Scheuerman, 2019-10-18 Scholarly and political interest in the work of the controversial twentieth century German thinker Carl Schmitt has exploded in the 20 years since William E Scheuerman's important book was first published However Scheuerman's work remains distinctive Firstly it focuses directly on Schmitt's complex ideas about law situating his views within broader debates about the rule of law and its fate The volume shows how every facet of his political thinking was decisively shaped by his legal reflections Secondly the volume takes Schmitt's Nazi era political and

legal writings no less seriously Finally the volume offers a series of studies on figures in postwar US political thought Friedrich Hayek and Joseph Schumpeter demonstrating how Schmitt shaped their own influential theories This timely second edition underscores how and why the recent growth of interest in Schmitt has been prompted by political developments for example debates about counterterrorism and emergency government and the rise of authoritarian populism From Adam Smith to Maynard Keynes Vincent W. Bladen, 1974-12-15 In this survey of the great exponents of the classical tradition Vincent Bladen examines the thought and works of Adam Smith T R Malthus Henry Thornton David Ricardo J S Mill Karl Marx W S Jevons Alfred Marshall and John Maynard Keynes and relates their views to modern situations This is a personal introduction by one of Canada's senior economists to some of the great books in the English literature of political economy Vincent Bladen wrote it to induce an interest in and an understanding of the economic classics in the belief that contemplation of those works will increase our understanding of current economic writing and current economic problems For the purpose of discussing the development of wealth the major concern of economists Bladen defines four periods within the classical tradition and demonstrates that in each there appeared a characteristic preoccupation with a particular area of economics From Adam Smith to John Stuart Mill the principal concern was productivity and growth the neoclassical economists represented by Jevons and Marshall emphasized the problems of allocation of given productive resources depressions in the twenties and thirties and the impact of Keynesian theory led to a preoccupation with employment and after World War II attention shifted to growth Bladen is critical of previous histories of economic thought by isolating the treatment of one element in a complex and integrated system of thought they frequently misrepresent each author's treatment of the particular element In this work he attempts to show each aspect of the work of the economists he has selected in the context of an integrated whole *Economics for the Twenty-first Century: The Economics of the Economist*-fox Andrew M. Kamarck, 2017-09-08 This title was first published in 2001 To be effective economics must take into consideration the complex nature of human beings and the contextual institutional social and historical factors at play This text is designed to help economists to be economic foxes by increasing the range of economists' tools drawing on the knowledge and experience of other disciplines to cope better with the extraordinary complexity of the modern economy The objective is to provide the same kind of revelation in understanding an economy that an artist possesses in the visual arts A beginner looking at a still life sees a green bottle a red apple and a yellow cloth on a table top An artist however can point out to him all the nuances of colour Following a rapid dissection of the canonical hypotheses of contemporary economic theory different sectors of the real economy are explored the corporation corporate governance services the public sector civil society professions social capital national cultures and the tropics **Piero Sraffa, Unorthodox Economist (1898-1983)** Jean-Pierre Potier, 2005-06-23 Piero Sraffa's work has had a lasting impact on economic theory and yet we know surprisingly little about the man behind it This is the first intellectual biography of Sraffa and it details his working
