St Augustine Against The Academics:

Against the Academics Saint Augustine, 2019-06-25 A fresh new translation of Augustine's inaugural work as a Christian convert. The first four works written by St Augustine of Hippo after his conversion to Christianity are the remarkable Cassiciacum dialogues. In this first dialogue expertly translated by Michael Foley, Augustine and his interlocutors explore the history and teachings of Academic skepticism which Augustine is both sympathetic to and critical of. The dialogue serves as a fitting launching point for a knowledge of God and the soul, the overall subject of the Cassiciacum tetralogy.

Against the Academicians and The Teacher Augustine, 1995-09-15 These new translations of two treatises dealing with the possibility and nature of knowledge in the face of skeptical challenges are the first to be rendered from the Latin critical edition, the first to be made specifically with a philosophical audience in mind, and the first to be translated by a scholar with expertise in both modern epistemology and philosophy of language.

Augustine and Academic Skepticism Blake D. Dutton, 2016-02-25 Among the most important but frequently neglected figures in the history of debates over skepticism is Augustine of Hippo 354-430 CE. His early dialogue *Against the Academics* together with substantial material from his other writings constitutes a sustained

attempt to respond to the tradition of skepticism with which he was familiar This was the tradition of Academic skepticism which had its home in Plato's Academy and was transmitted to the Roman world through the writings of Cicero 106-43 BCE Augustine and Academic Skepticism is the first comprehensive treatment of Augustine's critique of Academic skepticism In clear and accessible prose Blake D Dutton presents that critique as a serious work of philosophy and engages with it precisely as such While Dutton provides an extensive review of Academic skepticism and Augustine's encounter with it his primary concern is to articulate and evaluate Augustine's strategy to discredit Academic skepticism as a philosophical practice and vindicate the possibility of knowledge against the Academic denial of that possibility In doing so he sheds considerable light on Augustine's views on philosophical inquiry and the acquisition of knowledge **Ancient Christian**

Mark J Boone, 2017-08-31 The first fruits of the literary career of St Augustine the great theologian and Christian philosopher par excellence are the dialogues he wrote at Cassiciacum in Italy following his famous conversion in Milan in AD 386 These four little books largely neglected by scholars take up the ancient philosophical project of identifying the principles and practices that heal human desires in order to attain happiness renewing this philosophical endeavour with insights from Christian theology Augustine's later books such as the Confessions would continue this project of healing desire as would the writings of others including Boethius Anselm and Aquinas Mark J Boone's *The Conversion and Therapy of Desire* investigates the roots of this project at Cassiciacum where Augustine is developing a Christian theology of desire informed by
