Moonbird Grania Davis,1986-12-01 Journey to the exotic South Sea island of Bali a magical land of dark jungles of ancient Gods and terrifying demons Madai lives on Bali and dreams of life beyond his island paradise Yet his wildest dream could not prepare him for the odyssey that lies ahead after he finds a moonstone amulet that introduces him to the spirit world

Moonbirds Michelle Levigne,2024-10-13 K reeth and her sister K rin were named for the moonbirds sister raptor birds who share parenting duties one the nurturer the other the hunter and defender Orphaned by catastrophe and adopted by the High Mistrada of the T bredi scholars they re teachers entrusted with all the gathered wisdom of the Ayanlak Their bond of sisterhood is tested when K reeth falls in love with the Wind Walker Talon The relationship is further strained when the new peace with the Colonist invaders includes a promise to send home all the children who have been rescued by and raised among the Ayanlak and K reeth is the first Her forced journey to be reunited with a family she doesn t even remember eventually takes both sisters across the continent and into the nest of political intrigue and contention that may tear their world apart on the very brink of peace and the fulfillment of ancient prophecy

Moonbird Phillip Hoose,2014-03-25 B95 can feel it a stirring in his bones and feathers It s time Today is the day he will once again cast himself into the air spiral upward into the clouds and bank into the wind He wears a black band on his lower right leg and an orange flag on his upper left bearing the laser inscription B95 Scientists call him the Moonbird because in the course of his astoundingly long lifetime this gritty four ounce marathoner has flown the distance to the moon and halfway back B95 is a robin sized shorebird a red knot of the subspecies rufa Each February he joins a flock that lifts off from Tierra del Fuego headed for breeding grounds in the Canadian Arctic nine thousand miles away Late in the summer he begins the return journey B95 can fly for days without eating or sleeping but eventually he must descend to refuel and rest However recent changes at ancient refueling stations along his migratory circuit changes caused mostly by human activity have reduced the food available and made it harder for the birds to reach And so since 1995 when B95 was first captured and banded the worldwide rufa population has collapsed by nearly 80 percent Most perish somewhere along the great hemispheric circuit but the Moonbird wings on He has been seen as recently as November 2011 which makes him nearly twenty years old Shaking their heads scientists ask themselves How can this one bird make it year after year when so many others fall National Book Award winning author Phillip Hoose takes us around the hemisphere with the world s most celebrated shorebird showing the obstacles rufa red knots face introducing a worldwide team of scientists and conservationists trying to save them and offering insights about what we can do to help shorebirds before it s too late With inspiring prose thorough research and stirring images Hoose explores the tragedy of extinction through the triumph of a single bird Moonbird is one The Washington Post s Best Kids Books of 2012 A Common Core Title
