The Tāmpitāvihras of Sri Lanka Kapila D. Silva, Dhammika P. Chandrasekara, 2021-07-06 The mpi avih ras of Sri Lanka focuses on one distinctive Buddhist architectural practice from pre modern Sri Lanka the construction of Buddha image houses on elevated wooden platforms supported by stone pillars As a centre of Buddhism Sri Lanka has a rich tradition of erecting Buddha image houses the origin of which dates to the fifth century Yet the mpi avih ra tradition only existed from the thirteenth to the nineteenth centuries The mpi avih ra is an exceptional type of image house not only for its specific timeframe and unique construction technology but also for its complex architectural conception of the Buddhist worldview and soteriology Except for this period of Sri Lankan history this architectural exemplar does not exist in anytime or anywhere in the entire Buddhist world This book examines the significant aspects of mpi avih ra architecture and documents some of the distinctive examples with an analysis of their architectural design and symbolic content Richly illustrated with photographs and drawings the book is organized into two parts The first part examines the significant historical cultural and architectural aspects of mpi avih ras in depth The second part documents fifty of the distinctive examples of mpi avih ras in the country with an analysis of their architectural designs and symbolic content Each example is illustrated with architectural drawings of its plans elevations and sections along with

photographs The book also includes a list of over 200 extant stupas in the country This book is the very first comprehensive examination of the subject of stupas published in any language and made available for a global audience It narrates the story of stupas from a multidimensional perspective that involves architecture anthropology archaeology art history geography history sociology and theology Consequently it appeals to a vast array of enthusiasts of these disciplines in addition to scholars in Asian studies South Asian studies Sri Lankan studies and Buddhist studies **Sri Lanka at the Crossroads of History** Zoltán Biedermann, Alan Strathern, 2017-06-07 The peoples of Sri Lanka have participated in far flung trading networks religious formations and Asian and European empires for millennia This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a crossroads a place defined by its openness to movement across the Indian Ocean Experts in the history archaeology literature and art of the island from c 500 BCE to c 1850 CE use Lankan material to explore a number of pressing scholarly debates They address these matters from their varied disciplinary perspectives and diverse array of sources critically assessing concepts such as ethnicity cosmopolitanism and localisation and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time The individual chapters and the volume as a whole are a welcome addition to the history and historiography of Sri Lanka as well as studies of the Indian Ocean region kingship colonialism imperialism and early modernity *Sri Lankan Monastic Architecture* H. T. Basnayake, 1986 **Sri Lanka--Ethnic Fratricide and the Dismantling of Democracy** Stanley Jeyaraja Tambiah, 1986 Focusing on the historical events of post independence Sri Lanka S J Tambiah analyzes the causes of the violent conflict between the majority Sinhalese Buddhists and the minority Tamils He demonstrates that the crisis is primarily a result of recent societal stresses educational expansions linguistic policy unemployment uneven income distribution population movements contemporary uses of the past as religious and national ideology and trends toward authoritarianism rather than age old racial and religious differences In this concise informative lucidly written book scrupulously documented and well indexed Tambiah trains his dispassionate anthropologist's eye on the tangled roots of an urgent present day problem in the passionate hope that enlightenment understanding and a generous spirit of compromise may yet be able to prevail Merle Rubin *Christian Science Monitor* An incredibly rich and balanced analysis of the crisis It is exemplary in highlighting the general complexities of ethnic crises in long lived societies carrying a burden of historical memories Amita Shastri *Journal of Asian Studies* Tambiah makes an eloquent case for pluralist democracy in a country abundantly endowed with excuses to abandon such an approach to politics Donald L Horowitz *New Republic* An excellent and thought provoking book for anyone who cares about Sri Lanka Paul Sieghart *Los Angeles Times Book Review* **The Archaeology of Buddhism in the Maldives** Egil Mikkelsen, 2025-05-29 Part of a Buddhist monastery dating to A D 200 1500 was excavated between 1996 and 1998 on the island of Kaashidhoo in the Maldives uncovering extensive ruins and human graves This book compares the findings with those from monasteries

elsewhere in Asia investigating the spread of cowrie shells Chinese stoneware and South Asian earthenware It documents all known Buddhist sites sculptures and artefacts in the Maldives presenting new evidence of Buddhist life religious behaviour funerary practice faunal history and trading networks The book offers a fresh interpretation of the conversion from Buddhism to Islam in the Maldives

The Sigiriya Royal Gardens Nilan Cooray, 2012-10-19 Besides the efforts that are of a descriptive and celebrative nature studies related to Sri Lanka's historical built heritage largely view material remains in historical sociological socio historical and semiological perspectives There is hardly any serious attempt to view such material remains from a technical analytical approach to understand the compositional aspects of their design The 5th century AC royal complex at Sigiriya is no exception in this regard The enormous wealth of information and the material remains unearthed during more than 100 years of field based research by several generations of archaeologists provide an ideal opportunity for such analysis The Sigiriya Royal Gardens fills the gap in research related to Sri Lanka's historical built heritage in general and to Sigiriya in particular Therefore the present research attempts to read Sigiriya as a landscape architectonic design to expose its architectonic composition and design instruments

The Oxford History of the British Empire: Historiography Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries

The Oxford History of the British Empire: Volume V: Historiography Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

Archaeology and World Religion Timothy Insoll, 2002-09-11 Archaeology and World Religion is an important new work being the first to examine these two vast topics together The volume explores the relationship between and the contribution archaeology can make to the study of World Religions The contributors consider a number of questions can religious sacred texts be treated as historical documents or do they merit special treatment Does archaeology with its emphasis on material culture dispel notions of the ideal divine Does the study of archaeology and religion lead to differing interpretations of the same event In what ways does the notion of a uniform religious identity exist and is this recognisable in the archaeological record Clearly written and up to date this volume will be an indispensable research tool for academics and specialists in these fields

[Architecture and Identity](#) Peter Herrle, Erik Wegerhoff, 2008 This book brings together complex fields of knowledge and globally splintered discourses on a subject that is experienced not only by scholars but in the everyday lives of people around the world There is a common complaint about the loss of identity which to a substantial degree is being associated with the built environment in cities and specifically with their architecture Architecture and Identity takes a global multidisciplinary look on how identities in

contemporary architecture are constructed The general hypothesis underlying this book is that in a globalized world identity in architecture cannot be easily derived from distinct indigenous patterns The book presents forty contributions from various disciplines aiming to destroy the myth of an inheritable or otherwise prefabricated identity Some authors dismantle constructs of identity that have long been considered as solid and unbreakable while others meticulously unravel the construction process of identities in

Anjalendran David Robson, 2014-01-21 This beautifully illustrated book showcases the works of one of Sri Lanka's most influential architects Anjalendran an ethnic Tamil and visionary artist During the past 25 years of civil war in Sri Lanka Anjalendran has stayed on creating architecture that has attracted interest across the entire Indian subcontinent In Anjalendran David Robson explores this unique man and his uncommon vision Anjalendran's buildings have a simple directness and although totally modern in spirit they acknowledge the rich design traditions of Sri Lanka Whether working with ample budgets or at rock bottom cost like his SOS Children's Village orphanages his work focuses not only on creative buildings but a la Frank Lloyd Wright also their landscaping furniture and decoration Just as interesting as the architecture is the process by which Anjalendran works from home never employing more than four student assistants with no office no secretary no car and no cell phone He operates without a bank account and has never signed a contract with either a client or a builder With stunning color photographs plan details and behind the scenes insights Anjalendran sheds light on the works of this exceptional man

A Time of Change: Questioning the "Collapse" of Anuradhapura, Sri Lanka Keir Magalie Strickland, 2017-06-30 This book reassesses the apparent collapse of Anuradhapura Sri Lanka through explicit reference to the archaeological record rather than focusing solely upon textual sources which have been overly relied upon in previous studies

The Theory of Citrasutras in Indian Painting Isabella Nardi, 2007-01-24 The study of technical treatises in Indian art has increasingly attracted much interest This work puts forward a critical re-examination of the key Indian concepts of painting described in the Sanskrit treatises called citrasutras In an in-depth and systematic analysis of the texts on the theory of Indian painting it critically examines the different ways in which the texts have been interpreted and used in the study of Indian painting and suggests a new approach to reading and understanding their concepts Contrary to previous publications on the subject it is argued that the intended use of such texts as a standard of critique largely failed due to a fundamental misconceptualization of the significance of text for Indian painters Isabella Nardi offers an original approach to research in this field by drawing on the experiences of painters who are considered as a valid source of knowledge for our understanding of the citrasutras and provides a new conceptual framework for understanding the interlinkages between textual sources and the practice of Indian painting Filling a significant gap in Indian scholarship Nardi's study will appeal to those studying Indian painting and Indian art in general
