St At Buckinghamshire Spi 3ed:

A Sermon Preached at the Parish Church of St. Andrew-- on Tuesday, April 30, 1816 Daniel Corrie, 1816 *The Literary World*, 1870 **Embodying the Militia in Georgian England** Matthew McCormack, 2015-09-03 The militia was a key institution in Georgian England and arguably one that was very characteristic of its age A militia is an informal military organisation made up of part time civilians rather than professionals As an island Britain had historically relied on forces of this type for home defence but threats of a French invasion during the Seven Years War 1756-63 highlighted that the militia had fallen into disrepair and prompted calls for its revival In this important new study Matthew McCormack re-examines the debates on the militia and argues that this military reform was informed and driven by concerns about politics nationalism and gender The militia tells us a great deal about the political culture of the eighteenth century which was suspicious of professional armies and executive power and which placed great emphasis on the liberties and masculine attributes of the ordinary citizen Its advocates even suggested that mass military service would prompt a reinvigoration of English masculinity The Militia Act passed into law in 1757 From this date until the New Militia's slow demise after the Napoleonic Wars *Embodying the Militia in Georgian England* considers civilian men's experience of military service How was the militia embodied both in the contemporary sense of assembling for service and also as a gendered bodily experience Chapters explore questions such as physical training masculine honour material culture self-identity and citizenship As such the volume's interdisciplinary approaches offer new perspectives on the history of war *The Natural History of Northampton-shire with Some Account of the Antiquities (etc.)* John Morton, 1712 *The Jurist*, 1843 **The Crisis of the Meritocracy** Peter Mandler, 2020-09-11 Before the Second World War only about 20% of the population went to secondary school and barely 2% to university today everyone goes to secondary school and half of all young people go to university How did we get here from there The Crisis of the Meritocracy answers this question not by looking to politicians and educational reforms but to the revolution in attitudes and expectations amongst the post-war British public the rights guaranteed by the welfare state the hope of a better life for one's children widespread upward mobility from manual to non-manual occupations confidence in the importance of education in a learning society and a knowledge economy As a result of these transformations meritocracy the idea that a few should be selected to succeed has been challenged by democracy and its wider understandings of equal opportunity across the life course At a time when doubts have arisen about whether we need so many students and amidst calls for a return to grammar school selection at 11 the tension between meritocracy and democracy remains vital to understanding why our grandparents our parents ourselves and our children have sought and got more and more education and to what end **Proceedings of the Church Missionary Society for Africa and the East...**, 1836 *The General Biographical Dictionary Containing an Historical and Critical Account of the Lives and Writings of the Most Eminent Persons; ... a New Ed. by Alex. Chalmers* Alexander Chalmers, 1814 **The General Biographical**

The war on the Western Front as seen through the eyes of one of Germany s leading First World War generals Crown Prince Rupprecht of Bavaria A fascinating and highly revealing view from the other side of the wire which casts the story of the Western Front in an entirely new light **A General Dictionary** Pierre Bayle,John Peter Bernard,Thomas Birch,John Lockman,1738 *Dictionary of national biography, ed. by L. Stephen (and S. Lee). [With] Suppl. 3 vols.;Index and epitome [and] Errata* Dictionary,1887 The English People at War in the Age of Henry VIII Steven J. Gunn,2018 War should be recognised as one of the defining features of life in the England of Henry VIII Henry fought many wars throughout his reign and this book explores how this came to dominate English culture and shape attitudes to the king and to national history with people talking and reading about war and spending money on weaponry and defence **The American Encyclopaedic Dictionary** ,1897
