Voodoo Histories David Aaronovitch, 2010-02-04 Meticulous in its research forensic in its reasoning robust in its argument and often hilarious in its debunking a highly entertaining rumble with the century's major conspiracy theorists and their theories John Lahr National Book Critics Circle Award winning author of Tennessee Williams From an award winning journalist a history so funny so true so scary it's bound to be called a conspiracy Our age is obsessed by the idea of conspiracy We see it everywhere from Pearl Harbor to 9 11 from the assassination of Kennedy to the death of Diana In this age of terrorism we live in the role of conspiracy is a serious one one that can fuel radical or fringe elements to violence For David Aaronovitch there came a time when he started to see a pattern among these inflammatory theories these theories used similarly murky methods with which to insinuate their claims they linked themselves to the supposed conspiracies of the past it happened then so it can happen now they carefully manipulated their evidence to hide its holes they relied on the authority of dubious academic sources Most important they elevated their believers to membership of an elite a group of people able to see beyond lies to a higher reality But why believe something

that entails stretching the bounds of probability so far In this entertaining and enlightening book he examines why people believe conspiracy theories and makes an argument for a true skepticism one based on a thorough knowledge of history and a strong dose of common sense

Which Way Are You Going? Maurice S. Rawlings, 2008-11 Which religion is yours You don't have one That's strange because in the hospital Emergency Room everyone seems to vocalize a religion of some sort want to or not The typical response to an acute injury or illness is God help me And they can't keep from saying this Each religion also seems to involve this basic question Is there a life after death And to attain this good life when you die seems to form the basic objective of most religions But how do you know that you have the right religion In this wonderful Age of Resuscitation in which we live post death experiences occur in most all faiths races and cultures In fact about twenty percent of those resuscitated from clinical death have had an after death experience so real that it turns their life upside down Not only are they willing to bet their life on this revelation but the very sequence of events are comparable something that drugs chemicals injuries and infections cannot do or duplicate For contrast let's compare the death experience for the main groups of religions for death as with life is patiently waiting for each of us to discover this answer for ourselves
