Lachlan Mackenzie, Hella Olbertz, 2013-09-06 This book provides ten case studies in Functional Discourse Grammar FDG a typologically oriented theory of the organization of natural languages that has risen to prominence in recent years The authors all committed practitioners of FDG include Kees Hengeveld the intellectual father of the theory who shows how it offers a radically new approach to constituent ordering Other themes covered are evidentiality modality adpositions verb morphology possession raising sequence of tenses semi fixed constructions and prelinguistic conceptualization The volume contains an introduction that explains the rudiments of FDG and summarizes the ten remaining chapters The Casebook moves on from Hengeveld Mackenzie s 2008 Functional Discourse Grammar to show how the theory is applied to linguistic problems new and old The languages treated are Blackfoot Dutch English Spanish Welsh indigenous languages of Brazil and many others Romance Linguistics 2009 Sonia Colina, Antxon Olarrea, Ana Maria Carvalho, 2010-01-01 The thirty ninth annual Linguistic Symposium on Romance Languages LSRL was held for the first time at the University of Arizona 27 29 March 2009 The by now traditional parasession was devoted to Variation and Change in Romance

many other topics **The Perfect Volume** Kristin Melum Eide, Marc Fryd, 2021-07-15 Drawing on the data and history from a wide range of languages from Atayal to Zapotec this volume brings together leading scholars in the field of tense and aspect research resulting in 18 contributions on the perfect and some of its close relatives e.g. iamitives Different approaches complement each other to shed light on the source emergence grammaticalization and the typological extension of perfect constructions cross linguistically One focal point is the so called aoristic drift where the perfect comes to resemble the simple past or aorist often via the hodiernal today reading The semantics and pragmatics of perfects are also investigated through their interaction with other categories e.g. negation mood Over time some perfects undergo auxiliary doubling or omission or the auxiliary becomes subject to selection These facts also receive special attention in this book presenting new insights on perfects in both well studied as well as very understudied languages **Auxiliary Selection in Spanish** Malte Rosemeyer, 2014-04-15 Although usage based linguistics emphasises the need for studies of language change to take frequency effects into account there is a lack of research that tries to systematically model frequency effects and their relation to diffusion processes in language change This monograph offers a diachronic study of the change in Spanish perfect auxiliary selection between Old and Early Modern Spanish that led to the gradual replacement of the auxiliary *ser* be with the auxiliary *haber* have It analyses this process in terms of the interaction between gradience gradualness and the conserving effects of frequency and persistence in language change The study contributes to the theory and methodology of diachronic linguistics additionally offering insights on how to explain synchronic grammatical variation both within a language and between languages The book is of interest to the fields of Spanish and Romance linguistics syntax as well as historical and variationist linguistics The Spanish Perfects L. Howe, 2013-02-27 This book considers the role of cross dialectal data in our understanding of linguistic variability focusing on the widely discussed dichotomy between past tense forms and relying primarily on spoken language data from different varieties of Spanish *Continuity and Variation in Germanic and Romance* Sam Wolfe, Christine Meklenborg, 2021-05-20 This volume offers a range of synchronic and diachronic case studies in comparative Germanic and Romance morphosyntax These two language families spoken by over a billion people today have played a central role in linguistic research but many significant questions remain about the relationship between them Following an introduction that sets out the methodological empirical and theoretical background to the book the volume is divided into three parts that deal with the morphosyntax of subjects and the inflectional layer inversion discourse pragmatics and the left periphery and continuity and variation beyond the clause The contributors adopt a diverse range of approaches making use of the latest digitized corpora and presenting a mixture of well known and understudied data from standard and non standard Germanic and Romance languages Many of the chapters challenge received wisdom about the relationship between these two important language families The volume will be an indispensable resource for researchers and students in the fields of Germanic and Romance linguistics historical and comparative linguistics and

morphosyntax *Sound, Syntax and Contact in the Languages of Asturias* Guillermo Lorenzo, 2022-03-01 This is the first generative oriented volume ever published about Asturian and Asturian Galician two Romance languages which along with their intrinsic interest are crucial to understand the parametric distance between Spanish and Galician Portuguese Its chapters offer new insights about old puzzles like pronominal enclisis or apparent violations of bans on clitic combinatorics but they also deal with less explored grounds like aspect negation or prosody Chapters make special emphasis on how the concerned issues result from complex interactions between syntax proper and its interfaces with sound and meaning The book focuses on particular aspects of Asturian and Asturian Galician as well as on some effects of their contact with Spanish in their corresponding locations **Linguistic Change in French** Rebecca Posner, 1997 What is French and how has it changed over time Can we distinguish language history from historical linguistics and language change from linguistic change These questions are explored using copious material from the history of the French language concentrating on changes in the relatively modern period in particular Posner explains how change comes about and how changes at different levels of language interact and the role of sociological and ideological factors is set against the internal mechanisms that trigger change This work makes a substantial contribution to the theory of linguistic change as well as to discussion of the relationship between language and history in French speaking areas including Canada and French Creole speaking countries
