyond its historical period especially in art literature history media and culture studies By Sword and Plow Jennifer E. Sessions, 2017-03-15 In 1830 with France's colonial empire in ruins Charles X ordered his army to invade Ottoman Algiers Victory did not salvage his regime from revolution but it began the French conquest of Algeria which was continued and

consolidated by the succeeding July Monarchy In *By Sword and Plow* Jennifer E Sessions explains why France chose first to conquer Algeria and then to transform it into its only large scale settler colony Deftly reconstructing the political culture of mid nineteenth century France she also sheds light on policies whose long term consequences remain a source of social cultural and political tensions in France and its former colony In Sessions s view French expansion in North Africa was rooted in contests over sovereignty and male citizenship in the wake of the Atlantic revolutions of the eighteenth century The French monarchy embraced warfare as a means to legitimize new forms of rule incorporating the Algerian army into royal iconography and public festivals Colorful broadsides songs and plays depicted the men of the Arm e d Afrique as citizen soldiers Social reformers and colonial theorists formulated plans to settle Algeria with European emigrants The propaganda used to recruit settlers featured imagery celebrating Algeria s agricultural potential but the male emigrants who responded were primarily poor urban laborers who saw the colony as a place to exercise what they saw as their right to work Generously illustrated with examples of this imperialist iconography Sessions s work connects a wide ranging culture of empire to specific policies of colonization during a pivotal period in the genesis of modern France

The Cultures of History in Early Modern India Kumkum Chatterjee,2009-02-11 This book examines the nature and function of history writing in India by focusing on early modern traditions of historiography with particular reference to Bengal Situating distinctive cultures of history vis vis their relevant political and cultural contexts it highlights the richness variety and politically sensitive character of a range of oral and textual narratives Kumkum Chatterjee also makes a significant contribution to the intellectual and cultural history of early modern India by exploring interactions between regional vernacular cultures on the one hand and the Islamicate Persianized culture of the Mughal Empire on the other Strongly grounded in primary sources *The Cultures of History in Early Modern India* re examines the concepts of authority evidence and method in early modern historiography It also discusses the debates surrounding the culture of history writing in India

The Final Spectacle Julia Thoma,2019-03-18 The book examines military paintings in France in the 1850s and 1860s when the genre experienced a new lease of life It recreates the paintings art historical historical and social context and considers the explosion of military subjects in their own right rather than as a consequence of war reporting The paintings entertainment value effectively communicated political agendas catering to the emerging phenomenon of mass spectatorship and giving rise to innovative compositions The book also looks at the other side of the artistic spectrum proposing that smaller formats adapted the sentimental techniques of military memoirs to focus on the soldiers experiences of warfare and to elicit a critique of war

The Routledge Companion to Art and the Formation of Empire Emily C. Burns,Alice M. Rudy Price,2025-05-30 This companion comprises essays that analyze interactions between art and global imperial relationships from 1800 to World War II The essays in this volume expose and add to historical layers of meaning in their discussions of art and empire Found across much of the globe sites of sedimentary rock allegorize the dynamics of art and

empire and frame the section structure for this book Twenty two authors unpack imperial layers in a variety of global and historical contexts through case studies that center art and visual and material culture The authors show how art and aesthetics have operated as tools of empire Interpreting a comprehensive array of media as well as inter media dialogues they analyze and intervene in how we remember and examine entwinements between empire and aesthetic practices In this volume s attention to the role of art in imperial formation as well as the legacy of colonization the essays disentangle sediments of culture as they are moved and shaped by homogenizing forces of empire showing that the aesthetics of empire inflect not only individuals makers and economies but also practices of circulation and collecting The book will be of interest to graduate students researchers and professors and may be used in classes focused on art history imperialism and colonialism

The Melodramatic Thread James R. Lehning, 2007-07-09 This ambitious undertaking is concerned with the melodramatic form in theatre and film and its impact on French political culture H France Review In France both political culture and theatrical performances have drawn upon melodrama This melodramatic thread helped weave the country s political life as it moved from monarchy to democracy By examining the relationship between public ceremonies and theatrical performance James R Lehning sheds light on democratization in modern France He explores the extent to which the dramatic forms were present in the public performance of political power By concentrating on the Republic and the Revolution and on theatrical performance Lehning affirms the importance of examining the performative aspects of French political culture for understanding the political differences that have marked France in the years since 1789 In this thoroughly researched and persuasive book Lehning provides a fascinating reading of public performances in modern France This is an important contribution to the study of French culture and the democratization process Essential Choice Lehning s application of the themes of melodrama to French political culture offers new insights into French history His style is lively clear and highly readable Venita Datta Wellesley College The analyses in this book make a real contribution to debates about the ways in which art particularly popular art and politics interact how politics itself is theatrical in the French case and the role of ritual in politics and the function of politics as ritual and ceremony John Gaffney Aston University

Stealing Things Rosemary A. Peters, 2013-08-28 Stealing Things traces the representations of thieves and thievery in nineteenth century French novels Re reading canonical texts by Balzac the Comtesse de S gur and Zola through the lens of crime Peters highlights bourgeois anxiety about ownership and objects while considering the impact of literature on popular attitudes about crime and its legislation and punishment A detailed analysis of the role of objects this work chronicles nineteenth century changes in legal attitudes popular mentalities and individual and social identity focusing particularly on the resulting transformations in representations of gender class and criminal subjectivity

Watching War Jan Mieszkowski, 2012-08-22 What does it mean to be a spectator to war in an era when the boundaries between witnessing and perpetrating violence have become profoundly blurred Arguing that the contemporary dynamics of military spectatorship took shape in Napoleonic

Europe Watching War explores the status of warfare as a spectacle unfolding before a mass audience By showing that the battlefield was a virtual phenomenon long before the invention of photography film or the Internet this book proposes that the unique character of modern conflicts has been a product of imaginary as much as material forces Warfare first became total in the Napoleonic era when battles became too large and violent to be observed firsthand and could only be grasped in the imagination Thenceforth fantasies of what war was or should be proved critical for how wars were fought and experienced As war's reach came to be limited only by the creativity of the mind's eye its campaigns gave rise to expectations that could not be fulfilled As a result war's modern audiences have often found themselves bored more than enthralled by their encounters with combat Mieszkowski takes an interdisciplinary approach to this major ethical and political concern of our time bringing literary and philosophical texts into dialogue with artworks historical documents and classics of photojournalism

Making Space for the Dead Erin-Marie Legacey, 2019-04-15 The dead of Paris before the French Revolution were most often consigned to mass graveyards that contemporaries described as terrible and terrifying emitting putrid miasmas that were a threat to both health and dignity In a book that is at once wonderfully macabre and exceptionally informative Erin Marie Legacey explores how a new burial culture emerged in Paris as a result of both revolutionary fervor and public health concerns resulting in the construction of park like cemeteries on the outskirts of the city and a vast underground ossuary Making Space for the Dead describes how revolutionaries placed the dead at the center of their republican project of radical reinvention of French society and envisioned a future where graveyards would do more than safely contain human remains they would serve to educate and inspire the living Legacey unearths the unexpectedly lively process by which burial sites were reimaged built and used focusing on three of the most important of these new spaces the Paris Catacombs Père Lachaise cemetery and the short lived Museum of French Monuments By situating discussions of death and memory in the nation's broader cultural and political context as well as highlighting how ordinary Parisians understood and experienced these sites she shows how the treatment of the dead became central to the reconstruction of Parisian society after the Revolution

[The Cambridge Companion to the Literature of Paris](#) Anna-Louise Milne, 2013-08-01 No city more than Paris has had such a constant and deep association with the development of literary forms and cultural ideas The idea of the city as a space of literary self consciousness started to take hold in the sixteenth century By 1620 where this volume begins the first in a long line of extraordinary works of the human imagination in which the city represented itself to itself had begun to find form in print This collection follows that process through to the present day Beginning with the salon followed by the hybrid culture of libertinage and the revolutionary hotbeds of working class districts it explores the continuities and changes between the pre modern era and the nineteenth century when Paris asserted itself as cultural capital of Europe It goes on to explore how this vision of Paris as a key capital of modernity has shaped contemporary literature

Proust and the Arts Christie McDonald, François Proulx, 2015-11-05 Offers new perspectives on Proust's

complex and creative relation to a variety of art forms from different eras

Thank you for reading **Spectacular Past Popular History And The Novel In Nineteenth Century France**.
