Austin Fagothey,2000-02-15 Ethics both in theory and practice Phrased in non technical language Right and Reason is a thoroughly competent book in the philosophy of Ethics which gives the science of morality from the Aristotelian Thomistic common sense school of thought which is none other than the Perennial Philosophy of the Ages the philosophy outside of which one s positions quickly become absurd and all reasoning ends up in dead ends Impr **Reason, Religion, and Natural Law** Jonathan A. Jacobs,2012-10-19 This edited volume examines the realizations between theological considerations and natural law theorizing from Plato to Spinoza Theological considerations have long had a pronounced role in Catholic natural law theories but have not been as thoroughly examined from a wider perspective The contributors to this volume take a more inclusive view of the relation between conceptions of natural law and theistic claims and principles They

do not jointly defend one particular thematic claim but articulate diverse ways in which natural law has both been understood and related to theistic claims. In addition to exploring Plato and the Stoics, the volume also looks at medieval Jewish thought, the thought of Aquinas, Scotus, and Ockham, and the ways in which Spinoza's thought includes resonances of earlier views and intimations of later developments. Taken as a whole, these essays enlarge the scope of the discussion of natural law through study of how the naturalness of natural law has often been related to theses about the divine. The latter are often crucial elements of natural law theorizing, having an integral role in accounting for the metaethical status and ethical bindingness of natural law. At the same time, the question of the relation between natural law and God and the relation between natural law and divine command has been addressed in a multiplicity of ways by key figures throughout the history of natural law theorizing, and these essays accord them the explanatory significance they deserve.

Human Action in Thomas Aquinas, John Duns Scotus, and William of Ockham Thomas Michael Osborne, 2014. This book sets out a thematic presentation of human action, especially as it relates to morality, in the three most significant figures in Medieval Scholastic thought: Thomas Aquinas, John Duns Scotus, and William of Ockham.
