Rubin, 1971      **The Psychoanalytic Study of Society, V. 10** Werner Muensterberger, L. Bryce Boyer, 2020-02-10 First published in 1983 Volume 10 of the Psychoanalytic Study of Society papers with essays on anthropology religion history literature and music      Gateway to Equality Keona K. Ervin, 2017-07-28 Like most of the nation during the 1930s St Louis Missouri was caught in the stifling grip of the Great Depression For the next thirty years the Gateway City continued to experience significant urban decline as its population swelled and the area s industries stagnated Over these decades many African American citizens in the region found themselves struggling financially and fighting for access to profitable jobs and suitable working conditions To combat ingrained racism crippling levels of poverty and sub standard living conditions black women worked together to form a community based culture of resistance fighting for employment a living wage dignity representation and political leadership Gateway to Equality investigates black working class women s struggle for economic justice from the rise of New Deal liberalism in the 1930s to the social upheavals of the 1960s Author Keona K Ervin explains that the conditions in twentieth century St Louis were uniquely conducive to the rise of this movement since the city s economy was based on light industries that employed women such as textiles and food processing As part of the Great Migration black women migrated to the city at a higher rate than their male counterparts and labor and black freedom movements relied less on a charismatic male leadership model This made it possible for women to emerge as visible and influential leaders in both formal and informal capacities In this impressive study Ervin presents a stunning account of the ways in which black working class women creatively fused racial and economic justice By illustrating that their politics played an important role in defining urban political agendas her work sheds light on an unexplored aspect of community activism and illuminates the complexities of the overlapping civil rights and labor movements during the first half of the twentieth century      The Department of State Bulletin , 1981 The official monthly record of United States foreign policy      The Making of Three Russian Revolutionaries Ziva Galili y Garcia, Richard Wortman, 1987 This book presents the life histories of three prominent survivors of the Menshevik party Lydia Dan Boris Nicolaevsky and George Denike      *Investigation of the Department of the Interior and of the Bureau of Forestry* United States. the table and has been ignored until now These professionals wanted power to be allowed a voice in the educational agenda Through these oral histories Golin examines the hopes of the teachers as they picketed risking arrest and imprisonment Why did they strike How did the union represent them How did their action and incarceration change them Did they continue to teach in impoverished schools Golin also discusses the tensions arising during that period These include differences in attitudes toward unions among black Jewish and Italian teachers different organizing strategies of men and women and conflict between teachers professional and working class identities The first part of the book sets the stage by exploring the experience of teachers in Newark from World War II to the 1970 strike After covering both strikes Golin brings the story up to 1995 in the epilogue which traces the connection between educational reform and union democracy Teacher Power enhances our understanding of what has worked and what hasn't worked in attempts at reforming urban schools Equally importantly the teachers vivid words and the author's perceptive analysis enables us to view the struggles of not just Newark but the entire United States during a turbulent time
