Speech Communication Now! John J. Makay, Thomas C. Sawyer, 1973-01-01      *Personal and Interpersonal Communication* John J. Makay, Beverly A. Gaw, 1975      Introduction to Scholarship in Modern Languages and Literatures David G. Nicholls, 2015-01-01 The third edition of the MLA's widely used *Introduction to Scholarship in Modern Languages and Literatures* features sixteen new essays by leading scholars. Designed to highlight relations among languages and forms of discourse, the volume is organized into three sections. *Understanding Language* provides an overview of the field of linguistics with special attention to language acquisition and the social life of languages. *Forming Texts* offers tools for understanding how speakers and writers shape language; it examines scholarship in the distinct but interrelated fields of rhetoric, composition, and poetics. *Reading Literature and Culture* continues the work of the first two sections by introducing major areas of critical study. The nine essays in this section cover textual and historical scholarship, interpretation, comparative cultural and translation studies, and the interdisciplinary topics of gender, sexuality, race, and migrations among others. As in previous volumes, an epilogue examines the role of the scholar in contemporary society. Each essay discusses the significance, underlying assumptions, and limits of an important field of inquiry; traces the historical development of its subject; introduces key terms; outlines modes of research now being pursued; postulates future developments; and provides a list of suggestions for further reading. This book will interest any member of the academic community seeking a review of recent scholarship, while it provides an indispensable resource for undergraduate and graduate students of modern languages and literatures.

*An Introduction to Communication* Lynn H. Turner, Richard West, 2018-10-11 Prioritizing brevity and clarity, this textbook introduces the study of communication through examples and applications of communication in a variety of contexts. With a unique focus on diversity and the impact of culture, each chapter opens with a case study that identifies a communication challenge which the chapter addresses throughout and concludes with questions that respond to that challenge. A consistent, organized structure with numerous features including fundamental issues, questions for understanding and analysis, theoretical insight, examining a particular relevant theory, and a skill set section easily guides you through the foundations of the study of communication. Cross-referencing between chapters demonstrates the multidimensional nature of communication, and the everyday talk sections demonstrate how each topic relates to technology, the workplace, or health issues. Offering a wealth of diverse examples from students' personal, professional, and online lives, this book teaches skills allowing students from all academic backgrounds to understand communication.

**Landmark Essays on Aristotelian Rhetoric** Richard L. Enos, Lois P. Agnew, 2020-11-25 There is little doubt that Aristotle's *Rhetoric* has made a major impact on rhetoric and composition studies. This volume contains the full text of Father William Grimaldi's monograph studies

in the philosophy of Aristotle's Rhetoric The eight essays presented here are divided into three rubrics history and philosophical orientation theoretical perspectives and historical impact This collection provides teachers and students with major works on Aristotelian rhetoric that are difficult to acquire and offers readers an opportunity to become active participants in today's deliberations about the merits of Aristotelian rhetoric for contemporary teaching and research

From the moment we begin to understand the meanings of words and symbols we have used rhetoric. It is how we determine perceptions of who we are, those around us, and the social structure in which we operate. Rhetorical Theory, Second Edition, introduces a broad selection of classical and contemporary theoretical approaches to understanding and using rhetoric. Historical context reveals why rhetorical theories were created, while present-day examples demonstrate how they relate to the world in which we live. Borchers and Hundley present conceptual topics in a succinct and approachable manner. The text is organized topically rather than chronologically, so similarities and differences are easily detected in central ideas. Each chapter is enhanced by the inclusion of theorist biographies, applications of theory to practice, and Internet exercises. The Second Edition expands coverage on mediated rhetoric, feminist rhetoric, alternative rhetorical theories, including Afrocentricity and intersectionality, cultural and critical rhetoric, and postmodern implications of rhetoric.

Principles of Human Communication Linda Putnam, Richard E. Crable, 1984      Books Out-of-print, 1986      **Landmark Essays on Contemporary Rhetoric** Thomas B. Farrell, 2020-10-28 This work brings together the pivotal scholarly essays responsible for the present resurgence in rhetorical studies. Assembled by one of the most respected senior scholars in the field of rhetoric, the essays chart a course from tradition-based theory of civic rhetoric to ongoing issues of figuration, power, and gender. Together with a lucid introductory essay, these studies help to integrate the still volatile questions at the core of humanities scholarship in rhetoric. The introductory student as well as the seasoned scholar will gain familiarity and footing in this oldest and still new liberal art.

Design Discourse Victor Margolin, 1989-09-15 The editor has gathered together a body of writing in the emerging field of design studies. The contributors argue in different ways for a rethinking of design in the light of its cultural significance and its powerful position in today's society. The collection begins with a discussion of the various expressions of opposition to the modernists' purist approach toward design. Drawing on postmodernist theory and other critical strategies, the writers examine the relations among design, technology, and social organization to show how design has become a complex and multidisciplinary activity. The second section provides examples of new methods of interpreting and analysing design, ranging from rhetoric and semiotics to phenomenology, demonstrating how meaning is created visually. A final section related to design history shifts its emphasis to ideological frameworks such as capitalism and patriarchy that establish boundaries for the production and use of design.
