Sled Driver Brian Shul,1992 **Hexult** Perry Aylen,2011-05-17 The Earth is in another ice age and civilisation is restarting in a future so distant that the only traces left of our time are a few precious shards of glass When the seas rose and the earth froze much knowledge was lost Life on Hexult is about to change with the arrival of the new young wizards and their strong magic the new magic they call science Sail with Aulf across the ice through the frozen breath of the deadly Vajra crevasse and between the quarrelling isles of Hexult Maximum Ice Kay Kenyon,2008-12-10 Zoya Kundara has lived on the space vessel Star Road for two hundred fifty years As its Ship Mother kept alive in a state of pseudoimmortality she has provided wisdom and counsel to succeeding generations of its crew self exiled survivors of earth s great plague But now to escape the ravages of space radiation the giant starship has returned to earth only to discover a world on the verge of extinction its barren surface blanketed in a crystalline substance that resembles ice and that is slowly inexorably encapsulating the planet Zoya is chosen as emissary to this strange new earth and now she must approach its denizens and find a suitable home for her desperate crew among the shrinking lands But what she finds shakes Zoya to her core groups of humans huddled like moles in underground techno warrens called preserves and a pseudospiritual order known as the Ice Nuns who seek control of the physics defying crystals and enslave their disciples in their crazed quest for truth For on this once green land Ice and the science behind it are now the only God and mastering this grand ecology of information the only higher calling Allies are few and far between but somehow Zoya must uncover the secrets of Ice and halt its expansion That is if the snow witches don t get her first Deadly Cold Jed O'Dea,2014-10-29 The earths average temperature suddenly dropped 20 degrees Staying warm became critical so why would some organization want to destroy our ability to stay warm Literally millions of people will freeze to death unless Tucker and Maya uncover the mystery in time We the people of this planet Earth were unprepared We had no defense against the confluence of events that transpired We were vulnerable to natural events and a psychopath who took advantage of our vulnerabilities A year of evilness damn near killed us all

Banta,2000 Have you ever wondered as you drove across this great country of ours who were those guys who wrested this continent from primeval forests the raging and untamed rivers the desolate and seeming unconquerable deserts In short a threatening inhospitable and uncivilized land unexplored with untold terrors awaiting those foolish enough to take that next step into that vast wilderness Who were those courageous fearless frontiersmen who never hesitated to take that next step This historical novel seamlessly follows a family the Bantas through twelve generations nine of which lived their lives as frontiersmen on the edge of civilization on the North American continent It is based on historic facts and human figures which the author through deductive analysis brought to life Names places and dates in this narrative are as historically accurate as the author s knowledge and sources permit Most quotations other than those that are indented are imaginary From the progenitor of the Banta family name Epke Jacobs who arrived in Vlissingen New Amsterdam New Netherland in 1659 through Theodore Parker Banta T P of the eighth generation on this continent there was a constant movement by each following generation to the frontier s edge They were always pushing the edge of the envelope in its odyssey of two hundred and forty one years across a new continent from Flushing on the Atlantic coast to the Imperial Valley fifty miles from the Pacific Ocean Part I of this book follows the first seven generations It begins telling Epke

Jacobse's story of his and his family's migration in 1659 from Minertsga on the dike protected lowlands of the Rhine River's delta in Friesland the northern province of Holland and continues with his arrival into the Dutch colony of New Netherland to operate an inn on Long Island. It concludes with seventh generation Frederick Banta's migration to Hanging Grove Township near Rensselaer, Indiana where he bought land from the United States government and carved a farm from hillocks in its swampy land. During these seven generations each following generation reached out and settled the continent's newest frontier. The eighth generation along with his wife and sons were the last of these generations of frontiersmen. His story part II of this book is the story of the conquering of the last frontier in the contiguous United States of America. His frontier was the delta of the Colorado River named the Colorado Desert the most God forsaken and dead world imaginable. He and his wife Carrie along with their three sons were the fourth family to settle in the desert under its new name the Imperial Valley. Who in their wildest dreams could foresee that this desolation could be made to bloom through irrigation water from the Colorado River in an abundance of luxurious green which caused it to become the vegetable garden of the nation. Starting one hundred and seventeen years before the American Revolution this book tells a continuous story in human terms of the building of our great nation the United States of America. This historical novel takes you from the delta of the Europe's great Rhine River where dikes held back the North Sea from flooding the lands to the delta of North America's great Colorado River consisting of nothing but a sandy desert crossing the Gulf of California. It does this by following one line of one family that never left the frontier for over 242 years. Official Gazette of the United States Patent and Trademark Office, 2002
