

Key Term for your Glossary

- Anaphora

is the repetition of a certain word or phrase at the beginning of successive lines of writing

Find and label this technique in the third stanza.
What effect does this have?

Finished? Find the example of anaphora in the second stanza. Then discuss its effects.

Anaphora appeals to the feelings or pathos of your audience. By repeating a word or phrase, your readers or listeners start to anticipate the next line. Because they know what's coming next, they are more receptive to the emotional resonance you are trying to get across.

You can evoke any number of feelings when using anaphora, including but not limited to anger, fear, solidarity, or even nostalgia.
